OBJECTION OF USW 11-6 TO PROPOSED TARIFF REVISION

Comes now USW 11-6 and objects to Laclede Gas Company's (Laclede) requested revision to its tariff for the following reasons:

1. Laclede seeks revision of its tariff to reflect that it is not liable for damage arising or relating from gas distribution systems located between the meter and the end-use device (i.e., "on the customer side").
2. The revision sought by Laclede, Tariff No. JG-2009-0145, could significantly, adversely impact the health and safety of the consumer, because it would eliminate the incentive Laclede currently has to conduct a thorough safety inspection of the entire gas distribution system — both Laclede-side and customer-side — after most repair and maintenance work it performs.
