

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of Ameren Missouri’s)
Submission of its 2014 RES Compliance)
Report and 2015-2017 Compliance Plan.)

File No. EO-2015-0267

NOTICE OF ADDITIONAL S-REC RETIREMENT

COMES NOW Union Electric Company d/b/a Ameren Missouri (“Ameren Missouri” or “Company”), and for its Notice of Additional Solar Renewable Energy Credit (“S-REC”) Retirement, states as follows:

1. On April 15, 2015, Ameren Missouri submitted its Renewable Energy Standard (“RES”) Compliance Plan for calendar years 2015 through 2017 (“RES Plan”). At the same time, Ameren Missouri submitted its RES Compliance Report for 2014 (“RES Report”).

2. On June 1, 2015, the Staff (“Staff”) of the Missouri Public Service Commission (“Commission”) filed comments on Ameren Missouri’s RES Plan and RES Report.

3. As the Company has previously explained, Ameren Missouri believed it had retired sufficient S-RECs for 2014. However, when Staff and Ameren Missouri examined the retired S-RECs, it was determined that, in one instance, a customer who owned a solar facility at a residence (and who entered into a contract to sell those S-RECs to Ameren Missouri prior to the statute change in 2013) sold the residence and the new owners of the residence did not agree to sell their S-RECs to Ameren Missouri. In a second instance, a meter that was originally used by a customer at a residence to track the solar generation was switched out and that meter was re-assigned to an account that does not have solar generation. Accordingly, Ameren Missouri retired thirty-one S-RECs that it did not actually have title to and thus could not retire.

4. To remedy this situation, the Company is retiring thirty-one additional S-RECs to satisfy its 2014 RES obligation as set forth and attached hereto as Exhibit A.

5. Ameren Missouri renews its request for the Commission to grant a variance from 4 CSR 240-20.100(2)(J), which is the regulation that requires all RECs to be retired no later than March 31 of the year following the calendar year for which compliance is being achieved in order to be able to designate those retired RECs to count towards the requirements of the previous calendar year.

WHEREFORE, Ameren Missouri respectfully requests the Commission accept this Notice of Additional S-REC Retirement in compliance with its 2014 Renewable Energy Standard obligation and that it grant Ameren Missouri the variance as previously requested.

Respectfully submitted,

UNION ELECTRIC COMPANY,
d/b/a Ameren Missouri
