**Re: In the matter of the Application of ATC Outdoor DAS, LLC for a Certificate
of Service Authority to Provide Interexchange and Non-Switched Local
Telecommunications Services in the State of Missouri
Case No. XA-2009-0103
Reference File No. YX-2009-0206**

Dear Ms. Dale:

Enclosed for filing are substitute tariff pages of ATC Outdoor DAS LLC's tariff designated as PSC Mo. Tariff No. 1 and initially filed in the above referenced case number. A copy of this filing is also being served on the Office of Public Counsel pursuant to 4 CSR 240-2.080(4).

The purpose of the filing is to correct the Issue Date and Effective Date on the following sheets to reflect an issued date of September 17, 2008 and an effective date of November 1, 2008:

Original Sheet No. 3
Original Sheet No. 5
Original Sheet No. 6
Original Sheet No. 19
Original Sheet No. 20
Original Sheet No. 21
Original Sheet No. 22
Original Sheet No. 23

Ms: Colleen M. Dale

SECTION 1 - APPLICATION OF TARIFF

1.0 APPLICATION OF TARIFF

This Tariff sets forth the regulations and rates applicable to local exchange and interexchange non-switched telecommunications services provided by ATC OUTDOOR DAS, LLC as follows:

The furnishing of intrastate communications services by virtue of one-way and/or two-way information transmission between points within the State of Missouri.

1.1 Service Territory

ATC OUTDOOR DAS, LLC will offer the services throughout the State of Missouri.

1.2 Availability

Service is available where facilities permit.

Date Filed: September 17, 2008

Effective: November 1, 2008

Issued By:
Gerard Ainsztein
Senior Vice President, DAS Solutions & Acquisitions
ATC Outdoor DAS, LLC
400 Regency Forest Drive, Suite 300
Cary, North Carolina 27518

SECTION 2 – GENERAL RULES AND REGULATIONS

2.0 GENERAL RULES AND REGULATIONS

2.1 Use of Facilities and Service

2.1.1 Obligation of the Company

In furnishing facilities and service, the Company does not undertake to transmit messages, but furnishes the use of its facilities to its customers for communications.

The Company's obligation to furnish facilities and service is dependent upon its ability (a) to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment; (b) to secure and retain, without unreasonable expense, suitable space for its plant and facilities in the building where service is or will be provided to the customer; or (c) to secure reimbursement of all costs where the owner or operator of a building demands relocation or rearrangement of plant and facilities used in providing service therein.

The Company shall not be required to furnish, or continue to furnish, facilities or service where the circumstances are such that the proposed use of the facilities or service would tend to adversely affect the Company's plant, property or service.

The Company reserves the right to refuse an application for service made by a present or former customer who is indebted to the Company for service previously rendered pursuant to this Tariff until the indebtedness is satisfied.

2.1.2 Limitations on Liability

a. Indemnification by Customer

The customer and any authorized or joint users, jointly and severally shall indemnify, defend and hold the Company harmless against claims, loss, damage, expense (including attorneys' fees and court costs) for

Date Filed: September 17, 2008

SECTION 3 – SPECIAL ARRANGEMENTS

3.0 SPECIAL ARRANGEMENTS

3.1 Promotions

Reserved for future use.

3.2 Individual Case Basis (ICB) Arrangements

In lieu of the rates otherwise set forth in this Tariff, rates and charges, including installation, special construction, and recurring charges, may be established at negotiated rates on an Individual Case Basis (ICB), taking into account such factors as the nature of the facilities and services, the costs of construction and operation, and the length of service commitment by the Customer, as long as the rates and charges are not less than Company's costs of providing the service. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual contracts or Customer Term Agreements. Specialized Pricing Arrangement rates or charges will be made available to Customers in a non-discriminatory manner. Upon reasonable request, Company will make the terms of these contracts available to the Commission and its staff for review on a confidential and proprietary basis. ICB rates will not be used for switched services.

SECTION 4 – EXPLANATION OF TERMS

4.0 EXPLANATION OF TERMS

ANALOG

A transmission method employing a continuous (rather than a pulsed or digital) electrical signal that varies in amplitude or frequency in response to changes of sound, light, position, etc., impressed on a transducer in the sending device.

AUTHORIZED USER

A person, corporation or other entity who is authorized by the Company's customer to utilize service provided by the Company to the customer. The customer is responsible for all charges incurred by an Authorized User.

CHANNEL

A point-to-point bi-directional path for digital transmission. A channel may be furnished in such a manner as the Company may elect, whether by wire, fiber optics, radio or a combination thereof and whether or not by means of single physical facility or route. One 1.544 Mbps Service is equivalent to 24 channels.

COMPANY

ATC Outdoor DAS, LLC, unless otherwise clearly indicated from the context.

COMMISSION

The Public Service Commission of Missouri.

CUSTOMER

The person, firm, corporation, or other entity which orders service pursuant to this Tariff and utilizes service provided under Tariff by the Company. A customer is responsible for the payment of charges and for compliance with all terms of the Company's Tariff.

DIGITAL

SECTION 4 – EXPLANATION OF TERMS (Continued)

A method of storing, processing and transmitting information through the use of distinct electronic or optical pulses that represent the binary digits (bits) 0 and 1. Digital transmission/switching technologies employ a sequence of discrete, individually distinct pulses to represent information, as opposed to the continuously variable signal of analog technologies.

EXCHANGE

An area, consisting of one or more central office districts, within which a call between any two points is a local call.

EXCHANGE ACCESS LINE

A central office line furnished for direct or indirect access to the exchange system.

EXCHANGE SERVICE

The provision to the subscriber of access to the exchange system for the purpose of sending and receiving calls. This access is achieved through the provision of a central office line (exchange access line) between the central office and the subscriber's premises.

FINAL ACCOUNT

A customer whose service has been disconnected who has outstanding charges still owed to the Company.

INTERRUPTION

The inability to complete calls, either incoming or outgoing or both, due to Company facilities malfunction or human errors.

JOINT USER

Date Filed: September 17, 2008

Effective: November 1, 2008

Issued By:
Gerard Ainsztein
Senior Vice President, DAS Solutions & Acquisitions
ATC Outdoor DAS, LLC
400 Regency Forest Drive, Suite 300
Cary, North Carolina 27518

SECTION 4 – EXPLANATION OF TERMS (Continued)

A person, firm, or corporation which uses the telephone service of a subscriber as provided in Section 1 of the Tariff.

LATA

Local Access and Transport Area. The area within which the Company provides local and long distance ("intraLATA") service. For call to numbers outside this area ("interLATA") service is provided by long distance companies.

LINK

The physical facility from the network interface on an end-user's or carrier's premises to the point of interconnection on the main distribution frame of the Company's central office.

LOCAL CALL

A call which, if placed by a customer over the facilities of the Company, is not rated as a toll call.

LOCAL CALLING AREA

The area, consisting of one or more central office districts, within which a subscriber for exchange service may make telephone calls without a toll charge.

LOCAL SERVICE

Telephone exchange service within a local calling area.

MOVE

The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

SECTION 4 – EXPLANATION OF TERMS (Continued)

NODE

The location to which digital channels are routed and where access is provided to such lines and associated equipment for testing.

PREMISES

The space occupied by a customer or authorized user in a building or buildings or contiguous property not separated by a public right of way.

RAN

A radio access node.

RESALE OF SERVICE

The subscription to communications service and facilities by one entity and the reoffering of communications service to others (with or without 'adding value') for profit.

SHARING

An arrangement in which several users collectively use communications service and facilities provided by a carrier, with each user paying a pro-rata share of the communication related costs.

STATION

Each telephone on a line and where no telephone associated with the line is provided on the same premises and in the same building, the first termination in station key equipment or a jack for use with a portable telephone.

SUSPENSION

Suspension of service for nonpayment is interruption of outgoing service only. Suspension of service at the subscriber's request is interruption of both incoming and outgoing service.

SECTION 4 – EXPLANATION OF TERMS (Continued)

TELEPHONE CALL

A voice connection between two or more telephone stations through the public switched exchange system.

TERMINATION OF SERVICE

Discontinuance of both incoming and outgoing service.

TOLL CALL

Any call extending beyond the local exchange of the originating caller which is rated on a toll schedule by the Company.

TWO WAY

A service attribute that includes DOD for outbound calls and can also be used to carry inbound calls to a central point for processing.

USER

A customer, joint user, or any other person authorized by a customer to use service provided under this Tariff.

SECTION 5 – RATES AND CHARGES

5.0 RATES AND CHARGES

1. Application of Rates

Rates for radio frequency (“RF”) Transport Services apply to service furnished to business customers. RF Transport Services are not available to residential customers.

2. RF Transport Services

(A) General service offerings and limitations.

RF Transport Services utilize optical technology, including multi-wavelength optical technology, over dedicated transport facilities to provide Customers with links to emit RF coverage.

RF Transport Services connect Customers to their networks through a combination of distributed antennas and bi-directional RF-to-optical conversion equipment aggregated at a hub facility. The conversion equipment allows the Company to accept RF traffic from the Customer and then send bi-directional traffic transmissions across the Customer’s optical networks. At the remote end, the Customer’s RF is received at Company-provided RF-to-optical conversion equipment that allows bi-directional conversion between optical signals and RF signals. RF signals can be received and transmitted at this RAN. Hence the Company provides optical transit services for Customer RF signals.

The furnishing of RF Transport Services requires certain physical arrangements of equipment and facilities of the Company and other entities and is subject to the availability of such equipment and facilities and the economic feasibility of providing such necessary equipment and facilities and the RF Transport Services.

1. The specific limitations applicable to RF Transport Services are as follows:

- All optical services are provided on single mode optical fiber.
- Some optical services may be of a multi-wavelength nature.
- The optical loss between a hub site and a RAN must not exceed 10 dB in the event the RF Transport Services carry an analog signal.

Gerard Ainsztein
Senior Vice President, DAS Solutions & Acquisitions
ATC Outdoor DAS, LLC
400 Regency Forest Drive, Suite 300
Cary, North Carolina 27518

SECTION 5 – RATES AND CHARGES (Continued)

- The delay loss between the hub site and the most remote RAN must not exceed 200 milliseconds of loss over a series of Segments not more than 16 km.

(B) Maximum Initial Rates.

Unless otherwise provided in an individual contract pursuant to Section 3.2, the Maximum Initial Rates for RF Transport Services are as follows:

<u>Description</u>	<u>Fee per Segment</u>
Non-recurring connection charge	\$100,000
Monthly recurring charge	\$15,000

(C) Minimum Term

The minimum service term for RF transport service is 5 years.
