Michael,

Thank you for sending this out and for managing this process. I'm sorry I couldn't attend but I was traveling. Oak Leaf Energy's comments relate to 2. Requirements. We believe the energy should be generated within MO or, at minimum, delivered into MO. Do we need to file a formal comment on this to have it included? I noticed as the comments read now and IOU could buy SRECs from California or any state in the US.

Please let me know.

Thanks,
Michael

Subject: Renewable Energy Standard workshop information

Thanks to everyone that attended yesterday's workshop.

As we discussed, I am attaching the marked-up copy of the draft rule (Rev 7) that was created at the workshop. Please provide me any additional comments or clarifications to the recorded comments by Wednesday, April 22.

I am also attaching a copy of the example spreadsheet that we discussed during the rule section 5 review. As stated at the workshop, the purpose for this spreadsheet was to provide an example of the utilization of section 5 (as written).

These documents and an attendance list from yesterday's workshop will be placed in our electronic filing system.
