OF NORANDA ALUMINUM, INC.

COMES NOW NORANDA ALUMINUM, INC. ("Noranda") pursuant to 4 C.S.R. 240-2.075 and applies to intervene herein. In support, Noranda respectfully states:

1. Noranda is a manufacturing corporation duly authorized to transact business in Missouri, operating an aluminum smelter and associated manufacturing and processing facilities at 391 St. Jude Industrial Park, New Madrid, MO 63869.

2. At its New Madrid smelter, Noranda employs roughly 1,100 employees and consumes electricity in the process of producing aluminum base metal and related products in substantial quantities and at an exceptionally high load factor. Noranda maintains a payroll of roughly \$57 million annually and its business activities provide significant and critically important economic support and stability to a 10-county region in Southeast Missouri. In addition to the payroll and electricity purchases, Noranda purchases some \$22 million of a variety of goods and services largely from regional suppliers.

3. On December 15, 2008, the Staff of the Commission Filed a Motion to Establish a Case, Provide Notice and Schedule a Prehearing Conference. By an Order on December 17, 2008, the Commission granted that Motion and established this case in a single order including Case Nos. EO-2009-0247, EO-2009-0248, EO-2009-0249 and EO-2009-0250.
