OF THE STATE OF MISSOURI**

In the Matter of the Application of Confluence Rivers	)	
Utility Operating Company, Inc., for Authority to	)	File Nos. WA-2021-0425
Acquire Certain Water and Sewer Assets and for	)	SA-2021-0426
Certificates of Convenience and Necessity	)	

**NOTICE OF COMPLETION AS TO CEDAR GREEN EVALUATION**

COMES NOW Confluence Rivers Utility Operating Company, Inc., (“Confluence Rivers” or “Company”) and for its *Notice of Completion as to Cedar Green Evaluation* respectfully states as follows to the Missouri Public Service Commission (“Commission”):

1. On December 15, 2021, the Commission issued its *Order Granting Certificate of Convenience and Necessity* (“Order”) in these cases. The *Order* requires Confluence Rivers to evaluate the soil and rock erosion around the Cedar Green ground storage tank, to install shoring as required, and to notify the Commission when completed.

2. Confluence Rivers hereby provides notice to the Commission that the Company received a report prepared by the engineering firm Horner & Shifrin dated October 21, 2022, regarding its structural evaluation of the water tower, water tower foundation, and pump house building at Cedar Green.

3. The report concludes that “[t]he overall structure [is] in good condition and shows no signs of structural deficiencies. With continued maintenance of the site, the facility should have no structural issues with continued operation.” The report further recommends “clean[ing] the debris off the back side of the foundation to allow for proper rain runoff and mitigate ponding of water around the base of the structure.” The report does not recommend shoring in its conclusions.

**WHEREFORE**, Confluence Rivers respectfully submits this *Notice of Completion as to Cedar Green Evaluation* to the Commission.

Respectfully submitted,

**BRYDON, SWEARENGEN & ENGLAND P.C.**

/s/ Jesse W. Craig
