Public Service Commission  
PO Box 360  
Jefferson City, MO 65102-0360  
RE: Rate Case EX-2010-0169

Dear Commissioners:

The Energy Savings Store is one of Missouri's oldest and established solar installation companies. We fully endorse the recommendations of the Missouri Solar Energy Industry Association (MOSEIA) regarding the establishment of a fair market value and sourcing of Missouri generated SRECs.

Adopting these recommendations will enable the solar industry to prosper in Missouri. It will create high quality jobs for Missourians and attract new solar related industries to the state. In addition, it will benefit our environment by encouraging consumers and business to invest in clean energy.

Once again, thank you for the effort you have put forth in developing rules that will have a positive impact on the entire state and region.

Sincerely,

Bob Solger

Owner

The Energy Savings Store
