This Accessible Letter is to notify all interested CLECs of a Line Splitting Collaborative Session that SBC-13STATE plans to hold on Thursday, November 6, 2003, from 1:00 PM to 4:00 PM CST and continues on Friday, November 7, 2003 from 9:00 AM to 12:00 PM. This Collaborative begins immediately following the CUF and CMP meetings to accommodate CLECs wishing to attend in person. All interested CLECs are invited to attend to discuss line splitting process issues.

This is an SBC-13STATE industry wide collaborative which is being held to openly discuss with interested CLECs practical and reasonable measures to enhance the CLEC community's ability to line split, as encouraged by FCC in its Triennial Review Order. Additionally, SBC-13STATE will review the line splitting processes that are currently available and will accept input as to any future process developments which may be desired by its wholesale customers.

SBC-13STATE is seeking CLEC input in order to ensure that it focuses its development efforts on areas that will be most beneficial to the CLEC community as a whole. In order for the session to be as productive as possible, SBC-13STATE requests that interested parties prepare for the meeting by considering their current and anticipated business needs, determining specific areas where process improvements may be desired, identifying proposed solution(s) for concerns, and prioritizing desired process improvements.

SBC-13STATE recommends that all interested parties attend in person, where possible. However, SBC-13STATE will have a conference bridge available for those CLECs who wish to participate by telephone. If you should wish to attend (either in person or via the telephone conference bridge), please submit the registration form below to Louise Hutto at lk9389@txmail.sbc.com, by the close of business on October 31, 2003. Please indicate on your registration form if you will be attending in person or via the telephone conference bridge. If you should have any questions, please contact your Account Manager.

SBC-13STATE reserves the right to make any modifications to the information set forth above, or to cancel or reschedule the subject meeting. In the unlikely event that this meeting needs to be cancelled or rescheduled, CLECs will be notified via a subsequent Accessible Letter as soon as

possible. SBC-13STATE will not be liable to any CLEC if any information set forth herein is modified or if the meeting is cancelled or rescheduled.
