

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

<b>In the matter of Missouri Gas Ener-</b>	)	
<b>gy of Kansas City, Missouri re-</b>	)	
<b>quested authority to file a tariff</b>	)	<b>Case No. GR-2004-209</b>
<b>reflecting a change in rates for</b>	)	
<b>its Missouri customers</b>	)	

**APPLICATION FOR ORDER ALLOWING  
INTERVENTION OF MIDWEST GAS USERS ASSOCIATION**

Comes now MIDWEST GAS USERS ASSOCIATION ("Midwest") and pursuant to 4 C.S.R. 240-2.075 applies to intervene herein and become a party hereto in respect to the above matter. In support thereof, Midwest respectfully states:

1. Midwest is an unincorporated non-profit association consisting of and representing its membership of business concerns and corporations that are substantial users of natural gas at their plants situated in such states as Kansas, Missouri and Oklahoma. Numerous members have plants and facilities which are located in and consume natural gas within the State of Missouri. A listing of Midwest members and participants is attached as Appendix A.<sup>1/</sup>

---

<sup>1/</sup>Pursuant to 4 CSR 240-2.075(3), the attached listing includes Midwest members and companies that have at various times and in various matters participated through Midwest in proceedings in Missouri, Kansas and at the Federal Energy Regulatory Commission. Direct participation in a particular case varies depending on the nature of the case, the location and service area of the utility involved, and the impacts on and circumstances of a particular member's operations. The promptness of the suspension order and the resulting early intervention (continued...)

2. Midwest's interest in proceedings affecting the rates, terms and conditions of large customer natural gas service has been repeatedly recognized by the Missouri Public Service Commission in permitting Midwest's intervention in proceedings affecting The Gas Service Company, its successors, KPL Gas Service Company, Western Resources and Missouri Gas Energy, Aquila, Inc. (Missouri Public Service Company), Ameren Union Electric and in numerous generic dockets involving the terms and conditions of natural gas transportation and purchased gas adjustment clauses for natural gas companies in the State of Missouri. Midwest's interest in proceedings affecting natural gas rates, and the terms and conditions of natural gas service also has been recognized by the Federal Power Commission and its successor the Federal Energy Regulatory Commission in granting Midwest's intervention in numerous Natural Gas Act Section 4 and 5 dockets concerning Williams Natural Gas Pipeline Company (now Southern Star Central), Panhandle Eastern Pipeline Company, Riverside Pipeline (now Enbridge Inc.), and other generic dockets concerning the terms and conditions of natural gas service, including FERC Orders 436, 500, 451, 528, 636 and 637.

---

<sup>1/</sup>(...continued)  
date has prevented a full response from the membership while information is still being circulated and impacts evaluated. Present participants who have authorized this intervention are Archer Daniels Midland Company, Leggett & Platt Inc., EnerSys Inc., and ThyssenKrupp Stahl Co. Other participants' involvement and authorization is pending and is expected to be drawn from the attached listing. Midwest will identify these to the Commission and to any other parties.

3. On or about November 4, 2003, Missouri Gas Energy, a Division of Southern Union Corporation (MGE) filed proposed tariffs reflecting an overall annual revenue increase of \$45 million for its Missouri service area. Additional changes appear to have been proposed in certain other terms and conditions of service that may affect the economics of natural gas transportation for Midwest members and participants.

4. As major customers of MGE, Midwest members and participants will be affected by the outcome of this docket to a material but as yet undetermined extent.

5. Because MGE transports gas for use by Midwest members under separate transportation rate schedules and because of the size and consumption patterns of Midwest's members, Midwest is in the special position of representing interests which will not and cannot be represented adequately by any other party and which interests are direct and immediate and differ from those of the general public. Therefore, it will aid the Commission and protect the public interest that Midwest be permitted to intervene in this proceeding so as to protect its interest which no other party is in a position properly to protect and adequately represent herein.

6. For purposes of 4 CSR 240-2.075(2), Midwest states that it is opposed to the discriminatory pricing of natural gas distribution services and thus expects to oppose the relief in the amount and in the manner and methodology sought herein by MGE. Further, Midwest states that the proposed tariffs have not

been shown to be just and reasonable and appear to be unjust and unreasonable. Midwest is unable to make a more specific formulation or statement of the positions it will take in the issues in this case pending further review of MGE's filing and expected discovery.

WHEREFORE, Midwest prays: (a) that Midwest be permitted to intervene herein and be made a party hereto with all rights to have notice of and participate in hearings to present evidence, cross-examine witnesses, file briefs and participate in argument, should any be had; and (b) for all other needful and proper relief.

Respectfully submitted,

FINNEGAN, CONRAD & PETERSON, L.C.
