**Re: Case No. TA-2013-0545  
Tempo Telecom, LLC Notification of Additional Underlying Carrier**

Dear Mr. Harden:

Tempo Telecom, LLC ("Tempo") was designated as an eligible telecommunications carrier ("ETC") by the Missouri Public Service Commission ("Commission") on November 2, 2013 in the above-referenced docket. As noted in the Commission's approval order, Tempo utilizes Sprint as its underlying wireless carrier for Tempo's provision of wireless Lifeline service in Missouri.

By this letter, Tempo hereby informs the Commission that it will also utilize T-Mobile as an underlying wireless carrier for Tempo's provision of prepaid wireless Lifeline service in Missouri. The addition of T-Mobile as one of Tempo's underlying carriers has no effect on Tempo's Lifeline service offerings or Tempo's designated service area in Missouri, which were approved by the Commission in its November 2, 2013 approval order. Tempo will continue to offer the prepaid wireless Lifeline service plans previously approved by the Commission and will continue to provide its prepaid wireless Lifeline service only in its approved designated service area.
