## NETWORK SERVICES

## I. GENERAL DESCRIPTION

## A. SPRINT PRIVACY ID

(CT)

1. Sprint Privacy ID provides Caller ID subscribers with the ability to identify unavailable, unknown, blocked and private numbers. Sprint Privacy ID intercepts all unidentified calls before the subscriber's telephone rings then asks the caller to state their name or company. Once the calling party has responded, the service rings the subscriber and announces the calling party's information. The subscriber has the option to accept the call, reject the call, play an announcement to the calling party or forward the call to voicemail. (CT)  
(CT)
2. The Sprint Privacy ID subscriber may provide calling parties with a Caller's Access Code. Use of this access code allows the calling party to bypass Sprint Privacy ID. (CT)  
(CT)
3. Sprint Privacy ID is provided subject to availability of facilities. (CT)
4. Sprint Privacy ID is not offered in conjunction with Integrated Services Digital Network (ISDN), Centrex Services, Payphone Service Provider and PBX Trunks. (CT)
5. When the Call Trace and Return Call features are activated on calls intercepted by Sprint Privacy ID, the telephone number captured is that of the Service Node, which performs Sprint Privacy ID, not the telephone number of the calling party. (CT)  
(CT)
6. Caller ID Service is required in order to subscribe to Sprint Privacy ID. (CT)
7. Service connection charges do not apply when Sprint Privacy ID is installed. (CT)
