

STATE OF MISSOURI
PUBLIC SERVICE COMMISSION

At a Session of the Public Service
Commission held at its office
in Jefferson City on the 6th
day of January, 1993.

In the matter of the conservation and load)
management proposals of Union Electric Company.) Case No. EO-84-105

ORDER CLOSING DOCKET

On January 20, 1984, the Commission issued an order establishing a docket and directing the filing by Union Electric (UE) of a combination conservation and load management plan. Subsequently, after annual workshops with Staff, UE has filed reports updating its original proposals on an annual basis through August, 1992. On December 8, 1992, the Commission approved an Order of Rulemaking enacting Chapter 22 of 4 CSR 240 and amending Chapter 13 of 4 CSR 240, in which conservation and load management planning was substantially incorporated into an overall planning methodology for regulated electric utilities, including UE, known as Integrated Resource Planning.

As a result of the enactment of the Integrated Resource Planning rules, the instant docket is no longer necessary, as the conservation and load management planning requirements as set out in this case are substantially incorporated into the new Integrated Resource Planning rules. Staff agrees that this docket is no longer necessary.

The Commission, therefore, seeing no reason to leave this docket open, closes this docket, effective May 1, 1993, the anticipated effective date of the Integrated Resource Planning rules.

IT IS THEREFORE ORDERED:

1. That, for the above reasons, this docket is hereby closed.

2. That this order shall become effective on the 1st day of May, 1993.

BY THE COMMISSION
