It has come to the attention of the Commission that its order approving financing, issued July 15, 1994, did not accurately reflect the Commission's intent in regard to the disposition and accounting of funds from the approved loan transaction.

Ordered paragraph No. 3, therefore, is corrected to read as follows:

3. That the proceeds from the above-stated loan will be used specifically for the purposes as set out in paragraph 5 of the application of LWS in this case. The principle proceeds from the above-stated surcharge will be accounted for as contributions in aid of construction and all proceeds will be kept in a separate account, and

used only to meet the principal and interest obligations of the above referenced loan.
