Case No. _____

APPLICATION FOR CHANGE OF ELECTRIC SERVICE PROVIDER

1. Applicant's address is: 710 S. Harrison St.

Nixa, Mo. 65714

2. The name of Applicant's current electric service provider is:

White River Valley Electric Co-op

3. Applicant requests the Missouri Public Service Commission to order a change of electric supplier to the address indicated above.

4. Applicant requested the Commission to order a change of electric supplier from White River Valley Electric Co-op
(Current)

to City of Nixa Electric
(Requested)

5. Applicant requests the Missouri Public Service Commission to order a change of electric provider for the following reasons.*

Our names are Joe D. Carter and Ruth D. Carter. We are making request for change of electric service from White River Valley Electric Service to City of Nixa.

We have sold our property to a developer excluding one acre wherein our home and a mobile home are located (the mobile home has been here for several years).

The developer wishes to change the overhead electrical lines to underground, which mean crossing two properties and going under a street, also tearing out concrete and changing

our meter base to underground service.

By granting our request, we can be taken into the City of Nixa and receive water, gas, sewer, and all the other services that go with being in the city.

This change will not affect any other White River customers, since it is a dead-end line.

However, I would like to add that our service from White River has been very satisfactory.

6. Applicant has taken the following steps in an attempt to work out electric service problems with the electric service provider: Information from White River Valley Electric Co-op stated I needed to go to the Missouri Public Service Commission to make this change.

WHEREFORE, Applicant requests the Missouri Public Service Commission to issue an Order which changes the current electric service provider.

*If reason for change is poor service, outages, low voltage, etc., applicant should submit a record of service problems covering at least 90 days, including dates and times of problems to the extent possible. Applicant should also attempt to determine reasons for any service problems. For instance, if electric service was out or you are experiencing blinking lights, you should contact the supplier of electric service to determine the problem, and include this information with the application. (If the reasons from the supplier was a storm, car hitting pole, trees in line, conductor fell down, or whatever the supplier states for the problem, this should be noted.)
