RE: FILE NO. CA-2014-0374

Notice of Election of Midwest Data Center Inc. to Detariff Pursuant to Section 392.461, RSMo.

Dear Secretary:

On August 22, 2014, in File No. CA-2014-0374, Midwest Data Center was granted certificate of service authority to provide basic local service in the state of Missouri. Ordered Paragraph Number Eight of the Commission's Order required Midwest Data Center to file a tariff prior to offering service. To date, Midwest Data Center has not filed a tariff or offered basic local service. However, Midwest Data Center intends to offer service in the near future.

Section 392.461 allows telecommunications companies, upon notice to the Missouri Public Service Commission, to elect to be exempt from the requirement that they offer retail services to residential or business end users only through tariff, and to withdraw such tariffs.

Midwest Data Center Inc. hereby provides notice of its election to be exempt from tariff filing requirements pursuant to Section 392.461.

Compliant with the requirement that electing companies publish generally available retail prices on a website, the Local Terms of Service containing the terms and conditions and rates for services will be located on Midwest Data Center's site at www.mwdata.net/tariffs.

If you have any questions or need additional information, you may call me at 660-744-5343

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Goins", with a long horizontal line extending to the right.

Michael Goins
