Subject: rate increase

This e-mail response is in reference to request number QS2007-005.

We, Richard & Kathy Thomas, of 5912 Apple Ridge Rd in South Walnut Hills, a sub-division of Sedalia, MO, oppose a 100% sewer rate increase imposed by WPC Sewer Company.

Like with any business, I am sure some sort of rate increase would be justified.

Wouldn't all business owners, and for that matter, all workers want a 100% increase in operating expenses and pay checks.

It would've been nice for WPC to set down with the homeowners and show actual expenses incurred and what their profit margin currently is.

Regards,

Richard & Kathy Thomas

Subject: Proposed 100% Sewer Rate Increase!!

Water/Sewer Department,

I live in the Hunters Ridge Subdivision in Sedalia, and I am outraged at the thought that Tony Monsees of WSS sewer can ask for a 100% rate increase for our sewer. It was not the homeowners fault that the sewer was not properly built to start with. I understand he got fined for the leakage into the nearby creek. I don't feel that he should recoup that cost from us. He could'nt be paying close attention to the sewer business to all the sudden need to double our rates!!

Outrageous. Matina Zimmerman

Subject: QS2007-005; Sedalia, MO

I am a resident of South Walnut Hills in Sedalia, MO. I would like to voice my concern about the private motives behind the sewer rate increase of one hundred percent. How can a rate of this size be justifiable?
Nothing has been done to improve or upkeep the sewer system over the past years?
Surrounding area sewer rates are substantially lower than our current rate, as much as 41% lower.

The increase would put the sewer bill from \$17.53 to approximately \$35.06.
100% increase! Something is wrong andd the residents deserve a justification

Thank you.
