1 DIRECT TESTIMONY OF MICHAEL R. NOACK

2 Q. WOULD YOU PLEASE STATE YOUR NAME AND BUSINESS

3 **ADDRESS?**

- 4 A. My name is Michael R. Noack and my business address is 7500 E 35th Terrace,
- 5 Kansas City, Missouri 64129.

6 Q. BY WHOM ARE YOU EMPLOYED?

- 7 A. I am employed by Missouri Gas Energy ("MGE"), an operating unit of Laclede
- 8 Gas Company ("Laclede"), as Director of Pricing and Regulatory Affairs.

9 Q. PLEASE DESCRIBE YOUR PROFESSIONAL EXPERIENCE.

10 A. I received a Bachelor of Science in Business Administration with a major in 11 Accounting from the University of Missouri in Columbia. Upon graduation, I 12 was employed by Troupe Kehoe Whiteaker & Kent (TKWK), a Certified Public 13 Accounting Firm in Kansas City, Missouri. I spent approximately 20 years 14 working with TKWK or firms that were formed from former TKWK employees 15 or partners. I was involved during that time in public utility consulting and 16 financial accounting, concentrating primarily on rate cases for electric and gas 17 utilities and financial audits of independent telephone companies across the 18 United States. In 1992, I started Carleton B. Fox Co. Inc. of Kansas City which 19 was an energy consulting company specializing in billing analysis and tariff 20 selection for large commercial and industrial customers. In July of 2000, I started 21 my employment with MGE.

22 Q. HAVE YOU PREVIOUSLY TESTIFIED BEFORE THIS COMMISSION?

- 1 A. Yes. I have testified or submitted pre-filed testimony in numerous Commission
- 2 proceedings, including MGE's last five rate cases, Case Nos. GR-2001-292, GR-
- 3 2004-0209, GR-2006-0422, GR-2009-0355 and finally GR-2014-0007.
- 4 **PURPOSE OF TESTIMONY**Error! Bookmark not defined.
- 5 Q. WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THESE
- 6 **PROCEEDINGS?**
- 7 A. The purpose of my testimony is to support the revenue requirements of Laclede's
- 8 operating units in Eastern Missouri ("LAC") and Western Missouri ("MGE"). As
- 9 filed, MGE is requesting a gross revenue increase of \$50.4 million. However, since
- MGE is already collecting \$13.4 in ISRS charges, the net incremental increase is
- \$37.0 million. LAC is requesting a gross revenue increase of \$58.1 million. Since
- 12 LAC is already collecting \$29.5 million in ISRS charges, its net incremental
- increase is \$28.5 million. Following the conclusion of LAC's and MGE's currently
- pending ISRS filings, the requested incremental revenues will decrease by the
- amount of the ISRS approved in those cases. The revenue deficiencies are
- supported by Schedules MRN-D1 for MGE and MRN-D2 for LAC, which consists
- of sections A through H, and which are attached to this testimony. I will be
- responsible for sponsoring most of the adjustments made to the test year ending
- December 31, 2016, and updated for known and measurable changes that support
- 20 the revenue deficiency.
- 21 Q. HOW DO THE PROPOSED INCREMENTAL RATE INCREASES
- 22 COMPARE TO PREVIOUS REQUESTS FOR RATE RELIEF BY MGE
- 23 AND LAC?

The amounts being requested by MGE and LAC to cover all of their non-ISRS costs are significantly lower than the comparable amounts that were sought in prior cases. In fact, on a combined basis, they are significantly less than the non-ISRS rate increases sought by MGE and LAC in their 2009/2010 rate cases. In 2009, LAC and MGE each independently filed their first rate cases in three years. They sought a combined total of \$81 million in non-ISRS revenue. From the time those rate cases concluded in 2010 until the present, Laclede and MGE have not increased their non-ISRS rates. In the current cases, LAC and MGE are requesting a combined non-ISRS increase of \$65.5 million. To put these facts in perspective, LAC and MGE have not only operated for seven years without a non-ISRS increase, but after those seven years, they are now requesting a combined non-ISRS increase that is less than the amount they requested in 2009, even though the 2009 request covered a historical period (3 years), which is less than half of the corresponding period (7 years) covered by the current cases.

15 O. HOW HAS THIS BEEN ACHIEVED?

1 A.

Much of this achievement is a result of the growth strategy that has been successfully pursued by Spire and Laclede over the past several years – a strategy that has allowed us to keep our promise to the Commission to "bend down" the inclining cost curve that historically led LAC and MGE to seek and obtain significantly larger and more frequent rate increases in the past.

21 Q. WHEN DID LACLEDE'S OPERATING UNITS LAST FILE FOR

22 GENERAL RATE INCREASES?

1	A.	MGE's last general rate case was filed on September 16, 2013, more than three
2		and a half years ago, while LAC's last general rate case was filed on December
3		21, 2012, or well over four years ago.
4	Q.	WHY DO MGE AND LAC NEED TO FILE FOR A GENERAL RATE
5		INCREASE?
6	A.	LAC must file a rate case within three years of April 12, 2014, when its
7		Infrastructure System Replacement Surcharge ("ISRS") rates first became
8		effective after the last general rate case, in order to continue to collect the ISRS
9		rates approved by the Commission. In addition to the ISRS requirement to file a
10		general rate case within three years of implementing new ISRS rates, the
11		Stipulation and Agreement approved by the Commission in GM-2013-0254
12		requires that Laclede file simultaneous rate cases for its LAC and MGE operating
13		units for the first rate case filed after October 1, 2015.
14		ADMINISTRATIVE MATTERS
15	Q.	MR. NOACK, WOULD YOU PLEASE SUMMARIZE THE DIFFERENT
16		SECTIONS OF SCHEDULES MRN-D1 AND MRN-D2 ATTACHED TO
17		YOUR DIRECT TESTIMONY?
18	A.	Schedule MRN-D1 contains the Accounting Schedules supporting the requested
19		rate increase for MGE while Schedule MRN-D2 contains the Accounting
20		Schedules supporting the rate increase request for LAC. Both MRN-D1 and
21		MRN-D2 consist of the same component schedules for each Company.
22		Schedule A summarizes the revenue deficiency at December 31, 2016.
23		Schedule B summarizes and supports the various rate base items and offsets.
24		Schedule C summarizes and supports plant in service.

- 1 Schedule D summarizes and supports reserve for depreciation.
- 2 Schedule E summarizes and supports the various working capital components and
- 3 other regulatory assets.
- 4 Schedule F summarizes the capital structure and rate of return.
- 5 Schedule H summarizes and supports the operating income statement &
- 6 adjustments.

7 Q. WHAT IS THE TEST YEAR USED TO DEVELOP THE REVENUE

- 8 REQUIREMENT FOR LAC AND MGE?
- 9 A. The test year is the twelve months ending December 31, 2016, adjusted for known
- and measurable changes.
- 11 Q. WILL LAC AND MGE BE REQUESTING THAT THE TEST YEAR BE
- 12 **UPDATED AND/OR "TRUED-UP"?**
- 13 A. Yes. We are requesting the test year be updated or trued-up through September
- 14 30, 2017. This is consistent with the process used in all five of the MGE rate
- cases I have supervised since 2000. We believe this approach will provide a
- relatively current time period of actual experience on which to base rates, while at
- the same time providing an opportunity for the Commission Staff and other
- parties to audit this actual experience.

19 Q. WHAT "TRUE-UP" DATE ARE LAC AND MGE REQUESTING?

- A. At this time, we would consider September 30, 2017 as the true-up date where we
- would update all major components of the cases including capital structure,
- components of rate base and the major revenue and expense items and
- 23 adjustments. We believe this update through September 30, 2017 should be
- sufficient to establish a reasonable and representative cost of service. I should

note, however, that as this proceeding unfolds there may be a need to revisit this issue depending on the positions taken by other parties. There also may be a need to consider certain additional changes in accounting practices, orders or procedures or to incorporate tariff modifications to reflect those positions taken by other parties.

MGE REVENUE DEFICIENCY

Q. MR. NOACK, WOULD YOU PLEASE EXPLAIN SCHEDULE MRN-D1

ATTACHED TO YOUR TESTIMONY?

A.

- Yes. Schedule MRN-D1 details MGE's revenue deficiency for the test year ended December 31, 2016. The schedule details rate base, rate of return, required net operating income, adjusted net operating income, an estimate of the September 30, 2017 update on revenue requirement and, finally, the revenue deficiency. The total revenue deficiency shown on Schedule A is \$50.4 million. The increase in revenue will be offset partially by the elimination and corresponding inclusion in base rates of \$13.4 million of ISRS revenues that are currently being collected by the Company resulting in a net revenue increase of \$37.0 million.
- Schedule A-1 is the summary of net operating income per books for the test year ending December 31, 2016, a summary of the adjustments made to operations, and finally, the net operating income, as adjusted.
- Schedule A-2 is a summary income tax computation, both per book and as adjusted for the twelve months ending December 31, 2016. An explanation of the effective tax rate used to compute as adjusted income taxes is contained in the direct testimony of Laclede witness Kuper.

Q. MR. NOACK, WOULD YOU PLEASE DESCRIBE SCHEDULE B, THE CALCULATION OF RATE BASE? A. Schedule B summarizes the requested rate base of MGE at December 31, 2016.

5 Capital components of \$72.6 million, and the balance of Accumulated Deferred

Total rate base of \$792.5 million consists of net plant of \$836.1 million, Working

6 Income Taxes and other rate base offsets of \$116.2 million.

7 Q. WHO WILL BE SPONSORING TESTIMONY EXPLAINING THE

8 VARIOUS COMPONENTS OF RATE BASE?

4

- 9 A. Laclede witness Keathley will offer testimony on MGE's offsets to rate base of 10 Customer Deposits, Advances for Construction, Deferred Taxes and MGE's rate 11 base offset from Docket No. GM-2013-0254. He will also offer testimony on 12 Plant in Service, Reserve for Depreciation, Regulatory Assets and Working 13 Capital components of Materials and Supplies, Prepayments and Gas Storage 14 Inventory. Company witness Lyons of ScottMadden will offer testimony on Cash 15 Working Capital and Laclede witness Buck will offer testimony on Postretirement 16 Assets included in rate base.
- 17 Q. PLEASE DESCRIBE THE ADJUSTMENTS TO OPERATING INCOME
 18 THAT YOU ARE SPONSORING ON SCHEDULE H.
- A. Schedule H, consisting of 20 sub-schedules, details all of the adjustments made to cost of service. The first two pages of Schedule H detail the operating income statement summarized by the uniform system of accounts. It shows the test year balances per books at December 31, 2016, a summary of the pro forma adjustments to each account and finally the adjusted balance at December 31,

- 1 2016. The next four pages detail each adjustment individually by FERC account 2 number.
- Schedule H-1 is the detail of test year margin revenue after backing out purchased gas adjustment revenue, gross receipts taxes billed, unbilled revenue, off-system sales and finally ISRS revenues collected during the test year, while Schedule H-2
- 6 summarizes the revenue adjustments proposed by MGE.

7 Q. ARE YOU SPONSORING THE REVENUE ADJUSTMENTS DETAILED

8 ON SCHEDULE H-2?

12

13

14

15

16

17

18

19

20

21

22

23

A.

9 A. I am sponsoring the "Commercial-Domestic Use" adjustment while Laclede
10 witness Feldman will provide direct testimony on the other revenue adjustments.

11 Q. WHAT IS THE "COMMERCIAL-DOMESTIC USE" ADJUSTMENT?

The commercial-domestic use adjustment reduces revenue by \$2.1 million to reflect a rate change for landlords who are currently being billed as a small general service (SGS) customer when their property is in their name and not in the tenant's name. Pursuant to its tariff, MGE's residential rate currently is "not available to locations served through a master meter or to a location other than the customer's domicile." That means an MGE customer who has rental property is not eligible for the residential rate when the property is unoccupied and in their name. MGE has coded the account to be domestic use for sales tax purposes, but the customer is being charged under a commercial rate. MGE is proposing to change the availability of the residential rate to include all domestic use customers (including landlords / customers with rental property).

Q. APPROXIMATELY HOW MANY CUSTOMERS WILL BE AFFECTED

24 **BY THIS CHANGE?**

- 1 A. During the test year ended December 31, 2016, 223,060 bills were repriced from
- 2 SGS to RS service or a monthly average of 18,588 customers.

3 Q. WHY IS MGE PROPOSING THIS CHANGE?

- 4 A. Landlords and owners of rental property have expressed frustration for several
- 5 years about the change back and forth between the residential and small general
- 6 service rates. The Office of Public Counsel has also questioned the reasons for
- 7 reclassifying these customers based on whose name the service was in. MGE is
- 8 currently the only gas company in the state to make this distinction between
- 9 landlord and tenant. With this change, MGE's definition of residential customer
- and MGE's practices in this area will be the same as LAC's.

11 Q. WHAT IS BEING PROPOSED BY MGE TO EFFECT THIS CHANGE?

- 12 A. MGE is proposing new language in the Residential Gas Service (RS) tariff sheet
- and the same definition of 'Residential Customer' in the General Terms and
- 14 Conditions that is currently included in LAC's General Terms and Conditions.
- Laclede witness Weitzel is sponsoring those tariff changes.

16 Q. WHAT IS THE NEW DEFINITION OF A RESIDENTIAL CUSTOMER

17 BEING PROPOSED IN THIS CASE?

- 18 A. A residential customer will be defined as follows:
- A customer who purchases gas service for domestic use, including gas service provided to a single family dwelling or to a single meter serving a multiple family
- provided to a single family dwelling or to a single meter serving a multiple family dwelling consisting of four (4) or fewer single family dwelling units, regardless of
- whether the customer is the ultimate consumer of the gas service. In addition, a
- 23 customer who purchases gas service for such a dwelling while the dwelling is vacant
- shall be classified as a Residential Customer. This definition is intended to satisfy
- 25 the provisions of Section 144.030 (23) RSMo, by establishing and maintaining a
- system and rate classification of "residential" to cause sales to residential customers
- 27 under any of the Company's rate schedules to be considered as sales made for
- domestic use and thus exempt from sales tax.

29

As mentioned earlier, with this definition MGE will be treating residential customers similar to all other gas companies in the state, including the LAC operating unit.

O. PLEASE EXPLAIN SCHEDULE H-3.

A.

A. Schedule H-3, also sponsored by Laclede witness Feldman, removes purchased gas costs from the operating income statement along with costs associated with off-system sales, unbilled gas costs and the gross receipts tax expense. These expenses should not be included in the determination of the cost of service.

Purchased gas costs are recovered through the PGA mechanism and not base rates, while gross receipts taxes are simply pass through taxes.

11 Q. PLEASE EXPLAIN THE PAYROLL RELATED ADJUSTMENTS.

The payroll adjustment is detailed on Schedule H-4 while the associated adjustments to the Company's match to employee 401K contributions and payroll taxes are detailed on Schedules H-5 and H-6. The first part of the adjustment annualizes payroll based on the actual February 17, 2017 employee levels and pay rates, and includes adjustments for overtime worked based on actual overtime hours and proforma pay rates, and payouts under the Annual Incentive Program (AIP) based on proforma wage levels. The second part of the adjustment recognizes that an additional 92 employees are expected to be hired across the entire company by September 30, 2017 with 61 being hired for LAC, 17 for MGE, and the final 14 being shared service employees whose time will be allocated between the different units of the Company. (37 new employees began with the Company on March 27, 2017.)

1 Q. WHAT IS INCLUDED IN YOUR ADJUSTMENT TO EMPLOYEE

2 **BENEFITS?**

11

- 3 A. The adjustment to employee benefits on Schedule H-5 normalizes all expenses 4 representing employee benefits paid on behalf of employees. Included in these 5 benefits are FAS 87 pension expense and FAS 106 post retirement benefit costs, which will be discussed in the direct testimony of Laclede witness Buck. The 6 7 other employee benefits being adjusted are the payroll related insurance costs for 8 life insurance, accidental death & dismemberment (AD&D) insurance and long-9 term disability (LTD) insurance along with the Company match to employee 10 401K contributions. These adjustments to insurance costs and the 401K match
- 12 Q. PLEASE EXPLAIN TAB H-6, PR-TAXES.
- 13 A. The adjustment on Schedule H-6 recognizes the increase to payroll taxes
 14 associated with the payroll adjustment detailed on Schedule H-4.

are all related to the payroll expense adjustment on Schedule H-4.

15 Q. WHAT ADJUSTMENT HAVE YOU MADE TO PROPERTY INSURANCE

- 16 **AND INJURIES AND DAMAGES?**
- A. Schedule H-7 normalizes the property insurance and injuries and damages by taking a three-year average of worker compensation claims paid and auto[mobile?] and general liability claims paid and adding to that average the insurance premiums increases expected to be paid on behalf of MGE.
- 21 Q. WHY HAVE YOU MADE AN ADJUSTMENT TO TEST YEAR
- 22 **INSURANCE COSTS?**

1 A. The adjustment has been made to reflect a normalized level of claims paid and to
2 reflect the known and measurable changes in premium costs for MGE. Those
3 costs have been included as a test year expense on Schedule H-7.

4 O. PLEASE EXPLAIN SCHEDULE H-8.

5

22

23

24

A.

Schedule H-8 reflects the proposed adjustment to include an ongoing level of energy efficiency costs in MGE's cost of service. As of December 31, 2016 MGE has accumulated \$14.0 million of energy efficiency costs for expenditures in a regulatory asset. That balance goes all the way back to March 2010 when the Commission ordered MGE to work toward developing an energy efficiency program funded by up to 0.5% of gross revenues with the program expenses accounted for in a regulatory asset. Pursuant to the stipulation and agreement in MGE last rate case, GR-2014-0007, MGE amortized only a modest amount annually of \$0.2 million, while at the same time continuing to incur expenditures under its energy efficiency program. Based on the current gross revenues of MGE the targeted amount of energy efficiency funds to be spent on programs for the benefit of customers is approximately \$2.5 million per year. Given the size and consistent amount of EEC expenditures, some amount of current expenditures should be included in the cost of service, along with a ten-year amortization of the current regulatory asset. Such amounts are reflected on Schedule H-8.

20 Q. WHAT IS THE AMOUNT OF CURRENT ENERGY EFFICIENCY 21 FUNDING YOU ARE PROPOSING TO INCLUDE IN RATES?

A. Based on the current gross revenues of MGE, the targeted amount of energy efficiency funds to be spent on programs for the benefit of customers would be

approximately \$2.5 million per year. As shown on H-8, however, we have

- included a lower normalized amount of \$1.8 million to better reflect actual
- 2 experience. This amount represents a 3-year average of spending for years 2014,
- 3 2015 and 2016.

4 O. HAVE YOU PROPOSED AN ADJUSTMENT TO UNCOLLECTIBLE

- 5 **EXPENSE?**
- 6 A. Yes. I have increased bad debt expense or uncollectible expense by \$3.1 million
- 7 on Schedule H-9. Laclede witness Krick will explain this adjustment in his direct
- 8 testimony.

9 Q. PLEASE EXPLAIN THE ADJUSTMENTS ON SCHEDULE H-10.

- 10 A. The adjustments on Schedule H-10 amortizes expected rate case expense over a 3-
- 11 year period, amortizes the cost of the current depreciation study prepared for this
- case over a five-year period, and recognizes the current level of the Commission
- assessment for the period July 1, 2016 through June 30, 2017.

14 Q. WHAT IS THE PURPOSE OF SCHEDULE H-11?

- 15 A. Schedule H-11 computes interest on the average thirteen-month balance of
- residential customer deposits at an interest rate of 4.75%, or 1% over the prime
- 17 rate, as of December 31, 2016, consistent with MGE's tariff Sheet No. R-14.

18 Q. HAVE YOU PROPOSED AN ADJUSTMENT TO DEPRECIATION

- 19 **EXPENSE?**
- 20 A. Yes. Schedule H-12 details the adjustment to depreciation expense based upon
- 21 the level of plant investment at December 31, 2016.
- 22 Q. PLEASE EXPLAIN YOUR ADJUSTMENT TO AMORTIZATION
- EXPENSE.

1 A. Schedule H-13 details the pro forma amortization expense. The adjustment 2 consists of three parts. The first part annualizes the amortization of all leasehold 3 improvements, miscellaneous intangible plant and unamortized MGE software 4 assets at December 31, 2016. This also includes amortization of the Enterprise 5 Software which has been allocated to MGE. The second part of the adjustment 6 computes amortization of Deferred Energy Efficiency Program costs and Low 7 Income Program costs based upon a requested ten-year amortization period. The 8 energy efficiency program was described above and called for an ongoing level of 9 expense be included in rates. The Low Income Programs are a "Red-Tag" Repair 10 Program and a one-time Low-Income Energy Affordability Program agreed to in 11 the Stipulation and Agreement in GR-2014-0007. The third part of the 12 adjustment amortizes one-half of the one-time non-capital transition cost balance 13 over a five-year period in accordance with the Stipulation and Agreement in GM-14 2013-0254.

15 Q. DO THE ANNUAL COST REDUCTIONS RELATED TO THE 16 SYNERGIES REALIZED BY LACLEDE EXCEED THE AMOUNT OF 17 TRANSITION COSTS FOR WHICH AMORTIZATION IS REQUESTED?

18 A. Yes, cost reductions related to the synergies greatly exceed the transition costs for which the amortization is being requested.

20 Q. PLEASE EXPLAIN YOUR ADJUSTMENT TO PROPERTY TAXES.

21

22

23

24

A.

Schedule H-14 reflects an increase to property taxes to recognize the increased plant at December 31, 2016 and increased assessments expected in the counties in MGE's service territory. Laclede witness Kuper will explain the adjustment in his direct testimony. There is a second adjustment made to property taxes to

- 1 allocate to MGE a portion of the property taxes related to the Enterprise Software
- 2 being allocated to MGE.

3 Q. PLEASE EXPLAIN SCHEDULE H-15.

- 4 A. Schedule H-15 is a reconciliation of the regulatory asset and the ongoing expense
- 5 associated with Ad Valorem taxes assessed on storage gas in Kansas. As part of
- 6 the Stipulation and Agreement in GR-2014-0007, MGE agreed to include in rates
- 7 \$1.6 million associated with the amortization of the regulatory asset related to the
- 8 past assessment of Kansas Ad Valorem taxes and \$1.4 million to reflect an
- 9 ongoing level of expense. MGE also agreed to track the ongoing level of expense
- and record to the regulatory asset the difference between the \$1,400,000 included
- in rates and what is actually paid each year. As of December 31, 2016 the balance
- of the regulatory asset related to Kansas Ad Valorem taxes is \$3.6 million.

13 Q. PLEASE EXPLAIN SCHEDULE H-16.

- 14 A. Schedule H-16 adjusts expenses for known increases in the contractor cost to
- locate lines in the MGE service territory. The majority of the adjustment is
- related to the cost to locate fiber which increased from \$13.40 to \$32.60 per locate
- in May 2016.

18 Q. PLEASE EXPLAIN SCHEDULE H-17, OTHER EXPENSE

- 19 **ADJUSTMENTS.**
- 20 A. Schedule H-17 reflects a decrease to account 912 to eliminate from the cost of
- service the cost of sports tickets included in operating expenses.

22 Q. PLEASE EXPLAIN SCHEDULE H-18.

- 23 A. Currently, MGE has included in rates \$0.75 million for low-income
- 24 weatherization programs administered by the Community Action Agency of

Greater Kansas City, and several other social agencies located in the other parts of MGE's service territories. MGE would recommend that this level of funding continue along with the \$0.75 million of funding in rates for MGE energy efficiency and education initiatives.

LAC REVENUE DEFICIENCY

6 Q. MR. NOACK, WOULD YOU PLEASE EXPLAIN SCHEDULE MRN-D2

ATTACHED TO YOUR TESTIMONY?

- A. Yes. Schedule MRN-D2 details the LAC revenue deficiency for the test year ended December 31, 2016. The schedule details rate base, rate of return, required net operating income, adjusted net operating income and finally, the revenue deficiency. The net revenue deficiency shown on Schedule A is \$58.1 million. The increase in revenue will be offset partially by the elimination and corresponding inclusion in base rates of \$29.5 million of ISRS revenues that are currently being collected by LAC, resulting in a net revenue increase of \$28.5 million.
 - Schedule A-1 is the summary of net operating income per books for the test year ending December 31, 2016, a summary of the adjustments made to operations, and finally, the net operating income, as adjusted.
 - Schedule A-2 is a summary income tax computation both per books and as adjusted for the twelve months ending December 31, 2016. An explanation of the effective tax rate used to compute as adjusted income taxes is contained in the direct testimony of Laclede witness Kuper.

Q. MR. NOACK, WOULD YOU PLEASE DESCRIBE SCHEDULE B, THE CALCULATION OF RATE BASE?

- 1 A. Schedule B summarizes the requested rate base of LAC at December 31, 2016.
- 2 Total rate base of \$1,231.7 million consists of net plant of \$1,169.3 million,
- Working Capital components of \$274.6 million, and the balance of Accumulated
- 4 Deferred Income Taxes and other rate base offsets of \$212.2 million.

5 Q. WHO WILL BE SPONSORING TESTIMONY EXPLAINING THE

VARIOUS COMPONENTS OF RATE BASE?

6

7 A. Laclede witness Keathley will offer testimony on the LAC offsets to rate base of 8 Customer Deposits, Advances for Construction, and Deferred Taxes. He will also 9 offer testimony on Plant in Service, Reserve for Depreciation, Regulatory Assets 10 and Working Capital components of Materials and Supplies, Prepayments and 11 Gas Storage Inventory. Company witness Lyons of ScottMadden will offer 12 testimony on Cash Working Capital, and Laclede witness Buck will offer 13 testimony on Prepaid Pension Assets and the OPEB Regulatory Asset included in 14 rate base.

15 Q. PLEASE DESCRIBE THE ADJUSTMENTS TO OPERATING INCOME 16 THAT YOU ARE SPONSORING ON SCHEDULE H.

A. Schedule H, consisting of 19 sub-schedules, details all of the adjustments made to cost of service. The first two pages of Schedule H detail the operating income statement summarized by the uniform system of accounts. It shows the test year balances per books at December 31, 2016, a summary of the pro forma adjustments to each account and finally the adjusted balance at December 31, 2016. The next four pages detail each adjustment individually by FERC account number.

Schedule H-1 is the detail of test year margin revenue after backing out purchased gas adjustment revenue, gross receipts taxes billed, unbilled revenue, off-system sales and finally ISRS revenues collected during the test year, while Schedule H-2 summarizes the revenue adjustments proposed for LAC.

5 Q. WHO IS SPONSORING THE REVENUE ADJUSTMENTS DETAILED

6 ON SCHEDULE H-2?

17

18

19

20

21

22

23

24

A.

- 7 A. Laclede witness Feldman is providing direct testimony on the revenue adjustments detailed on Schedule H-2.
- 9 Q. PLEASE EXPLAIN SCHEDULE H-3.
- A. Schedule H-3, also sponsored by Laclede Witness Feldman, removes purchased gas costs from the operating income statement along with costs associated with off-system sales, unbilled gas costs and the gross receipts tax expense. These expenses should not be included in the determination of the cost of service.

 Purchased gas costs are recovered through the PGA mechanism and not base rates while gross receipts taxes are simply pass through taxes.

16 Q. PLEASE EXPLAIN THE PAYROLL RELATED ADJUSTMENTS.

The payroll adjustment is detailed on Schedule H-4 while the associated adjustments to the Company's match to employee 401K contributions and payroll taxes are detailed on Schedules H-5 and H-6. The first part of the adjustment annualizes payroll based on the actual February 17, 2017 employee levels and pay rates and includes adjustments for overtime worked based on actual overtime hours and proforma pay rates, and AIP payouts based on proforma wage levels. The second part of the adjustment recognizes that an additional 92 employees are expected to be hired across the entire company by September 30, 2017 with 61

- being hired for LAC, 17 for MGE, and the final 14 being shared service
- employees whose time will be allocated between the different units of the
- Company. (37 new employees began with the Company on March 27, 2017.)

4 Q. WHAT IS INCLUDED IN YOUR ADJUSTMENT TO EMPLOYEE

5 **BENEFITS?**

- 6 A. The adjustment to employee benefits on Schedule H-5 normalizes all expenses
- 7 representing employee benefits paid on behalf of employees. Included in these
- 8 benefits are FAS 87 pension expense and FAS 106 post retirement benefit costs,
- 9 which will be discussed in the direct testimony of Laclede witness Buck. The
- other employee benefits being adjusted are the payroll related insurance costs for
- life insurance, accidental death & dismemberment (AD&D) insurance and long-
- term disability (LTD) insurance, along with the Company match to employee
- 401K contributions. These adjustments to the insurance costs and the 401K
- match are all related to the payroll expense adjustment on Schedule H-4. The final
- adjustment to employee benefits is an adjustment to SERP expense, which is
- based on an average of payments made over that last three years.

17 Q. PLEASE EXPLAIN TAB H-6, PR-TAXES.

- 18 A. The adjustment on Schedule H-6 recognizes the increase to payroll taxes
- associated with the payroll adjustment detailed on Schedule H-4.

20 Q. WHAT ADJUSTMENT HAVE YOU MADE TO PROPERTY INSURANCE

21 AND INJURIES AND DAMAGES?

- 22 A. Schedule H-7 normalizes the property insurance and injuries and damages by
- taking a three-year average of worker compensation claims paid and auto and

- general liability claims paid and adding to that average the increased insurance
- 2 premiums expected to be paid on behalf of LAC.

3 Q. WHY HAVE YOU MADE AN ADJUSTMENT TO TEST YEAR

- 4 INSURANCE COSTS?
- 5 A. The adjustment has been made to reflect a normalized level of claims paid and to
- 6 reflect the known and measurable changes in premium costs for LAC. Those costs
- 7 have been included as a test year expense on Schedule H-7.
- 8 Q. PLEASE EXPLAIN SCHEDULE H-8.
- 9 A. Schedule H-8 reflects the proposed adjustment to include an ongoing level of
- energy efficiency costs in the LAC cost of service. As of December 31, 2016,
- 11 LAC has accumulated \$11.6 million of energy efficiency costs in a regulatory
- asset. Like MGE, LAC has an energy efficiency spending target of 0.5% of gross
- revenues. Based on its current gross revenues, LAC's energy efficiency spending
- target is approximately \$3.7 million per year, which also includes \$1.0 million of
- Low Income Weatherization Funds. Given the size and consistent amount of
- 16 EEC expenditures, some amount of current expenditures should be included in the
- 17 cost of service, along with a ten-year amortization of the current regulatory asset.
- Such amounts are reflected on Schedule H-8.
- 19 Q. WHAT IS THE AMOUNT OF CURRENT ENERGY EFFICIENCY
- 20 FUNDING YOU ARE PROPOSING TO INCLUDE IN RATES?
- 21 A. As shown on Schedule H-8, a normalized amount of \$2.0 million has been
- included. This amount does not include any funding for the low income
- 23 weatherization program. This amount represents a 3-year average of spending for
- 24 years 2014, 2015 and 2016.

1 Q. HAVE YOU PROPOSED AN ADJUSTMENT TO UNCOLLECTIBLE

- 2 **EXPENSE?**
- 3 A. Yes. I have increased bad debt expense or uncollectible expense by \$1.8 million
- 4 on Schedule H-9. Laclede witness Krick will explain this adjustment in his direct
- 5 testimony.

6 Q. PLEASE EXPLAIN THE ADJUSTMENTS ON SCHEDULE H-10.

- 7 A. The adjustments on Schedule H-10 amortize expected rate case expense over a 3-
- 8 year period, amortize the cost of the current depreciation study prepared for this
- 9 case over a five-year period, and recognize the current level of the Commission
- assessment for the period July 1, 2016 through June 30, 2017.

11 Q. WHAT IS THE PURPOSE OF SCHEDULE H-11?

- 12 A. Schedule H-11 computes interest on the average thirteen-month balance of
- residential customer deposits at an interest rate of 4.75%, or the prime rate as of
- December 31, 2016, plus 1%, consistent with LAC Tariff Sheet No. R-5-d.

15 Q. HAVE YOU PROPOSED AN ADJUSTMENT TO DEPRECIATION

- 16 **EXPENSE?**
- 17 A. Yes. Schedule H-12 details the adjustment to depreciation expense based upon
- the level of plant investment at December 31, 2016.

19 Q. PLEASE EXPLAIN YOUR ADJUSTMENT TO AMORTIZATION

- 20 EXPENSE.
- 21 A. Schedule H-13 details the pro forma amortization expense. The adjustment
- consists of two parts. The first part annualizes the amortization of all leasehold
- 23 improvements, miscellaneous intangible plant and unamortized LAC software
- 24 assets at December 31, 2016. The second part of the adjustment computes

amortization of Deferred Energy Efficiency Program costs and Low Income
Program costs based upon a requested ten-year amortization period. The energy
efficiency program is discussed above. The Low Income Programs are a "RedTag" Repair Program and a Low-Income Energy Affordability Program. The final
asset being amortized is the initial Energy Efficiency Asset of LAC which has
approximately 3.5 years of amortization remaining.

7 Q. PLEASE EXPLAIN YOUR ADJUSTMENT TO PROPERTY TAXES.

A. Schedule H-14 reflects an increase to property taxes to recognize the increased plant at December 31, 2016 and increased assessments expected in the counties in LAC's service territory. Laclede witness Kuper will explain the adjustment in his direct testimony. There is a second adjustment made to property taxes to allocate to MGE a portion of the property taxes related to the Enterprise Software being allocated to MGE.

14 Q. PLEASE EXPLAIN SCHEDULE H-15.

15 A. Schedule H-15 adjusts expenses for known increases in the contractor cost to
16 locate lines in LAC's service territory. The majority of the adjustment is related
17 to the cost to locate fiber which increased from \$13.40 to \$32.60 per locate in
18 May 2016.

19 Q. PLEASE EXPLAIN SCHEDULE H-16, OTHER EXPENSE

20 **ADJUSTMENTS.**

- A. Schedule H-16 reflects a decrease to accounts 912 and 921 to eliminate from the cost of service the cost of tickets to various events included in operating expenses.
- 23 Q. PLEASE EXPLAIN SCHEDULE H-17.

A. H-17 reflects an expense for the cost to accept a credit card payment from a customer for the balance of their gas bill without requiring an additional fee. Currently that cost is assessed to the customer by the credit card company which reduces the incentive for a customer to pay with a credit card. No fee credit card payments are consistent with the approach taken by other businesses for the convenience of their customers. It is also in the Company's interest to accept a credit card payment, as credit card companies are in a much better position to assess creditworthiness and thus to assume the risk of unpaid debt.

9 Q. HOW DID YOU COMPUTE THE ADJUSTMENT TO CREDIT CARD 10 FEES?

A.

The LAC adjustment was based on the actual experience of MGE in the most recent 12-month period and based on the average cost per transaction charged by the vendor processing the credit card payments. The number of card payments each month was compared to the number of residential bills for the same month and that percentage of bills paid with credit cards was applied to the number of LAC residential bills for the same months.

SCHOOL TRANSPORTATION PROGRAM

Q. MR. NOACK, AS PART OF THE PARTIAL STIPULATION AND AGREEMENT IN GR-2014-0324 FILED FEBRUARY 22, 2017 MGE AGREED TO PROVIDE CERTAIN INFORMATION PERTAINING TO THE ISSUE OF BALANCING AND CASHING OUT MONTHLY TRANSPORTATION VOLUMES FOR SCHOOLS PARTICIPATING IN THE SCHOOL TRANSPORTATION PROGRAM ("STP"). WHAT

1		INFORMATION WAS REQUESTED BY THE MISSOURI PUBLIC
2		SERVICE COMMISSION STAFF?
3	A.	Under the Partial Stipulation, MGE agreed to provide the following information:
4 5 6 7 8		 A discussion of the costs and benefits of upgrading the reading capabilities of each STP customer meter so that monthly meter reads coincide with the monthly STP nominations; A detailed description of the meter changes or meter reading changes that
9 10 11		could be made to allow for monthly meter reads to coincide with the monthly STP nominations.
12 13 14		3. The cost of upgrading the reading capabilities of each STP customer meter so that monthly meter reads coincide with the monthly STP nominations;
15 16 17 18		4. The Company's position regarding the question of whether meter or meter reading changes provide enough benefit to sales customers to justify inclusion of the meter and meter reading change costs into a sale customer cost of service.
20	Q.	DID THE COMMISSION APPROVE THE PARTIAL STIPULATION AND
21		AGREEMENT?
22	A.	Not as of this writing. MGE is nevertheless providing the information, for two
23		reasons. First, MGE agreed with Staff that it would do so. Second, MGE would
24		like to reach a mutually acceptable resolution of the STP issue with Staff and the
25		Missouri School Boards Association, which is the largest STP association in the
26		MGE territory. MGE hopes that providing Staff the information it seeks will be a
27		step in the direction of reaching such a resolution.
28	Q.	CURRENTLY WHAT IS THE PROCESS OF READING EACH STP
29		CUSTOMER METER?
30	A.	Currently each STP customer meter is read electronically once per month, at
31		various times throughout the month, as part of a regular cycle meter reading
32		program. Meter trucks drive through select portions of the service area and

collect meter reads from a device that sits atop each customer's meter. In the case of very rural areas, the reads are collected using handheld devices. Because of the vast service territory of MGE (31 counties in the western half of the state) it is not feasible to combine all of the schools in the STP into a single meter reading route that would coincide with calendar month nominations made by the marketers serving the schools in the STP program. Currently there are approximately 850 schools taking gas service under the STP tariff and approximately 104 meter reading routes serving those schools. The inability to obtain reads to match calendar month nominations prevents MGE from being able to accurately cash out STP customers, as prescribed in the tariff.

7

8

9

10

- 11 IF MGE WERE TO INSTALL ELECTRONIC GAS MEASUREMENT Q. 12 (EGM) EQUIPMENT AT EACH SCHOOL SIMILAR TO THE 13 EQUIPMENT WHICH CURRENTLY SERVES MGE'S NON-SCHOOL 14 CUSTOMERS, BE **TRANSPORATION** WHAT WOULD THE 15 APPROXIMATE COST OF THOSE METERS?
- A. Currently the cost of the Instrument Point device, which has to be installed to call in the meter reads at a set time of the month (to coincide with pipeline nominations), costs approximately \$2,300 before including the labor and overhead costs to install. The labor and overhead costs are estimated at \$436 making the total cost of equipment and installation approximately \$2,736. The detail of these costs can be found on Schedule MRN-D3.

22 Q. IS THAT THE FINAL COST TO THE CUSTOMER?

A. No, it is not. When the customer pays for the meter and installation costs the Company treats the payment as a contribution in aid of construction, so it is

1	taxable income to the company. As a result, there is additional language on MGE
2	tariff Sheet No. 71 which requires that the charge be "grossed-up" to cover the
3	income tax. At the current effective tax rate, the income tax amount would be
4	approximately \$1,000, making the total cost of electronic gas metering (EGM)
5	equipment \$3,736. However, if MGE paid for the meters and the installation, the
6	total cost, which would exclude the income tax component, would approximate
7	\$2.3 million.

8 Q. WOULD THAT PROVIDE ENOUGH BENEFIT TO SALES CUSTOMERS

TO JUSTIFY INCLUDING THOSE COSTS IN RATES CHARGED TO

10 THE SALES CUSTOMERS.

9

- 11 A. In my opinion, no. In an analysis prepared for Staff last June, the principal cost
 12 not being recovered as a result of any imbalance at the end of a month was the
 13 cost to use storage to either inject excess volumes or withdraw short volumes.
 14 When those volumes were priced at the rates MGE pays for storage, the additional
- 15 cost not being recovered was approximately \$0.002 per Ccf.

16 Q. HAS MGE ADJUSTED THE RATES TO ADDRESS THIS?

- 17 A. Yes. As part of the stipulation and agreement, MGE attached a specimen tariff
- sheet which increases the Balancing Fee from \$0.001 per Ccf to \$0.003 per Ccf.
- MGE is filing a tariff with that adjustment as part of this case.
- 20 Q. IS MGE LIMITED BY STATUTE AS TO WHAT CAN BE DONE TO
- 21 COMPENSATE FOR THE INABILITY TO CASH THESE CUSTOMERS
- 22 **OUT?**
- 23 A. Yes. Section 393.310 of the Revised Missouri Statutes (the "STP Statute")
- prohibits charging the schools for telemetry equipment or any special metering,

unless the individual school uses over 100,000 therms annually. At the same time, the STP Statute also states that the tariff shall not have any negative financial impact on the other customers of the gas company. Those two statutory provisions preclude MGE from passing on the cost of the EGM equipment to the schools or the other customers. By including the additional \$0.002 per Ccf in the balancing fee, MGE believes that both the schools and other customers are being fairly treated.

8 Q. DO YOU BELIEVE ANYTHING ELSE NEEDS TO BE DONE AT THIS

TIME?

A.

Yes. Although there has been nothing in the history of how the schools have nominated their transportation volumes to suggest a pattern of imbalances that have adversely affected sales customers, in response to input from Staff, MGE is proposing a tariff change that will motivate the schools to minimize estimated imbalances. At the same time, MGE is proposing a tariff change to remove the infeasible language to try and cashout STP customer imbalances. MGE believes these tariff changes, along with the increase to the Balancing Fee discussed above, will improve the program at a cost that does not outweigh its benefits, while protecting customers from adverse effects of the STP.

19 Q. DOES THAT CONCLUDE YOUR DIRECT TESTIMONY?

A. Yes it does.
