Target: All McLeodUSA Business Customers; All Billing Platforms

The McLeodUSA / PAETEC Merger is Complete!

McLeodUSA is now a PAETEC company, and we are celebrating a merger that has created what we believe will be the nation's premiere provider of communications solutions for businesses. This merger, first announced in September 2007, combines two customer-oriented companies. McLeodUSA and PAETEC have very similar corporate values, the most important of which is our focus on *you*. We share a commitment to making sure the high level of service you have always received will continue to surpass your expectations.

Soon you will notice the PAETEC logo appearing on your monthly invoice and on our Web site. In the meantime, you can still reach our Customer Service professionals at the same number you've always used, and you can continue to manage your account online by logging in to “Your Account.”

We recognize the important reasons you selected McLeodUSA to handle your critical communications needs. Now, with this exciting combination of companies, we intend to build upon that trust. Please continue to contact your existing Account Manager, or phone our Customer Service representatives at the number on this invoice with any questions. We also encourage you to visit www.paetec.com where you can learn more about the combined organization and our expanded service offerings. We appreciate your business, and we welcome you to PAETEC!
