

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Southwestern)	
Bell Telephone Company d/b/a AT&T Missouri)	
For Review and Reversal Of North American)	Case No. _____
Number Plan Thousands-Block Pooling)	
Administrator's Decision to Withhold Numbering)	
Resources)	

AT&T MISSOURI'S APPLICATION AND MOTION FOR EXPEDITED TREATMENT

COMES NOW AT&T Missouri¹ and respectfully requests that the Commission issue an Order that reviews and reverses the decision of the North American Numbering Plan Thousands-Block Pooling Administrator, NeuStar, Inc. ("NeuStar"), to withhold certain numbering resources from AT&T Missouri. These resources are necessary to meet AT&T Missouri's pressing need in the Manchester, Missouri, rate center. More specifically, the resources requested consist of one thousands-block that is within (1) the 636 NPA, (2) the Manchester (MNCHMO59DS0) rate center, and (3) an NXX that does not include Metropolitan Calling Area ("MCA") dialing capability (i.e., a non-MCA thousands-block). The requested thousands-block is necessary to allow AT&T Missouri's timely assignment of non-MCA numbers to its telecommunications services customers.

In further support of this Application, AT&T Missouri states as follows:

1. AT&T Missouri is a Missouri corporation with its principal Missouri office at One AT&T Center, Room 3520, St. Louis, Missouri 63101. It may be contacted at the regular and electronic mail addresses and telephone and facsimile numbers of its attorneys, as set out under the signature block of this Application. AT&T Missouri is authorized to do business in

¹ Southwestern Bell Telephone Company d/b/a AT&T Missouri ("AT&T Missouri"). AT&T Missouri files this verified Application and motion for expedited treatment pursuant to 4 CSR 240-2.060, 4 CSR 240-2.080(16), 4 CSR 240-37.040 and 47 CFR 52.15(g)(3)(iv).

Missouri² and its fictitious name is duly registered with the Missouri Secretary of State.³ AT&T Missouri is a "local exchange telecommunications company" and a "public utility," and is duly authorized to provide "telecommunications service" within the State of Missouri, as each of those phrases is defined in Section 386.020, RSMo 2000.⁴

2. All correspondence, pleadings, orders, decisions, and communications regarding this proceeding should be sent to:

Timothy P. Leahy
Leo J. Bub
Robert J. Gryzmala
Attorneys for Southwestern Bell Telephone Company
d/b/a AT&T Missouri
One AT&T Center, Room 3516
St. Louis, Missouri 63101

3. AT&T Missouri is nearing exhaust of telephone numbers available to it to meet the non-MCA calling needs of customers served by the Manchester rate center. To alleviate this condition, AT&T Missouri finds it necessary to request that the Commission issue an order pursuant to Commission Rule 37.040 (4 CSR 240-37.040).

4. A copy of the March 27, 2008, letter to the Commission from Ms. Susan Ables, Manager of Technical Support for AT&T's Telephone Numbering Administration Center, is attached hereto and marked as Exhibit A. As noted in the letter, AT&T Missouri "has only one (1) non-MCA prefix in the Manchester rate center (i.e., the NPA-NXX of 636-527) available to

² In accordance with 4 CSR 240-2.060(1) and (G), a certified copy of Southwestern Bell Telephone Company's Certificate of Good Standing from the Missouri Secretary of State was filed with the Commission on August 15, 2007, in Case No. IK-2008-0044.

³ In accordance with 4 CSR 240-2.060(1)(E) and (G), a copy of the registration of the fictitious name "AT&T Missouri" was filed with the Commission on July 17, 2007, in Case No. TO-2002-185.

⁴ Following its June 26, 2007, Order in Case No. TO-2002-185 allowing Southwestern Bell Telephone, L.P., d/b/a AT&T Missouri, to alter its status from a Texas limited partnership to a Missouri corporation, the Commission approved tariff revisions to reflect the new corporate name, Southwestern Bell Telephone Company d/b/a AT&T Missouri. *See, Order Granting Expedited Treatment and Approving Tariffs*, Case No. TO-2002-185, issued June 29, 2007.

it.” However, within the non-MCA NPA-NXX of 636-527, “only about 300 numbers remain available for assignment to customers.”

5. AT&T Missouri has researched all of the thousands blocks available to it in its Manchester rate center (MNCHMO59DS0). AT&T Missouri has confirmed that it has no thousands-blocks available in order to meet its customers’ non-MCA calling needs.

6. Consequently, AT&T Missouri requests that the Commission grant it numbering resources consisting of one thousands-block that is within (1) the 636 NPA, (2) the Manchester (MNCHMO59DS0) rate center, and (3) an NXX that does not include MCA dialing capability (i.e., a non-MCA thousands-block).

7. On March 24, 2008, AT&T Missouri submitted a Thousands-Block Application Form, Part 1A, for the numbering resources assignment necessary to meet its needs. A copy of the Application is attached hereto and is marked as Exhibit B. AT&T Missouri completed the Application in accordance with the Industry Numbering Committee’s Thousands-Block Pooling Assignment Guidelines and filled out the necessary Months to Exhaust and Utilization Certification Worksheet, a copy of which is attached hereto and marked as Exhibit C.

8. On March 24, 2008, NeuStar denied the request, but indicated that AT&T Missouri could “proceed with requesting a State Waiver from the appropriate state commission.” A copy of that decision is attached hereto and marked as Exhibit D.

9. AT&T Missouri seeks the Commission’s direction to overturn NeuStar’s decision to withhold numbering resources. This Commission has overturned NeuStar’s decision to withhold numbering resources in several cases and AT&T Missouri respectfully submits that it should likewise do so here.

10. Under existing procedures, NeuStar has asserted that it is required to accept or reject an application for resources based solely on FCC criteria. However, the FCC's March 31, 2000, Order in its Number Resource Optimization docket states that a carrier may challenge a resource denial before the appropriate state regulatory commission and a state commission may choose to affirm or overturn NeuStar's decision to withhold numbering resources.⁵ Thus, the Commission has the authority to "affirm or overturn [NeuStar's] decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein."⁶ Moreover, the FCC determined that states may overturn NeuStar's decision to withhold numbering resources from the carrier where there is a verifiable need for the carrier to satisfy a specific customer request:

We also agree with WinStar that a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer request. We therefore clarify that states may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory.⁷

11. The FCC further explained in its March 31, 2000, Order that a "[c]arrier may demonstrate such a need by providing the state with documentation of the customer request and current proof of the utilization in the rate center" and that states "may grant requests for customers seeking contiguous blocks of numbers."⁸ Moreover, although the FCC declined to establish a specific timeframe for states to act on these requests, the FCC indicated "in most

⁵ Report and Order and Further Notice of Proposed Rule Making, In the Matter of Numbering Resource Optimization, CC Docket No. 99-200, March 31, 2000, Appendix A; *see also*, 47 CFR 52.15(g)(3)(iv).

⁶ *Id.*

⁷ Third Report and Order and Second Order on Reconsideration, In the Matter of Numbering Resource Optimization, CC Docket No. 99-200, et al., December 12, 2001, paragraph 64; *see also*, 47 CFR 52.15(g)(4).

⁸ *Id.*

instances, 10 business days from receipt of request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.”⁹

12. Further, this Application complies with 4 CSR 240-37.040. AT&T Missouri has attached hereto its “Months-to-Exhaust Worksheet” indicating the utilization for the Manchester rate center (MNCHMO59DS0) encompassing both the preceding six months and projected monthly utilization for the next twelve months. 4 CSR 240-37.040(1)(A)1. *See*, Exhibit C. AT&T Missouri has also attached hereto its most recently-filed FCC Form U1 of Form 502 for this rate center. 4 CSR 240-37.040(1)(A)2. *See*, Exhibit E(HC). Finally, AT&T Missouri attaches copies of its originally-filed request to NeuStar (i.e., its Thousands-Block Application Form, Part 1A) and NeuStar’s denial of that request. 4 CSR 240-37.040(1)(A)3. *See*, Exhibits B and D, respectively. These materials and the instant Application demonstrate a verifiable need for the numbering resources requested herein. In connection with this request, AT&T Missouri has exhausted all other available remedies designed to conserve numbering resources. 4 CSR 240-37.040(1)(A)4.

13. AT&T Missouri has no final unsatisfied judgments or decisions against it from any state or federal agency or court, which involve retail customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application. Moreover, AT&T Missouri has no pending actions which satisfy the listed criteria in Arkansas, Kansas, Missouri or Oklahoma. AT&T Missouri (which operates in Texas under the fictitious

⁹ *Id.* at paragraph 66.

name AT&T Texas) has six pending formal complaints or lawsuits from end-user customers in Texas which involve retail customer service or rates.¹⁰

14. AT&T Missouri does not have any annual report or assessment fees that are overdue in Missouri.

15. AT&T Missouri seeks expedited treatment and requests that the Commission act on this request within thirty (30) days. Based on its experience in numbering administration and the anticipated needs of customers served by the Manchester rate center, AT&T Missouri believes that “customers’ orders for non-MCA telecommunications service will soon cause a depletion” of the numbers now available to AT&T Missouri, “thus requiring additional assignments within a very short time frame.” Exhibit A. In order to accommodate its customers’ needs, the Commission must issue its order expeditiously, so that AT&T Missouri will have enough time to file a new request with NeuStar for the release of the numbering resources to AT&T Missouri described herein, both to meet its customers’ needs and so that AT&T Missouri and any other telecommunications service providers that provides service via a switch can program their switches. AT&T Missouri filed this request for expedited treatment as soon as it could have. Specifically, AT&T Missouri filed this pleading after NeuStar rejected AT&T Missouri’s request for numbering resources and AT&T Missouri determined that it was not feasible to implement a technological alternative.

¹⁰ The pending lawsuits in Texas involving customer service or rates are (1) Irving's Holding, Inc. v. SBC Communications, Inc., Docket No. CC-05-07415-C and (2) David Lavine, M.D. and David Lavine, M.D., P.A. d/b/a Center for Cosmetic and Reconstructive Surgery v. AT&T Inc., Cause No. 07-54771-2. The pending formal complaints before the Texas Public Utility Commission involving customer service or rates are as follows: (1) Complaint of Harris County Hospital District Against AT&T Texas, Docket No. 34332; (2) Complaint of Harris County Hospital District Against AT&T Texas, Docket No. 34940; (3) Complaint of Harris County Hospital District Against AT&T Texas, Docket No. 35363; Complaint of Lonzie Leath Against AT&T Texas, Docket No. 35133; and (4) Complaint of John J. Gitlin, Esq. Against AT&T Texas, Docket No. 34348.

WHEREFORE, AT&T Missouri respectfully requests that the Commission overturn NeuStar's previous determination in this matter within thirty (30) days, and instruct NeuStar to release the numbering resources described herein.

Respectfully submitted,

SOUTHWESTERN BELL TELEPHONE COMPANY

STATE OF MISSOURI) SS

VERIFICATION

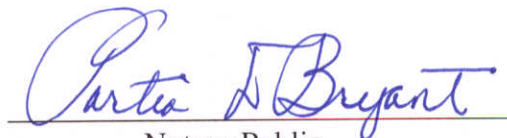

I, Alan G. Kern, first being duly sworn, state on my oath that I am over the age of twenty-one years, sound of mind, and Director-Regulatory of Southwestern Bell Telephone, L.P., d/b/a AT&T Missouri ("AT&T Missouri"). I am authorized to act on behalf of AT&T Missouri regarding the foregoing document. I have read the foregoing document and I am informed and believe that the matters contained therein are true.

Alan G. Kern

On this 27th day of March 2008, before me, a Notary Public, personally appeared Alan G. Kern, and being first duly sworn upon his oath stated that he is over twenty-one years, sound of mind and Director-Regulatory of AT&T Missouri, he signed the foregoing document as Director-Regulatory of AT&T Missouri and the facts contained therein are true and correct according to the best of his information, knowledge and belief.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed my official seal in the County and State aforesaid, the day and year above-written.

Notary Public

My Commission Expires:

March 27, 2008

Re: Numbering Resources Request for Manchester Rate Center

To the Missouri Public service Commission:

This letter documents AT&T Missouri's request for additional numbering resources by means of an order overturning a decision of NeuStar, Inc., and to provide assurance of our need for one (1) thousands-block of numbering resources in the Manchester rate center (MNCHMO59DS0) suitable for non-Metropolitan Calling Area dialing capability.

At present, AT&T Missouri has only one (1) non-MCA prefix in the Manchester rate center (i.e., the NPA-NXX of 636-527) available to it. AT&T Missouri has exhausted most of these numbering resources. Our records reflect that, within 636-527, only about 300 numbers remain available for assignment to customers. Based on our experience, we anticipate that customers' orders for non-MCA telecommunications service will soon cause a depletion of these numbers, thus requiring additional assignments within a very short time frame.

It is imperative that we have these additional non-MCA numbers so that we can continue to meet our customers' expectations that their orders will be provisioned in a timely manner. Thank you in advance for your help and support regarding our request. If more information is needed, please advise.

Sincerely,

Susan Ables

Manager-Technical Support-TNAC

Thousands-Block Application Form

Part 1A

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under “Block Applicant” the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator’s name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider^{ix}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, inter-exchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers shall indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA must seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.
