CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge as outlined in Sheet F-1 will be assessed to cover the cost of processing this transaction.

+

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

CLASSIFICATION OF SERVICE
RETURNED DEPOSIT ITEM CHARGE

Provided a Customer's check or Electronic Fund Transfer ("EFT") is properly processed by the Company, if a check or EFT that has been received as payment for service is returned by the bank unpaid, a Returned Deposit Item charge as outlined in Sheet F-1 will be assessed to cover the cost of processing this transaction.

+

The Returned Deposit Item charge for the dishonored check or EFT may be reflected, at the Company's option when the Company returns the dishonored check or EFT or may be charged on the Customer's next billing.

The Company may serve a Customer on a cash-only basis if more than one check or Returned Deposit Item of the customer is returned NSF or any other valid return reason in a 12-month period. "Cash" shall be deemed to mean U.S. currency, money order, or certified check.

RATE A
METER RATE - RESIDENTIAL AND COMMERCIAL

AVAILABILITY – This rate is available to all residential (“domestic”), commercial and all other metered customers not eligible for Rate B, Rate D, Rate J, and Rate K tariff customers.

A "residential" ("domestic") customer, under this residential rate classification, is a customer who purchases water for "Domestic use", under this residential rate classification, includes that portion of water which is ultimately delivered to a single or multiple family dwelling, and shall apply to all such purchases regardless of whether the customer is the ultimate consumer.

This tariff is intended to satisfy the provisions of section 144.030 (23), RS Mo, by establishing and maintaining a system and rate classification of "residential" to cause the residential sales and purchases of water under this tariff to be considered as sales made for domestic use and thus exempt from sales tax.

(1) CONTRACT TERM AND BILLING - Standard contracts are on a yearly basis, with monthly billing for service.

RATE COMPONENTS:

MINIMUM CUSTOMER CHARGE (2) - The minimum charge for water service available through the facilities of the Company for the billing period and for the meter size furnished the customer is:

Meter Size	(AM) Monthly Billing	
5/8"	\$9.65	+
3/4"	\$10.77	+
1"	\$13.05	+
1-1/2"	\$18.66	+
2"	\$25.40	+
3"	\$43.42	+
4"	\$63.67	+
6"	\$119.97	+
8"	\$187.51	+
10"	\$277.57	+
12"	\$367.63	+

COMMODITY CHARGE (1) - In addition to the Minimum Customer Charge, for all water used as registered by the meter the Commodity Charge is \$2.3925 per 100 cubic feet or \$3.1901 per 1,000 gallons.

RATE E
PRIVATE FIRE PROTECTION

AVAILABILITY

For fire protection systems installed on private property. Expense of the installations will be borne by the customer. If in the opinion of the Company, a detector check meter is needed, the cost shall be a part of the installation. If a detector check meter has to be added to an existing service not having the check meter, the cost will be paid by the customer.

RATE (1) - Customer with unmetered fire protection will be billed at the following rates based upon the tap size in the Water Company's main (tap size for multiples of smaller taps for one line shall be the equivalent connection had a single tap been used) :

<u>Tap Size</u>	<u>Annual Rate</u>	<u>Monthly Rate</u>
2" or less	\$30.98	2.58
3"	\$100.49	8.37
4"	\$123.67	10.31
6"	\$278.26	23.19
8"	\$494.74	41.23
10"	\$773.07	64.42
12"	\$1,113.32	92.78
20"	\$2,946.76	245.56

+
+
+
+
+
+
+
+
+
+

Charges for Private Fire Protection for larger than 12" taps must be individually negotiated with the Water Company.

DETECTOR CHECK METERS - In addition to the tap size charge, fire lines with detector check meters will be billed as follows:

For all water used as registered by the meter the Commodity Charge is the same as the Rate A Commodity Charge shown on Sheet No. E-1.

+

Minimum Charge - The following charges must be paid on all detector check meters in addition to the Commodity Charge:

<u>Meter Size</u>	<u>Monthly Charge</u>	<u>Annual Charge</u>
5/8"	\$12.99	155.88
3/4"	\$14.01	168.12
1"	\$16.05	192.60
1-1/2"	\$21.11	253.32
2"	\$27.20	326.40

RATE E-1
PUBLIC FIRE HYDRANT SERVICE - CITIES, TOWNS, VILLAGES

APPLICABILITY - This Public Fire Protection Service Charge shall apply to all active Rate A and J customers located in incorporated cities, towns and villages.

MONTHLY CHARGE - A monthly public fire hydrant service charge shall be determined for each incorporated city, town or village and shall be computed in accordance with the following formula:

$$\text{Monthly Charge (1)} = \frac{(N \times R) + U}{A \times 12}$$

Where within city, town or village:

N = Number of Public Fire Hydrants at date of determination.

R = Annual Service Charge of \$278.26 per fire hydrant.

U = Unamortized investment in fire hydrants ordered removed, relocated, or discontinued plus cost of removal less salvage in the most recent 12 - month period ending December 31.

A = Number of Active Rate A and J customers at date of determination.

BILLING - Billing will be rendered either monthly in advance, consistent with the billing period for regular water service. Billing for this service shall be in addition to charges for regular water service. For each new active customer billing shall start with the first billing period. Customers terminating service within a billing period shall not be entitled to a refund of any part of a previously paid fire hydrant charge.

PAYMENT TERMS – Refer to Sheet E-1 for payment terms. In all cases of nonpayment of the public fire hydrant service charge, water service may be discontinued in accordance with the provisions of Rule 9.

ADJUSTMENT of fire hydrant service charge. The monthly fire hydrant service charge shall be adjusted annually on March 1 of each year, based on December 31 data of the previous year or, at its option, the Company may recompute the monthly service charge at any time to reflect changes in number of customers or fire hydrants in the incorporated city, town, or village that results in a variation of \$0.01 or more in the monthly charge.

This rate does not include any Municipal, State, or Federal taxes computed on either billing or consumption basis. Any such taxes shall be added as separate items in rendering each bill.

Rule 7 Cross Connection

(c) FIRE PROTECTION SYSTEMS

1. All new fire protection systems connected to the Company's water supply shall be protected from back pressure and back siphonage by one of the following testable devices:
 - Double Check Detector assembly (DCDA).
 - Reduced Pressure Detector Assembly (RPDA).
2. Fire protection systems that contain antifreeze, fire retardant, or other chemicals must be equipped with an RPDA.
3. A RP may be used to isolate a branch line(s) of the fire service that contains chemicals, at the discretion of the Company. In this case, a DCDA may be installed as the containment assembly.
4. Existing fire protection systems must be equipped, at a minimum, with a double check valve assembly (DC) unless the system contains chemicals. In this case, the system must be equipped with an RP.
5. When an existing fire protection system equipped with a DC is extended or renovated, the system's backflow prevention device must be upgraded to a DCDA.

RULES, REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 9.1 – Renewal of Water Service After Discontinuance (Cont'd)

(F) When it has been necessary to discontinue water service to any premises because of a violation of the Rules and Regulations or on account of non-payment of any bill, except for non-payment of a sewer bill pursuant to Rule 9(B) VIII, a charge will be made to restore water service. Refer to Sheet No. F-1 for charges to restore service during regular hours or after regular hours or on Saturdays, Sundays, or holidays. This charge together with any arrears that may be due the Company for charges against the Customer, and any service deposit required by the Company, must be paid before the water will again be turned on.

+
+
+

(G) If at the time of such discontinuance of service, the Customer does not have a deposit with the Company, the Company will require a cash deposit as a guarantee of the payment of future bills before the water will be turned on.

Rule 9.2 – Security Deposits

(A) The Company may require a security deposit or other guarantee as a condition of new water service due to any of the following:

- I. The Customer has outstanding with the Company or a utility providing the same type of service, an unpaid service account which accrued within the last five years and at the time of the request for water service, remains unpaid and not in dispute.
- II. The Customer has an unauthorized manner interfered with or diverted the service of a utility providing the same service situated on or about or delivered to the Customer's premises within the last five years.
- III. The Customer is unable to meet credit rating standards for water utilities. The Customer shall be deemed to have established an acceptable credit rating if the Customer meets any of the following criteria:

RULES, REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 12 Service Charges

(A) A service charge, outlined in Sheet F-1, will be charged for a service connection during the Company's regular business hours. Services turned on at the request of the Customer after regular business hours or on Saturday, Sunday or holidays will be charged an amount outlined in Sheet F-1.

+

This Service Charge is applicable whenever the Company makes a special trip to read the meter for an initial meter reading and/or to make a connection for a new customer for the premises to which service is requested.

+

(B) A disconnection (turn-off) of an existing service will be made during the Company's regular business hours without charge.

**RULES AND REGULATIONS GOVERNING RENDERING
OF WATER SERVICE**

Rule 12 (SERVICE CHARGES (cont.))

- (f) Company personnel will conduct necessary investigations for unusually high consumptions, checking meter readings, reasonable enforcement of these rules and regulations, or to satisfy Customer inquiries upon either Company instigation or Customer request. However, after making one (1) such special meter reading or investigation at the request and for the convenience of the Customer, any additional services of this nature performed for the Customer within a calendar month's time shall constitute special services and the Company shall require a charge. Refer to Sheet No. F-1 for the charge during regular business hours or after business hours.
- (g) Company personnel will not work upon water piping or facilities not owned by the Company.
- (h) An investigation report fee shall be made when an inspection by Company personnel is required to insure compliance with Rule 6 (Customer Service). Refer to Sheet No. F-1 for the charge during regular business hours or after business hours.
- (i) The service charge cited in the various sections of this Rule are "net" and do not include any applicable municipal, state, or federal taxes computed on the Company's collections of such charges. Any such taxes will be added in collecting or billing service charges, as appropriate.

RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 14 METER TESTS AND TEST FEES

- (A) Any Customer may request the Company to make a special test of the accuracy of the meter through which water is supplied to him. This test will be made in accordance with the standard regulations of the commission.
- (B) The Company reserves the right to remove and test a meter at any time and to substitute another in its place. In case of a dispute involving a question as to the accuracy of the meter, a test will be made by the Company upon the request of the Customer without charge if the meter has not been tested within twelve (12) months preceding the requested test; otherwise a charge will be made pursuant to Sheet F-1 if the test indicates meter accuracy within five per cent (5%) or less.
- (C) A meter test requested by the Customer will be witnessed by the Customer or his duly authorized representative, except for tests of meters larger than two (2") inch inlet which will be conducted by the meter manufacturer and a certified copy of the test provided to the customer.
- (D) If a test shall show an average error of more than five (5%) per cent, billings shall be adjusted as provided in Rule 15.

RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 17 Private Fire Protection

A. Application for private fire protection service will be considered by the Company subject to the availability of water mains of sufficient size, and the furnishing of fire protection service shall be on the basis of pressure and volumes as may exist in the locality, which pressures and volumes are not guaranteed by the Company.

B. When fire flows are necessary (whether for a single premises or on a Master Water Service Line which is metered at its connection to the Company's main), the meter(s) must be capable of measuring a full range of flows required by the customer (both domestic and fire flows). The Customer with approval from the Company may choose the preferred method of:

A combination service line with a meter designed for both domestic flows and fire flows, typically referred to as a "fire flow" meter, or an approved meter by the Company. That portion of the dual purpose service line from the Company main to the property line shall be the property of the Company in consideration of its perpetual maintenance and upkeep excluding St. Louis County Operations.

Based on Customers needs and premise requirements, The Customer with approval from the Company may also choose between:

- 1) a split service line configuration which uses a detector check meter(s) on the fire line and a meter suitable for the reasonably anticipated domestic usage requirements on the line not used for fire protection, or
- 2) a dedicated fire service line with detector check meter, which is separate from the domestic water service line.

C. If unauthorized usage is made of the fire protection facilities, or unusual circumstances develop, the Company reserves the right, at any time, to install a meter or flow-detection device. In such circumstances the Company will provide the meter, but the cost of meter installation including necessary plumbing, fittings, vaults or meter settings necessary for the installation shall be paid by the customer.

D. All new Private Fire Service Line Connections shall include installations of a valve, as approved by the Company, of the same size as the service connection at the junction of the water main, along with an approved backflow prevention assembly with detection meter. The Company or Company's representative will make the service tap to its main at the cost and expense of the Customer. The backflow assembly must be installed on the customer premises in an in-ground vault, above ground, or inside a building. The installation and operation of the backflow assembly must conform to the requirements of the Company and the Department of Natural Resources and shall remain the sole responsibility of the Customer for periodic inspections, testing and maintenance by the Customer. Should a Customer fail to have the backflow assembly inspected, tested or maintained, the Company will refuse to continue service to the premise until such time as the Customer complies with the Rules.

E. No Private Fire Service Line Connections shall be used for domestic, commercial or industrial use unless such connection is authorized by the Company in writing.

F. All new sprinkler pipes and other private fire connection pipes shall be so placed as to be readily inspected. If the pipes are concealed on existing services or not readily identifiable, or if any authorized connections for other uses are in existence, meters shall be installed on each service at the expense of the Customer.

RULES AND REGULATIONS GOVERNING RENDERING OF WATER SERVICE

Rule 17 Private Fire Protection (continued)

- G. The size of the private fire service connection shall be determined by the Company. *
- H. Customers desiring private fire service must consult, before installation, with the Company as to the availability of mains and pressure. In the event a private fire service connection is requested at a point not already served by a main of adequate capacity, at the sole discretion of the Company, a main extension will be required as provided in the rule for Extension of Company's Water Mains. *
- I. Private fire hydrants not installed on public right-of-way or on Company easement and connected to Company mains shall be subject to required contracts as provided in the Company's applicable rate schedule. *
- J. At the sole discretion of the Company, the preferred method of private fire line installation that may be permitted would be a combination water service line for both Domestic and Private Fire service. *
- K. Any modifications to any existing service lines to retrofit a fire suppression system for either residential or commercial shall have written approval of the Company, Fire authority, and the division of plumbing having jurisdiction of the Premises to be served prior to modification and or installation of said fire suppression system. *
- L. An applicant for Split, Combination Water Service lines, Special Connections(s) or dedicated fire service lines shall comply with all provisions specified in the Application for Special Connection which may be modified, altered or changed from time to time by the Company. *
- M. Service connections for water to be taken for the extinguishment of fire shall be made only upon the terms as provided for in the "Application for Special Connection" for such service, a copy of which is available at the Company office, and then only after such application has been approved in writing by the Company designee, as well as by the Fire Protection Authority designee. *
- N. A valve controlling the entire supply, as approved by the Company, shall be placed either at the curb or at such other point as may be approved by the Company, and said valve shall be at the expense of the Customer, and any valve pit or vault which may be required will also be furnished by and at the expense of the Customer. *
- O. Where split services are used for both general and fire purposes, separate charges will be made for each type of service in accordance with the established schedule of rates. *
