#### AUDITING UNIT RECOMMENDATION MEMORANDUM

FROM: Paul R. Harrison

**Auditing Unit Staff** 

**TO:** James Busch

Water and Sewer Unit, Manager

**CC:** Sarah Kliethermes

**Staff Counsel's Office** 

Kim Bolin

SUBJECT: Auditing Unit's Findings and Recommendation for Interim Rates

Rogue Creek Utilities, Inc.

Case No. WR-2013-0436 and SR-2013-0435

**DATE: April 15, 2013** 

Rogue Creek Utilities, Inc. ("Rogue Creek" or "Company") filed a rate increase request with the Missouri Public Service Commission ("Commission") on March 27, 2013. On that date, the Company also filed a request to implement interim rates pending resolution of its request of the small utility rate case procedures, and a special surcharge. Rogue Creek currently serves approximately 100 water customers and 94 sewer customers in Washington County, Missouri. Rogue Creek's current water and sewer rates became effective on November 11, 2002

The Company's initial tariff filing consists of \$35,695 request in additional revenues for a special surcharge and \$35,175 in additional revenues for an interim rate increase. The total revenue increase requested for implementation in the first set of tariffs for both water and sewer is \$70,870.

## Staff Recommendations for Interim Rates and Special Surcharge for Rogue Creek Utilities, Inc.

The Commission Staff ("Staff") recommends implementation of emergency rates including both (1) interim, subject to refund, rates, and (2) an 11 month, subject to refund, surcharge for both water and sewer rates.

<sup>&</sup>lt;sup>1</sup> Rogue Creek's requested increase in permanent rates is \$40,425 in the Company's annual water system operating revenues and an increase of \$48,565 in its annual sewer system operating revenues, and, if approved, would result in an increase over current revenues of approximately 254% for water service and 278% for sewer service. The total increase requested by Rogue Creek for its water and sewer service is \$70,870, excluding income taxes, depreciation and rate of return requirement.

The surcharge is needed in order to perform system maintenance and improvements to the water and sewer systems in the amount of \$8,085 (many of which are related to compliance with requirements of the Missouri Department of Natural Resources) and to reduce Rogue Creek's accounts payable balances related to water and sewer vendor services (including amounts to a DNR required certified operator discussed below) which the Company has not been able to pay to date in the amount of \$21,260. The interim rates are required to address Rogue Creek's financial condition, which is such that there is a danger to its continued provision of safe and adequate service, as well as to begin to mitigate the operational concerns discussed in the Water and Sewer Unit Report.

Staff performed an earnings investigation of Rogue Creek in April, 2012, in conjunction with assisting the utility in completing its Commission 2011 Annual Report. During that review, Staff determined that there was insufficient cash flow for Rogue Creek at that time from customer rates to recover its cost of service. This review was conducted prior to the Circuit Court of Cole County appointing Johansen Consulting Services as the receiver for Rogue Creek on June 2012. Rogue Creek's current rates that are in effect for both water and sewer do not include the court ordered receiver fees for Johansen Consulting Service, the contracted certified operator fees and any additional net increase in costs incurred to provide service to its customers since the Company's last rate case which was effective in November, 2002.

Staff has become aware since this Company filed for a rate increase that Environmental Management Services, who is the contract operator for Rogue Creek, sent Johansen Consulting Services (the receiver) a letter on March 4, 2013 suspending its services for non-payment effective April 1, 2013. In the letter, Environmental Management Services stated in order for services to be reinstated the full amount of \$4,848.95 must be paid and future payments must be paid by the 15<sup>th</sup> of each month.

Additionally, Staff is aware of an Emergency Declaration that was sent to Johansen Consulting Services from Missouri Department of Natural Resources (MDNR) on March 29, 2013 concerning Sanitary Sewer Overflow into Lake Fourwinds. In that notice it stated that "Cleanup actions may include soliciting assistance from non-departmental entities with the expertise in this area and who have previously established agreements with the Department. Pursuant to Section 260.545, RSMo, any person providing assistance on behalf of the Department will not be held liable in any civil action for damages as a result of that person's acts or omissions in rendering such assistance. Also, under the authority of Chapter 260 and the Missouri Clean Water Law, Chapter 644, RSMo, the Department has the authority and responsibility to address this situation and recover its costs in doing so. You will receive future correspondence from the department regarding cast recovery."

Staff has determined that Rogue Creek is currently in a financial emergency situation due to its current inability to perform necessary maintenance and other activities mandated by the MDNR, its inability to keep current on payments to vendors for necessary services, its inability to provide funding for court-ordered receiver fees and costs, and its inability to provide funding for its certified operator, meter reader and miscellaneous maintenance expenses.

Based upon Staff's examination of Rogue Creek's books and records, the correspondence mentioned above and discussions with the Receiver, Staff recommends emergency rate schedules, including a surcharge, be established for Rogue Creek. These schedules should include (1) interim, subject to refund, rates, pending Staff's completion of the small utility rate case procedures, and (2) an 11 month surcharge, to be collected subject to refund. Staff has determined that an interim rate increase for both water and sewer is necessary due to the shortfall in Rogue Creek's current rate revenues compared to its necessary and prudent cash outlays associated with providing safe and adequate service for its customers. Staff's interim rate revenue requirement calculation is based upon current revenues collected as compared to Rogue Creek's current monthly expenditures, and excludes depreciation expense, income tax expense, and rate of return requirements. Staff's analysis shows that the Company is receiving approximately \$1,834 each month less in revenues than what they are paying out. A typical small informal rate case normally takes from six to ten months to complete. Assuming ten months will be necessary to complete this case; Staff recommends that Rogue Creek be granted a rate increase on an interim basis equal to an additional \$1,834 per month for ten months to allow the Company to fund its maintenance and operation activities until this case is complete. Any additional costs necessary to provide safe and adequate service to the customers of Rogue Creek will be included in the rates when the audit is complete for the small informal rate case.

Staff has also determined that an 11 month surcharge for certain items is appropriate, to take effect on an emergency basis. Rogue Creek owes approximately \$21,260 in back payments for services provided by Environmental Management Services (contract operator fees), Brad Mashek (maintenance service calls), Floyd Medley (meter reader and miscellaneous maintenance repairs) and Johansen Consulting (court ordered receiver fees). Staff recommends that these back payments be included in Rogue Creek's rates for water and sewer, subject to refund, as a surcharge for a period of 11 months in order to allow Rogue Creek to qualify for a bank loan and pay off these outstanding accounts.

In addition, Staff's Water and Sewer Unit have inspected Rogue Creek's system and have identified several water and sewer improvements and/;or maintenance expenses that need to be addressed and included in the Company's requested surcharge to ensure safe and adequate service for Rogue Creek's customers. Staff is recommending that the following items be included in the surcharge for Rogue Creek:

#### WATER

•	Inspection of water tanks	\$2,685
•	Replacement of ten water meters	\$ 900
•	Well – new pressure switch	\$1,000
	Total	\$4,585
	Back-payments for water	\$10,450
	Total with back-payments	\$15,035
	SEWER	
•	Sewer main dig-up / repair – Watercrest Road (blockage)	\$1,500
•	Manhole dig-up plus main/lateral cleaning - Rogue Creek Rd	\$1,500
•	Repair of sludge return pump	\$ 500
	Total	\$3,500
	Back-payments for sewer	\$10,810
	Total with back-payments	\$14,310
	Total Water & Sewer with back-payments	\$29,345

The combined water and sewer surcharge, taking into account the accounts payable and system improvements/maintenance items discussed above, is approximately \$2,668 per month. Staff recommends that this surcharge begin on the same date as interim rates are put into effect for Rogue Creek.
