Re: GO-2013-0360

To Whom It May Concern:

The purpose of this letter is to implore you to reconsider allowing Summit Utilities to do free conversions at part of their packages to convert customers to the natural gas system. Our town has a many low income and elderly residents who would not be able to convert to natural gas if they had to pay the cost to convert their appliances.

We would like to thank you in advance for reconsidering Summit being able to provide free conversions as part of their proposal to move forward with natural gas in Buffalo. If you have additional questions, feel free to contact me.

Sincerely,

Debby Polston  
Administrative Assistant
