Dear Mike,

I will be mindful of your admonition regarding the comments and will ask Sheryl to file this as an ex-parte communication.

Thanks,

JND

Jeff,

I will review materials for the March 24 meeting tomorrow: RSG comments and ASM comments after these are sent out.

I am chairing a work group on the resource adequacy function, and there are no decisions for March 28 meeting on settlement charges for deficient LSE (one's that don't meet their reserve requirement). I don't have a copy of the comments on attachment F, but I think this relates to different forms of membership in MISO. If so, then, because this is an issue in the AmerenUE case before the Commission, you may want to abstain - not have Missouri sign off on these comments. Let men know, on this last item what you want to do.

Thanks,
Mike

Dear Mike,

What do we need to do in order to get ready for this meeting on Monday?

Thanks,

JND

Subject: NOTICE: TWO OMS Special Board meetings - March 24 and March 28, 2008

NOTICE: In the next two weeks:

The Organization of MISO States Board of Directors will hold
TWO Special Meetings by Conference Call

Call-in for both meetings:

Dial: 877- 452-6418 Code: 7013282400 followed by the # sign.

Meeting Agenda Items follow:

1. Monday, March 24, 2008 at 1:00 pm CDT (two agenda items)

This meeting will be held to consider RSG comments and a request for rehearing on ASM

Notes from Bill Bokram and Christine Ericson:

1. Comments on MISO's Real-Time RSG Redesign, EL07-86 et al filed 3/3/08. – due at FERC March 24

Draft comments will be distributed Wednesday 3/19/08. The OMS RSG comments will likely address the lack of details in MISO's filing, the lengthy time required before implementation, the lack of cost causation support, and the need for putting this into effect when ASM starts, request MISO to develop a timeline for addressing fixes to reduce RSG. The comments assume that FERC will fix the rate and charge volume mismatch discussed in OMS's 12/19/07 protest.

2. Request for rehearing of FERC's 2/25/08 Order on MISO's ASM proposal – due at FERC March 26

OMS will circulate comments on Wednesday.

The OMS request for rehearing will address the issue of determining generating unit reference levels and their oversight by the independent market monitor. This is consistent with the OMS comments filed, where the OMS expressed concern about the absence of a formal process for determining reference prices.

2. Friday, March 28, 2008 at 1:00 pm CDT - (two agenda items) - materials will be sent as soon as available

1. Consideration of OMS draft comments on MISO's Module F - Market Expansion – due at FERC April 1

2. Resource Adequacy discussion at the OMS Commissioner Retreat in Columbus, OH

Board members who cannot attend these meetings should notify Valerie Lemmie

(valerie.lemmie@puc.state.oh.us with a copy to dorothea.hives@puc.state.oh.us) to designate a proxy for either meeting.

Please note: In addition to those whose names appear in the address line, this notice has been sent to all, in multiple emails, at OMS province & state commissions and agencies whose names are on the extended OMS Sender List.
