1 A Yeah.	1	A Well, it was you know, they were in
1 2 Q What were you told?	2	and out. They would all have some reason to have
3 A It was pretty brief. One of the	3	to leave and go do something else. And, you
4 supervisors had a sheet that showed you the	4	know, sometimes it would just be one person
	5	there, and sometimes none, if we were taking a
5 way they pay is, it's \$7 an hour. Then you get	ł	
6 piecework after that. And it's for the first 50	6	meter reading test or something like that, you
7 that you do in a day, you get \$1.15, or something	7	know.
8 like that. And then for the next 10, you get	8	Q Okay. And this room was a room that
9 \$1.25. And that might be wrong. And then	9	had the other 11 to 12 other people in it with
10 anything above that, you got a little bit more.	10	you, and was that it?
11 Q Okay. So the numbers of the piecework	11	A Right. Yes.
12 are approximate because you don't recall exactly?	12	Q All right. What happened after the
13 A I don't recall exactly, but those are	13	supervisor gave you guys the pay scale?
14 very close.	14	A Well, that was, like I say, very
15 Q All right. And you said one of the	15	early. And then we spent the rest quite a bit
16 supervisors said this. Was this not Wilma?	16	
17 A Right. She wasn't in the room at the	17	entailed was they would they had a slide show.
18 time. And he had brought that sheet out, and	18	It would show you a picture of a meter index, and
	19	we would read it and write it down. And they
19 then showed it to us. And then was I believe,		
20 had to return the sheet, because I think he	20	would go correct it to see how close we were, and
21 realized he had made a mistake by showing it to	21	then we would do it again.
22 us in the first place.	22	Q And how long did that take?
23 Q Okay. And the sheet you are referring	23	A I think that was quite a bit of the
24 to now is the sheet with the criteria for being	24	day.
25 hired at three months?	25	Q And were you told what the purpose was
Page 27		Page 29
í	1	for you learning how to read a meter?
1 A No. No. This was the sheet that had	1	
2 the pay scale on it.	2	A Well, you have to program the AMR when
3 Q Okay. So you never had a piece of	3	you install it, so putting the right meter
4 paper with the pay schedule. You but you saw	4	reading in is crucial.
5 him hold one?	5	Q All right. Tell me what you mean by
6 A Right.	б	programming the AMR.
7 Q In your approximately three months	7	A Well, the AMR broadcasts the meter
8 with Honeywell, were you actually paid in	8	reading. So you're telling the AMR what its
9 accordance with what he told you that day?	9	starting point is. And because since it's
10 A I believe I was, but I didn't keep	10	broadcasting this signal out, it has to tell the
11 track of it.	11	gas company what the correct reading is.
12 Q All right.	12	Q All right. And you have been using
	13	this term, and I think I have, too. AMR. What
13 A You know. Just trusted that they were	14^{13}	is an AMR?
14 calculating it right.	$14 \\ 15$	
15 Q And do you remember this male	15 16	A That's, I think, automatic meter
16 supervisor's name?	i n	reader.
17 A I sure don't.	17	Q All right. I just wanted to make sure
18 Q All right. Can you tell me how many	17 18	we were on the same page about that.
	17 18 19	we were on the same page about that. A Sure.
18 Q All right. Can you tell me how many	17 18	we were on the same page about that.A Sure.Q Okay. Were the other supervisors in
 18 Q All right. Can you tell me how many 19 supervisors were in the room that day? 20 A Probably three. 	17 18 19	we were on the same page about that. A Sure.
 18 Q All right. Can you tell me how many 19 supervisors were in the room that day? 20 A Probably three. 21 Q Okay. And was your supervisor Wilma 	17 18 19 20	we were on the same page about that.A Sure.Q Okay. Were the other supervisors in
 18 Q All right. Can you tell me how many 19 supervisors were in the room that day? 20 A Probably three. 21 Q Okay. And was your supervisor Wilma 22 one of those three at some point during the day? 	17 18 19 20 21	 we were on the same page about that. A Sure. Q Okay. Were the other supervisors in the room on this day in December, were they Honeywell employees, or were they Cellnet
 18 Q All right. Can you tell me how many 19 supervisors were in the room that day? 20 A Probably three. 21 Q Okay. And was your supervisor Wilma 22 one of those three at some point during the day? 23 A At some point, yeah, but she wasn't 	17 18 19 20 21 22 23	 we were on the same page about that. A Sure. Q Okay. Were the other supervisors in the room on this day in December, were they Honeywell employees, or were they Cellnet employees? Do you know?
 18 Q All right. Can you tell me how many 19 supervisors were in the room that day? 20 A Probably three. 21 Q Okay. And was your supervisor Wilma 22 one of those three at some point during the day? 	17 18 19 20 21 22	 we were on the same page about that. A Sure. Q Okay. Were the other supervisors in the room on this day in December, were they Honeywell employees, or were they Cellnet

.

<u> </u>	Page 46		Page 48
 1	A That's correct.	1	least knew what the AMR device was and
1 2	Q Okay. Do you put the cover back on?	2	A No.
3	A You put the cover for the AMR device,	3	Q What how did that happen? What
4	not the original cover. The original one goes to	4	kind of training did you get?
5	the garbage.	5	A It was just, here's a screwdriver; you
6	Q Because the original cover is not	6	know, have at it. It's they're very simple.
7	going to fit?	7	Q But did somebody even point out which
8	A No. Not even close.	8	was the device that you wanted to be taking on
9	Q Okay. So when you put this new cover	9	and off?
10	on for the AMR device, it now does that cover	10	A Well, it would have been obvious, but
11	go all the way back to the meter and seal it?	11	somebody may have said take this off. But it was
12	A No. The AMR device has a seal	12	clearly it was you know, any reasonably
13	separately on the backside that makes contact to	13	intelligent person would have known what they
14	the meter. And then the AMR cover just seals	14	needed to do.
15	itself. I mean, it is sealed, but the seal for	15	Q You're talking to attorneys here, who
16	the AMR between the there's a seal between	16	are not necessarily very good with their hands.
17	the AMR and the gas, the gas meter.	17	Okay. Were the meters that the three meters
18	Q And then there's another seal between	18	that the 12 to 13 of you were given to practice
19		19	on, were they brand new meters? Were they older
20	A Yeah. It's not really quite a seal,	20	meters?
21		21	A I think they were probably older
22	seems to me that it would seal pretty well. But	22	meters. I don't remember them being, you know,
	I don't it wasn't there wasn't something	23	very clean or anything like that.
24	that's specifically called a seal, like, you	24	Q Okay. Did they were they in good
25	know, a gasket.	25	shape?
	Page 47		Page 49
1	Q Right.	1	A As far as I know. I
2	A Like, on the backside of it.	2	Q Did the screws come in and out easily?
3	Q Okay. And I just want to get a	3	A Oh, yeah. Yeah.
4	picture of this in my mind. And I'm sorry I'm	4	Q Okay. Were there did you have any
5	I'm going through this in so much detail. But I	5	problems installing, re-installing, installing
6	just want to make sure I understand. So then the	6	and removing, I guess, that device on those three
7	cover, the AMR cover, doesn't go all the way back	7	meters that day?
8	to the gas meter, but goes does it cover the	8	A It wasn't if it had been a problem
9	entire index?	9	doing it, you wouldn't no one would tell you.
10	A Oh, yes.	10	It was just, you know, take a look at these and
11		11	see how they work. You could have had a problem
	Q Okay.	10	in whether the easy in the in the motor is
12	A Yeah.	12	in whether the cog in the in the meter is
12 13	A Yeah.Q But it doesn't try does it try to	13	matching up with the whatever device is
12 13 14	A Yeah. Q But it doesn't try does it try to cover the AMR device as well?	13 14	matching up with the whatever device is supposed to be picking that up, to, you know,
12 13 14 15	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed 	13 14 15	matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to
12 13 14 15 16	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air 	13 14 15 16	matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you
12 13 14 15 16 17	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you 	13 14 15 16 17	matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day?
12 13 14 15 16 17 18	A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know.	13 14 15 16 17 18	matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a
12 13 14 15 16 17 18 19	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know. Q Okay. Okay. So back to this training 	13 14 15 16 17 18 19	matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a problem.
12 13 14 15 16 17 18 19 20	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know. Q Okay. Okay. So back to this training that you received on your first day there. You 	13 14 15 16 17 18 19 20	 matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a problem. Q Okay. So, were the supervisors there
12 13 14 15 16 17 18 19 20 21	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know. Q Okay. Okay. So back to this training that you received on your first day there. You had these three devices that or these three 	13 14 15 16 17 18 19 20 21	 matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a problem. Q Okay. So, were the supervisors there to watch you guys install and remove this AMR
12 13 14 15 16 17 18 19 20 21 22	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know. Q Okay. Okay. So back to this training that you received on your first day there. You had these three devices that or these three meters that you could take the AMR device on and 	13 14 15 16 17 18 19 20 21 22	 matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a problem. Q Okay. So, were the supervisors there to watch you guys install and remove this AMR device?
12 13 14 15 16 17 18 19 20 21 22 23	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know. Q Okay. Okay. So back to this training that you received on your first day there. You had these three devices that or these three meters that you could take the AMR device on and off of. Were you guys just turned loose on them? 	13 14 15 16 17 18 19 20 21 22 23	 matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a problem. Q Okay. So, were the supervisors there to watch you guys install and remove this AMR device? A There might have been a supervisor in
12 13 14 15 16 17 18 19 20 21 22	 A Yeah. Q But it doesn't try does it try to cover the AMR device as well? A The AMR device is completely sealed when the cover is on, or or, I should say, air tight, or whatever. It's going to stay dry, you know. Q Okay. Okay. So back to this training that you received on your first day there. You had these three devices that or these three meters that you could take the AMR device on and off of. Were you guys just turned loose on them? Did somebody show you how to take them on and off 	13 14 15 16 17 18 19 20 21 22	 matching up with the whatever device is supposed to be picking that up, to, you know, transfer it to Q Did that happen to anybody while you guys were practicing that day? A I don't know of anybody with a problem. Q Okay. So, were the supervisors there to watch you guys install and remove this AMR device?

KAESBERG REPORTING

		1		
	Page 74		Page	76
. 1	A Only that if you smelled gas, and it	1	concerned about that. But you are just concerned	
2	was a pretty strong smell, then you should call	2	about how many you are going to do, and if you	
3	your supervisor.	3	don't have to knock on somebody's door, you are	
4	Q And who told you that?	4	just motoring down the street and getting them	
5	A I think it was probably mentioned by	5	put in. If you have to wait for somebody to	
6	my supervisor.	6	answer the door, then it takes longer.	
7	Q And you were to call the supervisor;	7	Q Okay.	
8	is that what you said?	8	A And usually you have to unpack their	
9	A Yeah. If it was a the way it was	9	basement to try to get to the meter and all of	
10	explained to me, if it was just a small not a	10	that.	
11	really strong smell, you called her in and let	11	Q Okay. Did you get any feedback about	
12	her know that that you could smell gas. But	12	the number of mistakes you were making?	
13	it was understood that at some times you would	13	A That was a promise to us that we	
14	just smell gas anyway. So if it was very weak,	14	would. But I never did.	
15	you might not worry about it. If it seemed more	15	Q All right. So, do you think you were	
16	significant, then you would call her and she	16	perfect?	
17	would call Laclede Gas, and they would send	17	A I would like to think so, but I doubt	
18	somebody out to check it. If it was a very	18	it. I think you are going to make at least on	
19	strong smell, then often they would ask you to	19	programming, you know, that's where you were	
20	wait there, especially if it was indoors, you	20 21	going to get your feedback, because that's what they were going to want to talk to you about.	
21	know.	22	And, you know, I'm just certain that there's just	
22	Q All right.	22	no way anybody's going to get them all right.	
23	A Then you would wait for Laclede Gas to	24	Q All right. And by programming, I	
24 25	show up. Q Were you given any kind of gas leak	25	mean, you didn't describe any training on the	
<u> </u>	Page 75		Page	77

1 2 3 4	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got	1 2 3 4 5 6	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this	77
1 2 3 4 5	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about	1 2 3 4 5 6 7	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half	77
1 2 3 4 5 6 7 8	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And	1 2 3 4 5 6 7 8	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know,	77
1 2 3 4 5 6 7 8 9	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but	1 2 3 4 5 6 7 8 9	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right.	77
1 2 3 4 5 6 7 8 9 10	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were	1 2 3 4 5 6 7 8 9 10	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned.	77
1 2 3 4 5 6 7 8 9 10 11	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that	1 2 3 4 5 6 7 8 9 10 11	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And	77
1 2 3 4 5 6 7 8 9 10 11 12	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically	1 2 3 4 5 6 7 8 9 10 11 12	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what	77
1 2 3 4 5 6 7 8 9 10 11 12 13	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor.	1 2 3 4 5 6 7 8 9 10 11 12 13	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID	77
1 2 3 4 5 6 7 8 9 10 11 12 13 14	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right.	1 2 3 4 5 6 7 8 9 10 11 12 13 14	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the	77
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right. A So basically, if you're in an older	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to

Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to make sure that this house is going to get the gas bill that's correct and theirs. You know, not	
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right. A So basically, if you're in an older neighborhood they were indoor, and if you were in a newer suburb, then they were all outside. Q Okay. You said that you were told	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to make sure that this house is going to get the gas bill that's correct and theirs. You know, not their neighbor's.	
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right. A So basically, if you're in an older neighborhood they were indoor, and if you were in a newer suburb, then they were all outside. Q Okay. You said that you were told that 40 percent was indoor. Who told you that?	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to make sure that this house is going to get the gas bill that's correct and theirs. You know, not their neighbor's. Q Okay. And when were you taught to do	
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right. A So basically, if you're in an older neighborhood they were indoor, and if you were in a newer suburb, then they were all outside. Q Okay. You said that you were told that 40 percent was indoor. Who told you that? A I think that was from the supervisors.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to make sure that this house is going to get the gas bill that's correct and theirs. You know, not their neighbor's. Q Okay. And when were you taught to do all of this?	
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right. A So basically, if you're in an older neighborhood they were indoor, and if you were in a newer suburb, then they were all outside. Q Okay. You said that you were told that 40 percent was indoor. Who told you that? A I think that was from the supervisors. Q Okay. And, again, you said the	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to make sure that this house is going to get the gas bill that's correct and theirs. You know, not their neighbor's. Q Okay. And when were you taught to do all of this? A On the second day when when I was	
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? A If you were lucky, then you got outdoor meters. But I was told that about 40 percent of the area was indoor. And generally, if you it seemed to be random, but if you got an indoor route, generally you were going to be indoors all day. Because that neighborhood was indoors, then it was basically all indoor. Q Right. A So basically, if you're in an older neighborhood they were indoor, and if you were in a newer suburb, then they were all outside. Q Okay. You said that you were told that 40 percent was indoor. Who told you that? A I think that was from the supervisors. Q Okay. And, again, you said the outdoor meters were easier. Is this because the	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	Page actual programming of the AMR device, other than learning to read the meters. Is that what the programming is, is setting the meter to the number that the old meter had? A There's that, what rate that it clocks at. You have to tell the device whether this meter reads at quarter foot at a time, or a half a foot, or two feet, or whatever. You know, that's the base. You have to set the base right. Because all it knows is that it's being turned. And it needs to know what each turn is. And there was other things there. You know, what type of meter. You had to check the meter ID number. Of course, all the you know, the address. You were basically double-checking to make sure that this house is going to get the gas bill that's correct and theirs. You know, not their neighbor's. Q Okay. And when were you taught to do all of this? A On the second day when when I was out working with Dan.	
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	Page 75 detection device? A No. Q All right. All right. You mentioned indoor and outdoor meters. Were you doing more of one than the other? ⊥ 2		2	been, I suppose, maybe 30, 40 pounds, maybe. I
2	benefits?	3	
3	A No. No. You could get you		don't really know. It's up to you how many
4	could allowed to buy into their health plan,	4	you're going to carry. Some people had, like,
5	or I don't know if they had they probably	5	rolling you know, this luggage situation where
6	had some kind of a retirement thing. They	6	they would carry, you know, 60 devices with them,
7	were you know, the general rip-off stuff. You	7	or 40, or whatever.
8	pay a lot for very little.	8	Q Dollies?
9	Q Did you get any vacation time?	9	A Yeah. You see them in the, you know,
10	A I think Manpower might have something	10	Sears hardware section or something.
11	like that. But I wouldn't have been there long	11	Q All right.
12	enough to see it.	12	MS. SCHRODER: I have no further
13	Q Okay. So for the three months that	13	questions. I don't know what order you guys want
14	you were there, you did not receive any	14	to do this in, if anybody wants to ask any
15	compensation from Manpower or Honeywell, other	15	questions.
16	than the \$7 an hour and the \$1.15 per meter up to	16	MR. ZUCKER: Okay. I'll go ahead.
17	50, et cetera?	17	Mile 20 Citeres. Okuy. Th go unoud.
	,	18	CROSS EXAMINATION
18	A Right. That but I actually did buy	1	
19	into the cheapest health thing for the last	19	QUESTIONS BY MR. ZUCKER:
20	month.	20	Q This is Rick Zucker. I'm an attorney
21	Q Okay. Did you receive at any of	21	with Laclede Gas Company. Do you have any idea
22		22	what this case is about?
23	meetings, or in your first day of training, did	23	A I suppose it's about the union and
24	where we are in a set of a fate training about	24	being upset about losing jobs. But I don't know
2 4	you receive any kind of safety training about	23	boing upoet about fosing jobs. But I don't mion
	driving?	25	that. I just suspect it.
		25	
25	driving? Page 99	25	that. I just suspect it. Page 10
25 1	driving? Page 99 A No. Other than that they told us that	25	that. I just suspect it. Page 10 Q How did you get contacted to do this
25 1 2	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we	25 1 2	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know?
25 1 2 3	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them.	25 1 2 3	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I
25 1 2 3 4	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right.	25 1 2 3 4	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when
25 1 2 3 4 5	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it.	25 1 2 3 4 5	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when I was completely disgusted with the job. So
25 1 2 3 4 5 6	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it. Q And did you receive safety training	25 1 2 3 4 5 6	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when I was completely disgusted with the job. So after visiting four different unions and not
25 1 2 3 4 5 6 7	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it. Q And did you receive safety training about dogs?	25 1 2 3 4 5 6 7	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when I was completely disgusted with the job. So after visiting four different unions and not getting one bit of support from any of them, one
25 1 2 3 4 5 6 7 8	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it. Q And did you receive safety training about dogs? A Nothing no. You are just told that	25 1 2 3 4 5 6 7 8	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when I was completely disgusted with the job. So after visiting four different unions and not getting one bit of support from any of them, one of them contacted, I believe, this law firm and
25 1 2 3 4 5 6 7	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it. Q And did you receive safety training about dogs? A Nothing no. You are just told that if you were uncomfortable going into somebody's	25 1 2 3 4 5 6 7 8 9	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when I was completely disgusted with the job. So after visiting four different unions and not getting one bit of support from any of them, one of them contacted, I believe, this law firm and said that I was probably a disgruntled employee.
25 1 2 3 4 5 6 7 8	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it. Q And did you receive safety training about dogs? A Nothing no. You are just told that if you were uncomfortable going into somebody's backyard with that had a dog, that you didn't	25 1 2 3 4 5 6 7 8 9 10	that. I just suspect it. Page 10 Q How did you get contacted to do this deposition, do you know? A I believe I was contacted because I was trying to unionize all my boys out there when I was completely disgusted with the job. So after visiting four different unions and not getting one bit of support from any of them, one of them contacted, I believe, this law firm and said that I was probably a disgruntled employee. That's how I suspect I did.
25 1 2 3 4 5 6 7 8 9	driving? Page 99 A No. Other than that they told us that we were supposed to wear our seatbelts as we worked for them. Q All right. A I believe that was it. ' 1	he's speculated about.	1	is a management style that was going on there.
2	MR. ZUCKER: I'm just establishing	2	Q Okay. And so you said that your
3	that he's speculating. But I think you're right.	3	supervisor would both congratulate people for a
4	He already said that.	4	good day
5	Q (By Mr. Zucker) Okay. And what were	5	A This was the general manager.
6	you actually doing to try to unionize the people	6	Actually, the regional manager. She's somebody
7	that worked on the AMR installations?	7	who would not normally never be there. But one
8	A Yeah. I'm just a hothead and I don't	8	of the last meetings I went to, it was a
9	like temp agencies. And I particularly didn't	9	particularly rainy day. And she had, the same
10	like the way they spoke and to us, and the way	10	time, congratulated everybody because we had
11	they treated us. And I particularly couldn't	11	gotten so many done, and then in the same
12	stand the way they paid. I mean, you could	12	meeting, started threatening us about not getting
13	actually go out and make \$8 an hour on a	13	enough stuff done. I mean, it was all that
14	particular day. Not because you weren't doing	14	was all the same meeting. Oh, you guys did great
15	nothing, but because you were working hard and	15	on Monday. You installed this many. That's just
16	you just couldn't find anybody home.	16	exactly what we're looking for. And then, you
17	So when I got my fill of disgust, I	17	know, five minutes later using things like, well,
18	decided to go visit some unions and see if I	18	the ax is going to fall if you don't get so many
19	could get somebody to take an interest in maybe	19	done.
20	coming out and taking a look at us.	20	Q Did you feel that applied to you,
21	Q Which unions did you talk to?	21	personally, or to other people who might not have
22	A I went to the Carpenters, Gas Workers,	22	been putting in much?
23	Teamsters, and Steelworkers, maybe? One of them	23	A I wouldn't have taken it personally.
24	was by phone that I talked to, and not being in	24	It wouldn't have occurred to me.
25	their office	25	Q Was the pay I wasn't quite clear on
E	Page 103		Page 105
4	O One by share and the others ware	1	the pay. Is \$7 an hour a base, plus the
1	Q One by phone and the others were	2	piecework?
2	A Actually, two by phone. Gas Workers	-3	A Yeah. And then plus the piecework.
3	was phone, too. And I went to visit the		If you went out and installed nothing, you would
4	Teamsters specifically and Carpenters	5	get \$7 an hour.
5	specifically. Q Have you ever been a member of the	6	Q And if you would install 50 in, let's
6 7		7	say, seven hours, you would get \$7 times seven,
	union? A I used to be in the Carpenter's Union.	8	plus 50 times \$1.15?
8		9	A That was really quick math. But what
9 10	Q When was that? A It was probably about well	10	you would get is the 1.15 times how many you
10	A It was probably about well, maybe '78, '79, right around in there.	11	installed, up to 50, and then after that it went
11 12		12	up a dime or something.
13		13	Q Was there any adjustment for whether
$13 \\ 14$	A No. Just that one. Q Have you ever been in management?	14^{13}	you were to go indoor versus outdoors?
14 15	A No, I don't think so.	15	A No. No, there wasn't. So if you were
15 16		16	pulled indoors all the time, you were just told,
17	Q Would it be fair that you did not like your supervisor at this job?	17	tough luck.
18	A No. She was a decent person. I mean,	18	And you say, hey, I'm not making any
$10 \\ 19$	she was an all right person, but she was you	19	money, and half the places are abandoned, and I'm
20	know, she just worked for a company that well,	20	only getting 11 or 10 or 7 done a day, the answer
	let me rephrase. She was retired from the Army.	21	was, tough luck.
21		22	Q So if you take the time to knock on a
22	So, even though she's a nice person, she has her head completely screwed up because she was in the	22	door and if you took your time to knock on a
22	head completely sciewed up because she was in the	23	
23		24	door and no one answered that door, after you
23 24 25	Army for so long. So, you know how you can do something right, or you do it the Army way. This	24 25	door and no one answered that door, after you waited some period of time, you would then move

27 (Pages 102 to 105)

ł

1	Page 106		Page 108
1	on and not have anything done. Is that correct?	1	Q And that was your major?
, 2	A Exactly right.	2	A Yeah.
3	Q And did you feel like were you	3	Q Okay. And what was your postgraduate
4	getting a a mix of outdoor and indoor?	4	studies?
5	A Not I you did, occasionally. I	5	A Same thing.
6	would occasionally get an outdoor route. But for	6	Q Same thing. And did you put that on
7	some reason maybe it's because I said	7	your application when you applied?
8	something that I didn't mind working in North	8	A I might have, but I doubt it.
9	St. Louis I ended up in North St. Louis a lot.	9	Q Did you find the job of installing the
10	But I don't that could have been my	10	AMR devices particularly challenging?
11	imagination. But, no. I was indoors quite a	11	A No. I mean, no. The actually, to
12	bit.	12	work, no, not at all.
13	Q Was the assignment for whether you got	13	Q Was it difficult?
14	an outdoor or indoor based on someone's	14	A Most of the time, no, not at all.
15	discretion, or was it done by computer, or do you	15	Q Did you I'm sorry.
16	know?	16	A Weil, I would say, no. It's a
17	A I if you ask the people in the	17	no-brainer, easy job. It's just monotonous
18	office, they would say it was random. And if you	18	and
19	asked some of the guys who got outdoor routes a	19	Q That was going to be my next question.
20	lot, they would tell you that it wasn't, that	20	Did you find it boring?
21	they were getting outdoor routes because they had	21	A If you thought about what you were
22	an in with the boss or something.	22	doing. But if you would take a Zen outlook and
23	Q Okay.	23	let your mind wander to something else, then I
24	A That's what they would say. So I	24	suppose not.
25	heard both. So, yeah. If you asked somebody in	25	Q Okay. Did you feel you were
	Page 107		Page 109
. 1	the office, they would say it was random.	1	adequately trained for the job in the training
2	Q But you're not sure yourself exactly	2	you have described?
3	how it worked?	3	A I suppose. That me, personally,
4	A Not sure. But I highly suspect it	4	sure. But I wouldn't have you know
5	wasn't random.	5	Q Do you when you applied for the
6	Q What is your educational background?	6	job, do you know what kind of background checking
7	Did you finish high school?	7	Manpower did? I mean, do you know?
8	A I did, and went to graduate school at	8	A No, I don't. And I suspect that since
9	Wash U.	9	they told me that since because of the
10	Q Did you finish college, then, also?	10	misunderstanding I had when I hired on, that I
11	A Oh, yeah. I got my undergraduate	11	was apparently supposed to start the very first
	degree from the University of Nebraska.	12	Tuesday after being there, that it made me
13	Q Okay.	13	question whether they the drug screening and
14	A Although I left Wash U before getting	14	stuff like that was actually occurring, or
	a master's.	15	whether we were just going up and giving a vial
16	Q So you had some postgraduate work, but	16	of blood to somebody, and after we walked out,
	a transformation de serve o	17	they just tossed it. I don't know. Because
17	not a postgraduate degree?		· · · · · · · · · · · · · · · · · · ·
17 18	A Exactly.	18	clearly, I had the job before they could have had
17 18 19	A Exactly. Q And you said you worked as a	18 19	any results.
17 18 19 20	A Exactly. Q And you said you worked as a librarian?	18 19 20	any results. Q Okay. But you don't know how
17 18 19 20 21	A Exactly. Q And you said you worked as a librarian? A Yes.	18 19 20 21	any results. Q Okay. But you don't know how whether or not they if they had tested it, or
17 18 19 20 21 22	 A Exactly. Q And you said you worked as a librarian? A Yes. Q Was your major in that? 	18 19 20 21 22	any results. Q Okay. But you don't know how whether or not they if they had tested it, or the blood you gave blood?
17 18 19 20 21 22 23	 A Exactly. Q And you said you worked as a librarian? A Yes. Q Was your major in that? A I didn't do library science. I did 	18 19 20 21 22 23	any results. Q Okay. But you don't know how whether or not they if they had tested it, or the blood you gave blood? A Yeah.
17 18 19 20 21 22 23 24	 A Exactly. Q And you said you worked as a librarian? A Yes. Q Was your major in that? 	18 19 20 21 22	any results. Q Okay. But you don't know how whether or not they if they had tested it, or the blood you gave blood?

1	urine test.	1	Q Okay. Would you know if someone who
, 2	Q Okay. So you don't know, had they	2	was not doing well was
3	tested the urine, if they would have come back	3	A That they talked whether they
4.	and terminated your temporary employment?	4	talked to them?
5	A Yeah. I don't know.	5	Q Yes.
6	Q And do you know whether Honeywell	6	A No. I wouldn't know.
7	checked?	7	Q One thing I also want to clarify. You
8	A I don't think so.	8	referred to an item or maybe Ms. Schroeder
9	Q Do you know?	9	did as a hand drill. You are referring to,
10	A No.	10	basically, a power screwdriver?
11	Q Okay. You referred at different times	11	A Right.
12	to the the unit that holds on the AMR device	12	Q Not the kind of drill that would bore
13	sometimes as a screw and sometimes as a bolt.	13	a hole?
14^{15}	A Right.	14	A Well, it could, if you put
15	Q Did was it something that you	15	Q If you put a bit on it?
16	unscrewed and screwed in?	16	A Yeah.
10	A There well, there are different	17	Q But you used it as a screwdriver?
		18	A Yeah.
18 19	sizes, first of all. And it's just what people think of as a bolt or a screw, although a bolt	19	Q And did you say that you were brought
		20	back every week or two to have a test on reading
20	doesn't usually have a slotted screw kind of head	21	meters?
		22	A Yeah. About that.
22		22 23	
23			Q Did you find that useful?
		24	A Not particularly. Just because the
25	calling it a screw, just because it's a big thick	25	only reason you are going to misread well, two
	Page 111		Page 113
1	bolt looking thing that happens to have a slot.	1	reasons you are going to misread. One is, you
2	Q Did it have threading on it?	2	are not paying attention. And the other is, is
3	A Yeah, sure. But then, some of them	3	that it's one of those judgment calls where you
4	were much more slender, and for most people that	4	have to decide whether it is a 6 or a 7 or
5	would easily fall into the category of a screw.	5	whatever. And all the practice in the world
6	Q Okay. So it looked more like a screw,	6	isn't going to make your attention any better and
7	the thinner ones?	7	not going to make it easier to make that call.
8	A The thinner ones, yeah.	8	And if you woke up feeling spaced out,
9	O But all of them had	9	you might do a terrible job on a test; whereas,
10	A They all had a slotted regular	10	if you are out in the field, you are going to do
11	screwdriver type	11	a good job, or vice versa.
12	Q And the threads?	12	Q Okay. Did you have any fear that you
13	A Yeah. Yeah.	13	were going to cause a gas leak?
14	Q Did you ever receive feedback that you	14	A No. Not me, no.
15^{14}	were doing well or not well?	15	Q And it is your assessment that when
16	A I don't think so. Now, as far as	16	you change one of these devices and put on an AMR
17	actually getting the job done?	17	unit, that that does not affect the part of the
18	Q Uh-huh.	18	meter that holds the gas, or through which the
	A Actually, no. Me personally, nobody	19	gas passes?
		20	A Yeah. No, it wouldn't I could see
19 20	over some to me and said, you're doing the job		A round to, it wouldn't - round boo
20	ever came to me and said, you're doing the job		how it could You know somehody working on any
20 21	well, or, you're doing it efficiently, or, you're	21	how it could. You know, somebody working on any meter like this in the process of doing this
20 21 22	well, or, you're doing it efficiently, or, you're doing enough, or anything like that.	21 22	meter like this, in the process of doing this,
20 21 22 23	well, or, you're doing it efficiently, or, you're doing enough, or anything like that. Q Okay.	21 22 23	meter like this, in the process of doing this, because these things have been hanging for you
20 21 22 23 24	well, or, you're doing it efficiently, or, you're doing enough, or anything like that.	21 22	meter like this, in the process of doing this,

29 (Pages 110 to 113)

	Page 114		Page 116
1	the connection points and stuff like that. I	1	smelled gas were on outdoor meters?
2	could see where it happened. I wasn't	2	A The ones that I remember calling in,
3	particularly concerned that I would do that.	3	they were outdoor meters.
4	Q All right. You said when you would	4	Q And you said you didn't stay in those
5	work on a meter, I guess when you would remove	5	instances?
6	the index, you would sometimes get a light whiff	6	A No.
7	of gas?	7	Q Is that related to the fact that they
8	A Yeah.	8	were outdoor meters?
9	Q And that would dissipate?	9	A It's related to the way it was told
10	A Yeah. I suppose what you, you know,	10	to me is that, if it was a strong smell, that you
11	look for is that you just got that little puff	11	should hang out and wait. But in my case it
12	because, over time, gas had accumulated behind	12	probably had a lot more with me saying something
13	the, you know, in the index part of the meter.	13	to the effect of, I am really not going to sit
14	The only you know, it's all steel in between	14	here and wait. I'm going to keep doing the job.
15	the two, except for that little cog that has to	15	Q So you called it in and made sure that
16	come out from the mechanism inside. So the only	16	it had been communicated?
17	gas leak you'd have would be just right around	17	A Yeah. I called my supervisor. And
18	there, you know, as far as that part. So if you	18	then it was on my supervisor to call Laclede Gas,
19	did get a little puff of it there, you would	19	give them the address, and then they would come
	expect it to dissipate and go away.	20	out and check it.
21	Q And generally, would it?	21	Q And then you moved on?
22	A Yeah. It would usually well, it	22	A I moved on right after making the
23	would usually be pretty light. And like I say,	23	call, yeah.
	if it was really considered light, you don't	24	Q Okay. And you said you felt the pay
	if it's something that's light, I think you	25	for that job was terrible?
·	Page 115		Page 117
1	sometimes grow accustomed to it. You know, so	1	A Terrible would be good, yeah. That's
2	when you first get it, think, oh, that smells	2	a good description.
3	like gas, but after you have been working on it	3	Q And what do you think would be a
4	for four or five minutes, you just tend not to	4	reasonable pay for that job?
5	notice so much anymore. So whether yeah, I	5	A Oh, I would think that a minimum of 22
6	suppose it dissipated.	6	bucks an hour. How about that? You know.
7	Q Okay. And if it didn't go away and	7	Q Interesting number that you pick. Why
8	kept you kept smelling it	8	did you pick that number?
-		9	A Because that's what they said the
9	A Yeah		The Doodabo diates what they sure me
9 10	A Yeah O Would you call that in?	10	maximum was. So, I don't know. No. It was
10	Q Would you call that in?	10 11	
10 11	Q Would you call that in?A Yeah. Most of the time, if it was a		maximum was. So, I don't know. No. It was just it was pretty it was you know, you
10 11 12	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose	11	maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level
10 11 12 13	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you	11 12	maximum was. So, I don't know. No. It was just it was pretty it was you know, you
10 11 12 13 14	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are	11 12 13	maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic.
10 11 12 13 14 15	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of	11 12 13 14	maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you
10 11 12 13 14 15 16	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know,	11 12 13 14 15	maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested?
10 11 12 13 14 15 16 17	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying	11 12 13 14 15 16	 maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested? A Oh, they were interested in talking
10 11 12 13 14 15 16 17 18	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying degrees. You know. Because I I know that	11 12 13 14 15 16 17	maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested?
10 11 12 13 14 15 16 17 18 19	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying degrees. You know. Because I I know that they didn't all get called in. You know, any	11 12 13 14 15 16 17 18	 maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested? A Oh, they were interested in talking about it, but not in actually doing it. Any union worker loves to hear about management
10 11 12 13 14 15 16 17 18 19 20	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying degrees. You know. Because I I know that they didn't all get called in. You know, any any smell of gas would not immediately result in	11 12 13 14 15 16 17 18 19	 maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested? A Oh, they were interested in talking about it, but not in actually doing it. Any union worker loves to hear about management behaving badly, you know.
10 11 12 13 14 15 16 17 18 19 20 21	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying degrees. You know. Because I I know that they didn't all get called in. You know, any any smell of gas would not immediately result in somebody calling a supervisor. Because you would	11 12 13 14 15 16 17 18 19 20 21	 maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested? A Oh, they were interested in talking about it, but not in actually doing it. Any union worker loves to hear about management behaving badly, you know. Q And did you also talk to your
10 11 12 13 14 15 16 17 18 19 20 21 22	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying degrees. You know. Because I I know that they didn't all get called in. You know, any any smell of gas would not immediately result in somebody calling a supervisor. Because you would expect to run into it there, you know. So then	11 12 13 14 15 16 17 18 19 20 21 22	 maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested? A Oh, they were interested in talking about it, but not in actually doing it. Any union worker loves to hear about management behaving badly, you know. Q And did you also talk to your coworkers, the AMR installers?
10 11 12 13 14 15 16 17 18 19 20 21	Q Would you call that in? A Yeah. Most of the time, if it was a light smell, you would call it in. I suppose most of the time. But I think at some point you just kind of got to accept that, because you are around a meter, you might get a light whiff of it. So it was explained to us that, you know, this you know, that there were varying degrees. You know. Because I I know that they didn't all get called in. You know, any any smell of gas would not immediately result in somebody calling a supervisor. Because you would	11 12 13 14 15 16 17 18 19 20 21	 maximum was. So, I don't know. No. It was just it was pretty it was you know, you could end up making less than poverty level wages. You know. That's pretty pathetic. Q Did you have any and so when you visited the four unions, no one was interested in none of them were interested? A Oh, they were interested? A Oh, they were interested in talking about it, but not in actually doing it. Any union worker loves to hear about management behaving badly, you know. Q And did you also talk to your coworkers, the AMR installers? A Not all well, some of them, yeah.

1	me, pretty disgusted with their paychecks. Not	1	you wouldn't get I couldn't get that many done
1.2	all. You know, there's always going to be people	2	in a day. Not because I didn't finish the route,
3	who don't like the idea of a union.	3	but just because the fact of people not being
4	Q Okay.	4	home or some not being able to be done. So out
5	MR. ZUCKER: I think that's all I	5	of 85, I might get, my best day, maybe 70.
6	have.	6	Q Okay.
7	MS. SCHRODER: Anything next,	7	A More often than not, I would be
8	Jennifer?	8	indoors and I might get 10 done. You know, you
9	MS. HEINTZ: Did you want to redirect?	9	just keep knocking on doors all day long.
10	MS. SCHRODER: Well, I thought all of	10	Q Okay. If you have to wait for Laclede
11	you guys were probably going to.	11	
12	MS. HEINTZ: Well, I don't have	12	paid as much money or are you going to get
13	anything, so, thank you.	13	paid as much money as if you were out there
14	MS. SCHRODER: Mark, do you want to	14	
15	ask some questions, or do you want me to	15	A No. Well, I mean, you're getting paid
	redirect, or what?	16	,
17	MR. POSTON: I have no questions.	17	Q All right.
18	MS. SCHRODER: Okay. I do have a	18	A If you eat lunch, you're not you
19	couple of questions on redirect.	19	
20		20	installing. So everything you do that sidetracks
21	REDIRECT EXAMINATION	21	
22	QUESTIONS BY MS. SCHRODER:	22	money.
23	Q First of all, when you called in a gas	23	
24	leak, how long is the least amount of time that	24	would you have known any other kind of gas
25	that's going to take, calling in the gas leak and	25	hazard?
•		1	
	Page 119	1	Page 121
1		1	Page 121 A No.
1 2	talking to your supervisor?	1 2	
2	talking to your supervisor? A For me to actually do that?		A No.
2 3	talking to your supervisor? A For me to actually do that? Q Yes.	2	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't
2	talking to your supervisor?A For me to actually do that?Q Yes.A Well, I would just do it right then.	2 3	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we were
2 3 4	talking to your supervisor? A For me to actually do that? Q Yes.	2 3 4	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't
2 3 4 5	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. 	2 3 4 5	A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we were you know, at what point we should call it in, you know.
2 3 4 5 6	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. 	2 3 4 5 6	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we were you know, at what point we should call it in, you know. Q On the judgment call, you mean?
2 3 4 5 6 7	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. 	2 3 4 5 6 7	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we were you know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever
2 3 4 5 6 7 8	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the 	2 3 4 5 6 7 8	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells?
2 3 4 5 6 7 8 9	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? 	2 3 4 5 6 7 8 9 10 11	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It
2 3 4 5 6 7 8 9 10	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. 	2 3 6 7 8 9 10	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say,
2 3 4 5 6 7 8 9 10 11	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. Q Okay. 	2 3 4 5 6 7 8 9 10 11	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we were you know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say, just because I can't answer that should tell you
2 3 4 5 6 7 8 9 10 11 12	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. Q Okay. A And so it's just direct. 	2 3 4 5 6 7 8 9 10 11 12 13 14	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say, just because I can't answer that should tell you that it wasn't.
2 3 4 5 6 7 8 9 10 11 12 13	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. Q Okay. A And so it's just direct. Q And if you have to wait for Laclede to 	2 3 4 5 6 7 8 9 10 11 12 13	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say, just because I can't answer that should tell you that it wasn't. Q How much time was spent on the whole
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. Q Okay. A And so it's just direct. Q And if you have to wait for Laclede to come out, how long is that going to take? A I wouldn't know. But I never waited, 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say, just because I can't answer that should tell you that it wasn't. Q How much time was spent on the whole discussion of, if you smell gas you need to call
2 3 4 5 6 7 8 9 10 11 12 13 14 15	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. Q Okay. A And so it's just direct. Q And if you have to wait for Laclede to come out, how long is that going to take? A I wouldn't know. But I never waited, so Q How if you are getting 80 done 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say, just because I can't answer that should tell you that it wasn't. Q How much time was spent on the whole discussion of, if you smell gas you need to call in?
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation. I'm not waiting for the phone to ring. Q So that's one more oh, it was the Nextel? A Yeah. Q Okay. A And so it's just direct. Q And if you have to wait for Laclede to come out, how long is that going to take? A I wouldn't know. But I never waited, so Q How if you are getting 80 done 80 to 85 of these AMR devices installed in a day, 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	 A No. Q All right. Was your training adequate in that regard? A Well, clearly not. Because I can't give you a straight answer on whether we wereyou know, at what point we should call it in, you know. Q On the judgment call, you mean? A On the judgment call. So nobody ever took us out and said, do you see how that smells? That's when you call. There was never that. It was just, well, if it seems strong like I say, just because I can't answer that should tell you that it wasn't. Q How much time was spent on the whole discussion of, if you smell gas you need to call in? A Not much. Very little.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17	 talking to your supervisor? A For me to actually do that? Q Yes. A Well, I would just do it right then. Q Okay. A And it's a walkie-talkie situation.
