1.12 Unless stayed, modified or reversed on appeal or reconsideration, SBC MISSOURI will not apply the continuous property tariff for Plexar services, which was previously found reasonable by the Commission. The parties recognize that CLEC's right to aggregate end user traffic when reselling optional calling plans is in dispute before the United States Court of Appeals for the Tenth Circuit, Case No. 00-6030. During the pendency of that case, CLEC may aggregate end user traffic when

reselling optional calling plans. The parties acknowledge, however, that the decision of that court, or a decision in proceedings on remand therefrom, may make modification of this section appropriate. In such event, the Parties shall expend diligent efforts to arrive at an agreement regarding the appropriate conforming modification to this section, and, if negotiations fail, disputes between the Parties concerning the appropriate conforming modification shall be resolved pursuant to the dispute resolution process provided for in this Agreement. Additional tariff restrictions, other than the cross-class restriction allowed by FTA96 Section 251(c)(4)(B), are presumptively unreasonable.

- 1.14 A CLEC shall make its telecommunications services available for resale to SBC MISSOURI on terms and conditions that are reasonable and nondiscriminatory.

- 2.1 CLEC is free to brand the Resale services that SBC MISSOURI provides to CLEC under the provisions of this Agreement. SBC MISSOURI will not brand such Resale services provided to CLEC under this Agreement as being SBC MISSOURI's services, although certain SBC MISSOURI's retail services that utilize electronic branding are subject to the further provisions of Section 2.1.1 below.
 - 2.1.1 SBC MISSOURI offers certain retail services that utilize electronic branding to designate the services as SBC MISSOURI's retail services. Subject to applicable law, to the extent such services are made available for resale to CLEC customers, CLEC may request SBC MISSOURI to rebrand such services as CLEC services or to offer them without a brand. SBC MISSOURI will review such requests in a timely manner and provide a cost estimate. CLEC agrees to reimburse SBC MISSOURI for its costs associated with the technical modifications necessary for such services to be unbranded or rebranded, including the costs to expedite the service availability to meet CLEC's needs. CLEC must accept the costs in writing before unbranding or rebranding technical modifications are performed and implemented. These branding and cost recovery provisions are applicable to services other than Directory Assistance and Operator Services offered by SBC MISSOURI as of the effective date of this Agreement. To the extent other LSPs subsequently utilize such unbranded services, SBC MISSOURI agrees to reimburse CLEC for a reasonable portion of its costs. Conformed pursuant to Missouri Commission Award- GT&C issue # 23.

3.0 CHANGE IN END USER LOCAL SERVICE PROVIDER

3.1 When an End User converts existing service to CLEC resold service of the same type without any additions or changes, a conversion charge will apply as set forth in Pricing Schedule.

When an End User converts existing service to CLEC resold service of the same type without any additions or changes, a conversion charge will apply as set for in Pricing Schedule. Custom Services conversions (e.g. Plexar Custom) will be handled on a Customer Specific Proposal basis.

Simple and Complex Service Orders are defined as follows:

Simple (Manual) Conversion - change in local service provider where services involved are simple, Plain Old Telephone Service (POTS); those services that do not require special review/coordination by other departments (e.g., Routing Managers, Circuit Provisioning Center, Network Sales Support, etc.) for engineering or design work to assure industry standard transmission quality. e.g., normal single line residence or business flat rate or measured local exchange access line. CLEC passes (FAX/phone) manual local service request to LECC and ILEC service representative input request in service order system for provisioning.

Electronic Conversion - change in local service provider where services involved are simple; CLEC passes electronic local service request to ILEC through electronic interface to ILEC service order systems and service order completes without manual intervention on behalf of ILEC service order personnel; also where a complex service is passed through electronic interface to ILEC service order systems and service order completes without manual intervention on behalf of ILEC service order personnel.

Complex (Manual) Conversion - change in local service provider involving services that are not characterized as POTS; those services that may require special review/coordination by other departments (e.g., Routing Managers, Circuit Provisioning Center, Network Sales Support, etc.) for engineering or design work to assure industry standard transmission quality; also, new services that use a different platform than current technology (e.g., SS7 based AIN services).

3.2 If a CLEC end user customer adds features or services when the end user customer changes their resold local service from SBC MISSOURI or another LSP to CLEC, SBC MISSOURI will charge CLEC the normal service order charges and/or non-recurring charges associated with said additions and/or changes will be applied in addition to the conversion charges.

3.3 For the purposes of ordering service furnished under this Appendix, each request for new service (that is, service not currently being provided to the End User on SBC MISSOURI's network, without

regard to the identity of that End User's non-facilities based local service provider of record) shall be handled as a separate initial request for service and shall be charged per billable telephone number.

- 3.4 Upon an end user's subscription to CLEC local Resale service, CLEC may choose to replace LIDB data with its own information or retain the information from the previous provider. CLEC resold service will retain all LIDB functionality equal to that of SBC retail service.

SBC MISSOURI will not prohibit, nor impose unreasonable or discriminatory conditions or limitations on the resale of its Telecommunications Services.
Conformed pursuant to Missouri Commission Award- GT&C issue #23.
- 5.2 CLEC will not use the Resale services covered by this Agreement to provide intrastate or interstate access services or to avoid intrastate or interstate access charges to itself, interexchange carriers (IXCs), wireless carriers, competitive access providers (CAPs), or other telecommunications providers. Provided however, that CLEC may permit its end users to use resold Resale services to access IXCs, wireless carriers, CAPs, or other retail telecommunications providers.

6.0 DIALING PARITY
