

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Southwestern)
Bell Telephone, L.P., d/b/a AT&T Missouri For)
Review and Reversal Of North American Number) Case No. _____
Plan Administrator's Decision to Withhold)
Numbering Resources.)

**SOUTHWESTERN BELL TELEPHONE, L.P., D/B/A AT&T MISSOURI'S
APPLICATION AND MOTION FOR EXPEDITED TREATMENT**

COMES NOW Southwestern Bell Telephone, L.P., d/b/a AT&T Missouri ("AT&T Missouri")¹ and files this verified application and motion for expedited treatment, pursuant to 4 CSR 240-2.060, 4 CSR 240-2.080(16), and 47 CFR 52.15(g)(3)(iv), and respectfully requests that the Missouri Public Service Commission ("Commission") issue an Order that reviews and reverses the decision of the North American Numbering Plan Administrator, NeuStar, Inc. ("NANPA"), to withhold certain numbering resources from AT&T Missouri. These numbering resources consist of ten pristine thousands-number blocks of numbers, each having an NXX code concluding in the digit 3 or 5 (i.e., NX3 or NX5) to service the needs of BJC Healthcare Systems and the Washington University Medical School ("BJC/Washington University"), located at 1 Barnes Plaza, St. Louis, Missouri, Missouri, 63110. The numbering resources are required in order to accommodate BJC/Washington University's rapid expansion. In support of this application, AT&T Missouri states as follows:

¹ Southwestern Bell Telephone, L.P., d/b/a AT&T Missouri ("AT&T Missouri").

1. AT&T Missouri is a Texas limited partnership², duly authorized to conduct business in Missouri,³ with its principal Missouri office at One AT&T Center, Room 3520, St. Louis, Missouri, 63101. AT&T Missouri is authorized to do business in Missouri and its fictitious name is duly registered with the Missouri Secretary of State.⁴ AT&T Missouri is a “local exchange telecommunications company” and a “public utility,” and is duly authorized to provide “telecommunications service” within the State of Missouri as each of those phrases is defined in Section 386.020, RSMo. 2000.

2. All correspondence, pleadings, orders, decisions, and communications regarding this proceeding should be sent to:

Paul G. Lane
Leo J. Bub
Robert J. Gryzmala
Attorneys for Southwestern Bell Telephone, L.P.,
d/b/a AT&T Missouri
One AT&T Center, Room 3516
St. Louis, Missouri 63101

3. Due to its rapid expansion, BJC/Washington University has requested ten pristine thousands-number blocks of Direct Inward Dial (“DID”) numbers and has specifically requested that each have an NXX code concluding in the digit 3 or 5 (i.e., NX3 or NX5) in the 314 NPA. AT&T Missouri has researched the available blocks which serve the BJC/Washington University location. AT&T Missouri has no available thousands-blocks available for use that meet the customer’s needs. In order to best meet BJC/Washington University’s needs, AT&T Missouri

² AT&T Missouri filed a copy of its Limited Partnership Agreement with the Commission on October 12, 2001. See In the Matter of the Application of Southwestern Bell Telephone Company To Transfer Property and Ownership of Stock Pursuant to Section 392.200, RSMo., Case No. TO-2002-185, October 12, 2001.

³ AT&T Missouri filed a certificate from the Missouri Secretary of State Certifying that Southwestern Bell Telephone, L.P. is a foreign limited partnership that is duly authorized to transact business in the State of Missouri with the Commission on January 7, 2002. See In the Matter of the Application of Southwestern Bell Telephone Company to Transfer Property and Ownership of Stock Pursuant to Section 392.300, RSMo., Case No. TO-2002-185, January 7, 2002.

⁴ A copy of the registration of the fictitious name “AT&T Missouri” is attached hereto and marked as Exhibit A.

requests that the Commission grant it ten pristine thousands-number blocks in the 314 NPA, each having an NXX code concluding in the digit 3 or 5. In the event that the requested blocks are unavailable at the time of the Commission's Order, AT&T Missouri requests that the Commission grant it any other suitable blocks that meet BJC/Washington University's request. A copy of the October 24, 2006, letter from Linda L. McDaniel, BJC/Washington University's Technical Specialist, to AT&T Missouri, is attached hereto and marked as Exhibit B. As noted in the letter, BJC/Washington University "has been rapidly expanding its facilities," current numbering resources made available to BJC/Washington University "are not sufficient to keep pace with the expansion" and the specific NXX codes of 314-NX3 or 314-NX5 are needed due to compatibility with its telecommunications system.

4. On November 1, 2006, AT&T Missouri submitted a Thousands-Block Application Form, Part 1A, for the assignment of the ten thousands-number blocks necessary to meet BJC/Washington University's request. A copy of the Application is attached hereto and is marked as Exhibit C. AT&T Missouri completed the application in accordance with the Industry Numbering Committee's Thousands-Block Pooling Assignment Guidelines and filled out the necessary Months to Exhaust and Utilization Certification Worksheet which is attached hereto and marked as Exhibit D.

5. AT&T Missouri submitted the request for ten thousands-number blocks because AT&T Missouri does not have ten thousands-number blocks available to service BJC/Washington University's needs. AT&T Missouri is unable to use numbers from any other switch in the St. Louis rate center area or in the 314 NPA to satisfy BJC/Washington University's request.

6. On or about November 1, 2006, NANPA denied the request on the grounds that AT&T Missouri had not met the utilization criteria. That decision is attached hereto and marked as Exhibit E.

7. Under existing procedures, NANPA has asserted that it is required to accept or reject an application for resources based solely on FCC criteria. However, the FCC's March 31, 2000, Order in its Number Resource Optimization docket states that a carrier may challenge a resource denial before the appropriate state regulatory commission and a state commission may choose to reaffirm or overturn NANPA's decision to withhold numbering resources.⁵ Thus, the Commission has the authority to "affirm or overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein."⁶ Moreover, the FCC determined that states may overturn NANPA's decision to withhold numbering resources from the carrier where there is a verifiable need for the carrier to satisfy a specific customer request:

We also agree with WinStar that a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer request. We therefore clarify that states may also grant relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory.⁷

8. The FCC further explained in its March 31, 2000, Order that a "[c]arrier may demonstrate such a need by providing the state with documentation of the customer request and current proof of the utilization in the rate center" and that states "may grant requests for

⁵ Report and Order and Further Notice of Proposed Rule Making, In the Matter of Numbering Resource Optimization, CC Docket No. 99-200, March 31, 2000, Appendix A; see also, 47 CFR 52.15(g)(3)(iv).

⁶ Id.

⁷ Third Report and Order and Second Order on Reconsideration in CC Docket Number 96-98 and CC Docket Number No. 99-200, In the Matter of Numbering Resource Optimization, Implementation of the Local Competition Provisions of the Telecommunications Act of 1996, and Telephone Number Portability, CC Docket Number 99-200, et al., December 12, 2001, paragraph 64; see also, 47 CFR 52.15(g)(4).

customers seeking contiguous blocks of numbers.”⁸ Moreover, although the FCC declined to establish a specific timeframe for states to act on these requests, the FCC indicated “in most instances, 10 business days from receipt of request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.”⁹

9. AT&T Missouri seeks the Commission’s direction to overturn NANPA’s decision to withhold numbering resources. This Commission has overturned NANPA’s decision to withhold numbering resources in several cases.¹⁰

10. AT&T Missouri does not have any pending or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment, or decision has occurred within three (3) years of the date of this Application.

11. AT&T Missouri does not have any annual report or assessment fees that are overdue in Missouri.

12. AT&T Missouri seeks expedited treatment and requests that the Commission act on this request within ten (10) business days as envisioned by the FCC, or as soon thereafter as is

⁸ Id.

⁹ Id. at paragraph 66.

¹⁰ For instance, the Commission has overturned NANPA’s decision in the following cases: (1) Order Reversing Decision of the North American Numbering Plan Administrator and Closing Case, In the Matter of the Application of Southwestern Bell Telephone, L.P., d/b/a AT&T Missouri, for Review and Reversal of North American Numbering Plan Administrator’s Decision to Withhold Numbering Resources, Case No. TO-2006-0247, December 29, 2005; (2) Order Reversing Decision of the North American Numbering Plan Administrator and Closing Case, In the Matter of the Application of Southwestern Bell Telephone, L.P., d/b/a SBC Missouri, for Review and Reversal of North American Numbering Plan Administrator’s Decision to Withhold Numbering Resources, Case No. TO-2005-0406, May 26, 2005; (3) Order Granting Additional Numbering Resources, In the Matter of the Application of Southwestern Bell Telephone, L.P., d/b/a SBC Missouri, for Review and Reversal of the North American Numbering Plan Administrator’s Decision to Withhold Numbering Resources, Case No. TO-2005-0312, April 19, 2005; (4) Order Granting Additional Numbering Plan Resources, In the Matter of the Application of Southwestern Bell Telephone, L.P., d/b/a SBC Missouri, For Review and Reversal of North American Numbering Plan Administrator’s Decision to Withhold Numbering Resources, Case No. IO-2003-0318, April 1, 2003; and (5) Order Granting Additional Numbering Resources, In the Matter of the Application of GTE Midwest Incorporated, d/b/a Verizon Midwest for Review and Reversal of North American Number Plan Administrator’s Decision to Withhold Numbering Resources, Case No. TO-2002-481, June 2, 2002.

practicable. BJC/Washington University has informed AT&T Missouri that it needs the numbering resources described herein by December 1, 2006. In order to accommodate BJC/Washington University's request, the Commission must issue its order as soon as possible, so that AT&T Missouri will have enough time to file a new request with NANPA for the release of ten thousands-number blocks to AT&T Missouri to meet BJC/Washington University's needs, and so that AT&T Missouri, and any other telecommunications provider that provides service via a switch, can program its switch. AT&T Missouri filed this request for expedited treatment as soon as it could have. Specifically, AT&T Missouri filed this pleading after NANPA rejected AT&T Missouri's request for numbering resources and AT&T Missouri determined that it was not feasible to implement a technological alternative.

WHEREFORE, AT&T Missouri respectfully requests that the Commission overturn NANPA's previous determination in this matter within ten business days as envisioned by the FCC, and instruct NANPA to release the numbering resources necessary to meet the needs of BJC Healthcare Systems and the Washington University Medical School.

Respectfully submitted,

SOUTHWESTERN BELL TELEPHONE, L.P.

RE: New NNX

To Whom It May Concern:

BJC HealthCare and the Washington University Medical School has been rapidly expanding its facilities located at 1 Barnes Plaza. DID numbers are becoming limited and are not sufficient to keep pace with the expansion. We would like to purchase 10,000 new numbers. Our goal is to maintain our current 5 digit dialplan across our BJC facilities so that the only new nxx's that would work in our current dialplan must end in a 3 or 5, preferably a 3 (i.e. xx3-xxxx). This new exchange would be needed by December 1, 2006.

Exchanges that would work within our dialplan are noted below:

243	285
273	295
343	305
403	405
463	455
503	475
673	
793	665
893	685
	695
	735
	755
	825
	875
	925
	975

AT&T is our chosen service provider and it is our understanding that they will expedite our request. It is extremely important that we receive an answer as soon as possible.

Sincerely,

Linda L. McDaniel
Technical Specialist
BJC HealthCare

Thousands-Block Application Form

Part 1A

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under “Block Applicant” the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator’s name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider^{viii}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

TBPAG Attachment 1 – November 21, 2003
ATIS-0300066.at1**Thousands-Block Application Form
Part 1A**

Foot Notes:

ⁱ Identify type of and reason for change(s) in Section 1.6.

ⁱⁱ The Pool Administrator is available to assist in completing these forms.

ⁱⁱⁱ A CO Code application will also need to be submitted to the PA

^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).

^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI™ code of the switch /POI.

^{vi} Rate Center name must be a tariffed Rate Center.

^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.

^{viii} Telcordia, LERG Routing Guide, and CLLI are trademarks of Telcordia Technologies, Inc.
