Subject: Missouri Renewable Energy Standard update

On Wednesday, December 16, the Missouri Public Service Commission selected APX, Inc. to provide an electronic renewable energy credit (REC) management system for Missouri Renewable Energy Standard compliance. APX, Inc. has recommended utilization of the underlying infrastructure of the North American Renewables Registry. The system will allow for origination, certification, tracking, transfer, and retirement of RECs. The Staff of the Missouri Public Service Commission will be working with APX, Inc. to implement the REC management system, including scheduling training for potential system users. The website for the North American Renewables Registry is: <http://narenewables.apx.com/>

Review of the draft Missouri RES rules has not been completed by the Department of Economic Development. Following the completion of that review, the draft rules will be submitted to the Commission for transmittal to the Missouri Secretary of State and the Joint Committee on Administrative Rules.

If you have any questions, please contact me.
