
RULES AND REGULATIONS

35. Conservation and Energy Efficiency Programs (continued)

K. Spire West Specific Programs (continued)

Independence Power & Light (IPL) Pilot Weatherization Program (continued)

(4) Terms and Conditions:

The THHFH will conduct a "clip board" audit within the eligible homes with energy saving measures identified. The THHFH Construction Director shall then approve a detailed scope of work for each home consistent with a list of weatherization services which include HVAC repair/replacement with a 90%+ AFUE or greater, attic insulation – up to R-49, water heater replacement and other general sealing and weatherization measures, including weather-stripping, caulking, outlet/light switch gaskets, installation of other minor sealing materials where feasible, minor exterior home repair to reduce air infiltration, HVAC filter replacement for existing systems, low-flow faucet aerators and showerheads, and water heater insulation pipe wrap.

The cost of weatherization services provided for any single household cannot exceed \$7,500 with the total allocated 50% - IPL and 50% - Spire West.

(5) Program Funding

A maximum of \$100,000 From Spire West's Conservation and Energy Efficiency Program funding will be applied to this Program for Spire West's share of the funding.

(6) Program Evaluation

Spire will conduct an internal billing analysis of the pilot Program every 24 months to make a determination regarding the cost-effectiveness by comparing the energy savings of participants with a non-participant comparison group. The cost-effectiveness metrics and test will be added but shall not be used to exclude or diminish low-income programs, but instead shall be used to improve program delivery and effectiveness.
