TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).

SECTION 2. RULES AND REGULATIONS (Cont'd)2.11 Deposits

- 2.11.1 To safeguard its interests, before a service or facility is furnished, The Company may require a Subscriber, whose financial responsibility is not established to the satisfaction of The Company, or who is a bad credit risk or non credit rated to make a deposit to be held as a guarantee for the payment of charges. A deposit does not relieve the Subscriber of the responsibility for the prompt payment of bills on presentation. The deposit will not exceed an amount of two (2) months estimated charges.
- 2.11.2 A deposit may be required in addition to an advance payment.
- 2.11.3 When a service is discontinued, the amount of a deposit, if any, with accrued interest, shall be returned to the Subscriber within twenty-one (21) days of the rendition of a final bill.
- 2.11.4 The Company may require a deposit from an existing Subscriber if the Subscriber is delinquent in payment, or if the Subscriber's service has been suspended or terminated for non-payment once within the preceding 6-month period. "Delinquent in payment" means that a Subscriber has received two consecutive telephone bills without making payment of one-half of the total of the two bills prior to the due date of the second bill. The Company will provide a Subscriber with written notice before it assesses a deposit, and state that the failure to make timely payment will permit The Company to require a deposit. A Subscriber is not considered delinquent, however, if an amount in dispute is not paid before the dispute is resolved.
- 2.11.5 Subscribers who have a recent payment history with the Company are entitled to service without payment of a deposit unless their records indicate that they are delinquent in payment. A Subscriber who still owes money to the Company for service on a prior account in his or her name shall be offered a deferred payment plan not to exceed three months provided that the Subscriber had service for three months and was not terminated for nonpayment during that period.
- 2.11.6 Deposits held will accrue interest at a rate of 6 % annually. The Company is not required to pay interest on a deposit held less than 180 days and shall not be required to pay interest on a deposit after termination or discontinuance of service, if the Company has made a reasonable effort to refund the deposit.
- 2.11.7 New deposits from Subscribers are reviewed after the first three monthly bills have been rendered; if too much has been taken the excess is returned. The entire deposit is returned to Subscribers after three years, unless the Subscriber is delinquent in payment, in which case The Company continues to hold it. Then if the service is discontinued, the amount of any deposit is applied against the final bill, and any balance is returned to the Subscriber.

SECTION 3 - DESCRIPTION OF SERVICES3.1 General

The Company provides resold and facilities-based interexchange telecommunications services, including direct-dialed message telecommunications services, and 800/888/877 service. Calls are rated based on the duration of the call. Services are available twenty-four (24) hours a day, seven (7) days a week.

3.2 Charges Based on Duration of Use

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 3.2.1 Calls are measured in duration increments identified for each service. All calls which are fractions of a measurement increment are rounded up to the next whole unit.
- 3.2.2 Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s).
- 3.2.3 Timing terminates on all calls when the calling party hangs up or The Company's network receives an on-hook signal from the terminating carrier.
- 3.2.4 Calls originating in one time period and terminating in another will be billed in proportion to the rates in effect during different segments of the call.
- 3.2.5 All times refer to local times.
- 3.2.6 Rates are not distance sensitive. As such, unless otherwise indicated, mileage bands are not applicable to the services offered.
- 3.2.7 Unless otherwise indicated, rates do not vary depending upon day or the time of day (Day, Evening, and Night/Weekend).

SECTION 4 - RATE SCHEDULE (Cont'd)4.11 Public Pay Telephone Surcharge

In order to recover The Company's expenses to comply with the FCC's pay telephone compensation plan, effective October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate, interstate, and international calls that originate from any domestic pay telephone used to access The Company services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access The Company service and is unrelated to The Company service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the # symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to The Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after The Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Subscriber pays for service by inserting coins during the progress of the call.

Per Call Charge: \$0.24
