

Power Operations - Rules to Live By

Power Operations Rules to Live By are focused on activities that have the potential to produce a fatality or serious injury. While there are many hazards that can produce serious results, the items listed below are so significant that a single violation warrants immediate interaction and discipline. A fact-finding meeting will be conducted to consider circumstances involved. Employees determined to be in violation of these rules will receive appropriate disciplinary action.

- **Fall Protection** – Failure to use proper fall protection when there is a risk of a fall that is greater than 6 feet.
- **WPA (Lock Out / Tag Out)** – Violation of a tag, lock or tag-out device that is used for employee protection.
- **Electrical Safety** – Failure to follow the proper procedures and wear proper personal protective equipment when working on energized equipment.
- **Confined Space Entry** – Failure to evaluate a confined space and perform air monitoring checks prior to entry.
- **Rigging / Hoisting** – Walking or working under a suspended load.
- **Trenching and Shoring** – Entering an excavation greater than 5 feet deep that has not been properly sloped or shored.

Violations of other safe work practices are also subject to disciplinary action up to and including discharge. The [Ameren Missouri Power Operations Safe Work Rules Handbook](#) provides specific guidance on the most common hazards in the work place and specific rules to follow.

Our commitment to protect your health and safety, and that of those we serve, guides our daily operations. To succeed, each and every one of us is expected to comply with the safety rules at all times and to contribute to creating and maintaining a safe work environment.
