

**BEFORE THE PUBLIC SERVICE COMMISSION
STATE OF MISSOURI**

In the matter of the application of
NorVergence, Inc.,
for a certificate of service authority to resell
intrastate interexchange telecommunications
services within the state of Missouri.

Case No.

APPLICATION

COMES NOW NorVergence, Inc. ("NorVergence" or "Applicant"), a New Jersey corporation, and submits its Application respectfully requesting that the Missouri Public Service Commission ("Commission") issue Applicant a Certificate of Service Authority to provide competitive intrastate telecommunications services between and among locations within the state of Missouri pursuant to Section 392.440, RSMo 2000,¹ an order classifying Applicant as a competitive telecommunications carrier, and an order waiving or suspending certain Commission rules and statutory provisions pursuant to Section 392.420. In support of its request, Applicant provides the following information:

1. The legal name and principal office or place of business of the Applicant are: NorVergence, Inc., 550 Broad Street, 3rd Floor, Newark, New Jersey 07102. A copy of the Articles of Incorporation is attached hereto as Exhibit A and incorporated herein by reference. Applicant is qualified to transact business in the state of Missouri and holds a certificate of authority as a foreign corporation to transact business in the state of Missouri, which is attached hereto as Exhibit B and incorporated herein by reference.

2. Applicant does not do business under a fictitious name.

3. Copies of correspondence, communications and orders and decisions of the Commission are to be sent are as follows:

¹ All citations to statutory sections are to the 2000 Revised Statutes of Missouri, as currently supplemented, unless otherwise indicated.

4. The name and address of the Applicant's registered agent is:

National Registered Agents, Inc.
300-B East High Street
Jefferson City, MO 65101

5. Applicant has approved applications for certificates of authority to resell long distance interexchange services in California, Colorado, Connecticut, Georgia, Illinois, Massachusetts, Michigan, Montana, New Jersey, Nevada, New York, North Carolina, Oregon, Pennsylvania, Texas, and Wisconsin. Applicant has filed or is in the process of filing applications for certificates of authority to resell long distance services in all states where required except Alaska. The Applicant is operating or plans to begin operation in the following states that do not require a certificate of authority to resell: Iowa, Utah and Virginia.

6. Applicant intends to provide telecommunications services to business customers statewide in the state of Missouri as a switched-based reseller of the interexchange services utilizing the network facilities of Qwest. Applicant's switch is located in New Jersey. Applicant does not plan to deploy any switches or transmission facilities in Missouri. The customer will become a customer of the Applicant, not of the underlying carrier. Applicant assumes responsibility for billing, trouble reporting, and customer service. Applicant plans to provide telecommunication services from points of origin in Missouri

to destination points in Missouri, other parts of the United States, and foreign countries. In the future, the Applicant may resell the services of other interexchange carriers.

7. Applicant is not a facilities based carrier. The Applicant does not own, operate, control or manage any telecommunications transmission facility. Applicant does not own or operate a switch.

8. Applicant applies for a certificate of authority under Chapter 392.440, to operate as an intrastate reseller of telecommunication services and also applies pursuant to Section 392.361, for designation as a competitive telecommunications company. Applicant proposes to offer 1+ services, which are already classified as competitive telecommunications services in the state of Missouri. Applicant will not provide 0+ dialing to presubscribed customers. Both the company and its services will be subject to sufficient competition to justify a lesser degree of regulation. Such regulation will be consistent with the protection of the ratepayer and promote the public interest.

Applicant plans to resell statewide in the state of Missouri.

9. Applicant submits the following reasons in support of its belief that the public interest will be served by approval of this Application. By purchasing a package of interstate, intrastate, and international telecommunication services in large volume, Applicant has been able to obtain a significant discount in the price of those services. The benefits of that discount are passed along in part to the Applicant's customers who, acting individually, could not generate a sufficient volume of business to command a discount from an interexchange carrier on their own.

10. Applicant also respectfully requests, pursuant to Section 392.420, that the Commission suspend, waive or modify the application of the following rules and statutory provisions as it relates to the regulation of the applicant interexchange company:

- 4 CSR 240-10.020 - Depreciation and income
- 4 CSR 240-3.545(2)(C) - Posting of exchange rates at central operating offices
- 4 CSR 240-30.040 - Uniform system of accounts
- 4 CSR 240-33.030 - Minimum charge rules

Section 392.210.2	-	Establish uniform system of accounts for annual reports
Section 392.240(1)	-	Rates – reasonable average return on investment
Section 392.270	-	Property valuation
Section 392.280	-	Depreciation rates
Section 392.290	-	Issuance of securities
Section 392.300.2	-	Acquisition of stock
Section 392.310	-	Issuance of stocks and debt
Section 392.320	-	Stock dividend payment
Section 392.330	-	Issuance of securities, debt, and notes
Section 392.340	-	Reorganization(s)

The above-referenced rules and statutory provisions have been waived with regard to other interexchange carriers in prior cases. These rules or statutory provisions are principally designed to apply to noncompetitive telecommunications carriers. It would be inconsistent with the goal and purposes of Section 392.530 to apply them to a competitive telecommunications carrier such as the Applicant.

11. Applicant's tariff, setting out the proposed services and charges offered by Applicant, is being filed simultaneously with this Application and has a forty-five (45) day effective date.

12. Applicant will not unjustly discriminate among its customers, which discrimination is prohibited pursuant to Section 392.200.

13. Applicant has no annual reports or regulatory assessment fees that are overdue in Missouri.

14. Applicant has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application.

WHEREFORE, Applicant NorVergence, Inc., respectfully requests the Public Service Commission of the State of Missouri to grant it a Certificate of Service Authority to provide competitive intrastate interexchange telecommunications service within the state of Missouri; an order classifying it as a competitive telecommunications company providing competitive service; an order suspending, waiving,

or modifying the above-referenced rules and statutory provisions as they relate to the regulation of the Applicant in the state of Missouri; and for such further orders as the Commission deems appropriate.

Respectfully submitted,

/s/ James M. Fischer
