6 **CASE NOS. EO-2022-0040/EO-2022-0193**

7 Q. Please state your name and business address.

8 A. My name is Kimberly K. Bolin. My business address is P.O. Box 360, Suite 440,
9 Jefferson City, MO 65102.

10 Q. By whom are you employed and in what capacity?

11 A. I am the Director of the Financial and Business Analysis Division for the
12 Missouri Public Service Commission (“Commission”).

13 Q. Please describe your educational background and work experience.

14 A. I graduated from Central Missouri State University (now University of
15 Central Missouri) in Warrensburg, Missouri, with a Bachelor of Science in Business
16 Administration, major emphasis in Accounting, in May 1993. Before coming to work at the
17 Commission, I was employed by the Missouri Office of the Public Counsel (“OPC”) as a
18 Public Utility Accountant from September 1994 to April 2005. I commenced employment with
19 the Commission in April 2005.

20 Q. What was the nature of your job duties when you were employed by OPC?

21 A. I was responsible for performing audits and examinations of the books and
22 records of public utilities operating within the state of Missouri.

23 Q. Have you previously filed testimony before the Commission?

1 A. Yes, numerous times. Please refer to Schedule KKB-r1, attached to this
2 Rebuttal Testimony, for a list of the major audits in which I have assisted and filed testimony
3 with OPC and with the Commission.

4 Q. What knowledge, skills, experience, training and education do you have in the
5 areas of which you are testifying as an expert witness?

6 A. I have received continuous training at in-house and outside seminars on
7 technical ratemaking matters, both when employed by OPC and since I began my employment
8 at the Commission. I have been employed by this Commission or by OPC as a Regulatory
9 Auditor for over 25 years, and have submitted testimony on ratemaking matters numerous times
10 before the Commission. I have also been responsible for the supervision of other Commission
11 employees in rate cases and other regulatory proceedings.

12 **EXECUTIVE SUMMARY**

13 Q. What is the purpose of your testimony?

14 A. The purpose of my testimony is to respond to certain calculations made by
15 The Empire District Electric Company, d/b/a Liberty's ("Liberty") witness Charlotte T. Emery
16 in her direct testimony concerning the securitization request for Energy Transition Costs related
17 to the retirement of the Asbury plant. My testimony will also explain Staff's position related to
18 the 95%/5% sharing mechanism applicable to Winter Storm Uri costs. Finally, I address the
19 direct testimony of Liberty witness Katrina T. Niehaus concerning the return of investment
20 earnings on the capital subaccount.

1 **WINTER STORM URI AAO**

2 Q. Under normal circumstances would Liberty include 95% of its fuel and
3 purchased power costs in Liberty's Fuel Adjustment Clause (FAC)?

4 A. Yes. However, due to the extraordinary amount of the fuel and purchased power
5 it incurred in February 2021 due to Winter Storm Uri, Liberty sought to defer 95% of the fuel
6 and purchased power costs associated with this event and did not propose to include this amount
7 in the FAC.

8 Q. Did Liberty request an Accounting Authority Order (AAO) to track and defer,
9 to a regulatory asset, the costs associated with Winter Storm Uri?

10 A. Yes. Instead of including 95% of the total fuel and purchased power costs for
11 February 2021 in Liberty's Fuel Adjustment Clause (FAC) as would be the normal practice,
12 Liberty filed a request for an AAO in Case No. EU-2021-0274 seeking recovery of the amount
13 excluded from the FAC and the additional following costs:

- 14 1) The remaining 5% of fuel and purchased power costs from February 2021;
15 2) carrying costs applied to the total amount of Winter Storm Uri costs at
16 Liberty's weighted average cost of capital; and
17 3) other costs specially related to Winter Storm URI, including outside legal
18 fees.

19 Q. Did the Commission grant Liberty its requested AAO for the Winter Storm Uri
20 costs?

21 A. No, Case No. EU-2021-0274 is still pending. Liberty ultimately will not need to
22 defer the portion of any costs covered by a financing order in this securitization case to an AAO.

Rebuttal Testimony of
Kimberly K. Bolin

1 Q. What is an accounting authority order (AAO)?

2 A. An AAO is an accounting mechanism that permits deferral of costs from one
3 period to another. The items deferred are booked as an asset rather than an expense, thus
4 improving the financial picture of the utility in question during the deferral period. During a
5 subsequent rate case, the Commission determines what portion, if any, of the deferred amounts
6 will be recovered in rates

7 Q. If Liberty is not allowed to securitize Winter Storm Uri costs and is granted an
8 AAO instead how would Liberty recover the costs?

9 A. In Liberty's next general rate proceeding, Liberty would likely ask to recover
10 the amounts deferred in customer rates. At that time, the amortization period and final costs
11 (including carrying costs) would be determined if the recovery request is granted.

12 Q. What would be an appropriate amortization period for this deferral in the context
13 of AAO treatment?

14 A. Staff would probably recommend at least ten years, due to the magnitude of
15 the costs.

16 Q. Would Staff recommend carrying cost be allowed?

17 A. With amortization period being at least 10 years, Staff would possibly
18 recommend carrying costs be applied to the deferral at the applicable short-term debt rate or the
19 long-term debt rate.

20 Q. Would Staff recommend recovery of the 5% of the fuel and purchased power in
21 rates subsequent to an AAO?

22 A. No. If Liberty were granted an AAO instead of securitization for the entirety of
23 the Winter Storm Uri costs, in a future rate proceeding Staff would likely recommend that only

1 95% of the fuel and purchased power costs be allowed recovery in rates. Staff believes that by
2 not allowing the 5% of the fuel and purchased power costs that this reflects an appropriate
3 “sharing” the financial impact of Winter Storm Uri.

4 Q. Why should extraordinary costs associated with “acts of God,” such as Winter
5 Storm Uri, be “shared” between ratepayers and shareholders?

6 A. The risk of extraordinary unforeseen events should not be borne by the
7 customers entirely. To do this would insulate the utility from all risk of an unanticipated event
8 such as a natural disaster.

9 Q. Has the Commission reflected the “sharing” of the financial impact of natural
10 disaster extraordinary events in the past?

11 A. Yes. In Case No. WR-95-145 involving St. Louis County Water Company’s
12 (SLCWC) unamortized flood deferrals (SLCWC is now part of Missouri-American Water
13 Company), the Commission noted that including the unamortized balance in rate base would
14 shield the shareholders from the risk of a natural disaster while imposing the risk entirely on
15 the ratepayers. The Commission opined in that case that allowing SLCWC to recover the cost
16 through amortization without including the unamortized balance in rate base allowed both the
17 ratepayers and the shareholders to share in the risk. This regulatory treatment has been
18 commonly accepted by the Commission for other AAOs associated with natural disasters.
19 In this case, which is not an AAO application, excluding the 5% of fuel and purchased power
20 costs from the securitization request while also allowing carrying costs to be accrued on
21 the amounts will effectively “share” the impact of Winter Storm Uri between Liberty and
22 its customers.

1 Q. Are other Staff witnesses also addressing rate treatment for the 5% of fuel and
2 purchased power costs in this case?

3 A. Yes. Please also refer to Brooke Mastrogiannis' rebuttal testimony in this case
4 detailing how the 5% of Winter Storm Uri fuel and purchased power costs would not be
5 included in customer rates through the FAC if Liberty had sought normal regulatory treatment
6 of the storm costs under that rate mechanism.

7 Q. How does Staff recommend that Liberty account for differences between the
8 qualified extraordinary costs approved for securitization in this case, if any, with the actual
9 qualified extraordinary costs incurred by Liberty once all current and future Winter Storm Uri
10 extraordinary costs and revenues are known and measurable?

11 A. Staff recommends these differences be accounted for consistent with the
12 Securitization Statute. Sections 2. (1)(g) and 2. (3)(c)k of the Statute require a future
13 ratemaking process to reconcile any differences between the costs securitized by the utility tariff
14 bonds and the final securitized costs incurred by the electrical corporation be reconciled. Staff
15 recommends that Empire be ordered to track any expenses or revenues (possible settlements)
16 and include these amounts in a regulatory asset or liability for future recovery or return to the
17 ratepayers.

18 Q. Would such a subsequent ratemaking mechanism affect the amount of
19 securitized utility bonds or associated securitized utility charges paid by customers?

20 A. No.

21 **DECOMMISSIONING COSTS**

22 Q. Has Liberty included any decommissioning costs in its Asbury transition costs
23 which it seeks to securitize?

Rebuttal Testimony of
Kimberly K. Bolin

1 A. Yes. Liberty included \$12,400,000 (Total Company)¹ of the decommissioning
2 costs for phase 2 and phase 3 of Liberty's decommissioning plan for Asbury.

3 Q. Are these costs projected or actual at this time?

4 A. They are projected. Liberty's proposed decommissioning costs are based upon
5 estimates provided by Black and Veatch².

6 Q. What are the costs estimates for phase 2 of the demolition plan?

7 A. The estimate cost for phase 2 is \$4,000,000 (Total Company).³ Phase 2 includes
8 the development of work plan, schedules, engineering plans and specifications, etc.⁴ Liberty
9 anticipates that Phase 2 of the demolition plan will be complete by the 2nd quarter of 2022.⁵

10 A. What are the cost estimates for phase 3 of the demolition plan?

11 A. The estimated cost for phase 3 is ** [REDACTED] ** (Total Company) net of
12 salvage value and owner's costs.⁶ Phase 3 includes the finalization of bid documents, revision
13 of cost estimates, bid administration, construction management, demolition of the facilities,
14 etc.⁷ Liberty anticipates that phase 3 of the demolition plan will be completed in 2024.⁸

15 Q. What estimated cost did Liberty include in its Asbury securitized balance for
16 phase 2 and phase 3?

¹ \$10,977,268 (Missouri jurisdictional).

² Attached to Empire witness Drew W. Landoll's Direct testimony in this case is a copy of the Asbury Station Demolition/Decommission Costs (Direct Schedule DWL-2).

³ \$3,541,054 (Missouri jurisdictional).

⁴ Direct testimony of Drew W. Landoll in Case No. EO-2022-0193, pg. 10, lines 4-6.

⁵ Direct testimony of Drew W. Landoll in Case No. EO-2022-0193, pg 10, lines 6-8.

⁶ Page 8 of Direct Schedule DWL-2 attached to the Direct Testimony of Drew W. Landoll in Case No EO-2022-0193.

⁷ Direct testimony of Drew W. Landoll in Case No. EO-2022-0193, pg. 10, lines 10-12.

⁸ Direct testimony of Drew W. Landoll in Case No. EO-2022-0193, pg. 10, lines 12-14.

1 A. Liberty included \$4,000,000 (Total Company) for phase 2 and \$8,400,000
2 (Total Company) for phase 3. Liberty's total for demolition costs does not reflect any salvage
3 value that Liberty will receive for the demolished assets.

4 Q. What does Staff recommend including for the demolition costs in the securitized
5 balance?

6 A. Staff is proposing to include \$4,000,000 (Total Company) for phase 2 costs and
7 \$** [REDACTED] ** for phase 3 costs. Staff believes that phase 3 costs should reflect the salvage
8 value that Liberty expects to receive to offset the demolition costs.

9 Q. Why is Staff recommending rate recovery of decommissioning costs on an
10 estimated basis in this proceeding?

11 A. Section 1. (7)(a) of the Securitization Statute includes the costs of
12 decommissioning and restoring the site of the electric generating facility as an item to include
13 in the energy transition costs. Staff has reviewed the study conducted by Black and Veatch
14 and is comfortable with the level of detailed support provided in the estimates of the
15 decommission costs.

16 Q. How does Staff recommend that Liberty account for differences between the
17 energy transition costs approved for securitization in this case, if any, with the actual energy
18 transition costs incurred by Liberty once all decommissioning costs are known and measurable?

19 A. Staff recommends these differences be accounted for consistent with the
20 Securitization Statute. Sections 2.(1)(g) and 2.(3)(c)k of the Statute require a future ratemaking
21 process to reconcile any differences between the costs securitized by the utility tariff bonds and
22 the final securitized costs incurred by the electrical corporation be reconciled. Staff

1 recommends that Empire be ordered to track any expenses and include these amounts in a
2 regulatory asset for future recovery or return to the ratepayers.

3 Q. Would such a subsequent ratemaking mechanism affect the amount of
4 securitized utility bonds or associated securitized utility charges paid by customers?

5 A. No.

6 **ASSET RETIREMENT OBLIGATIONS**

7 Q. What is an Asset Retirement Obligation (ARO)?

8 A. An ARO is an obligation, legal or non-legal, associated with the retirement of a
9 tangible, long-lived asset for the cost of returning a piece of property to its original condition.
10 Retirement obligations can be recognized either when the asset is placed in service or during
11 the operational life when its removal obligation is incurred.

12 Q. Did Liberty include AROs for asbestos and Coal Combustion Residuals (CCR)
13 impoundment in its proposed securitization balance for the retirement of Asbury?

14 A. Yes. Liberty included AROs in the amount of \$21,281,070 (Missouri
15 jurisdictional) for these items.

16 Q. Has Staff included the AROs in its Asbury securitized balance?

17 A. No. AROs represent one component of costs that are considered in determining
18 the cost of removal component of utility depreciation rates. Cost of removal is allowed to be
19 collected in rates on an ongoing basis in order for the utilities to recover over time the estimated
20 costs of “removing” assets once they are retired and no longer needed to provide service to
21 customers. In addition, the amounts provided by Liberty for AROs are estimated and Liberty
22 has not provided any documentation that supports the estimation.

1 Q. Does that mean that Liberty will not recover AROs?

2 A. No. Liberty will have the opportunity to recover the AROs actually incurred in
3 a future ratemaking process. Section 2.(1)(c) and 2.(3)(c)k of the statute allow an electrical
4 corporation to pursue costs not included in the securitized balance in a separate proceeding such
5 as a rate case.

6 **ADIT AND EXCESS ADIT**

7 Q. What treatment of Accumulated Deferred Income Taxes (ADIT) associated with
8 a retired coal plant is required under the Securitization Law?

9 A. Section 2. (3) (m) of the Securitization Statute states that a financing order must
10 provide a customer credit, based on the “net present value of the tax benefits, calculated using
11 a discount rate equal to the expected interest rate of the securitized utility tariff bonds, for the
12 estimated accumulated and excess deferred income taxes at the time of securitization including
13 timing differences created by the issuance of securitized utility tariff bonds amortized over the
14 period of the bonds multiplied by the expected interest rate on such securitized utility tariff
15 bonds.”

16 Q. What is value of the ADIT associated with the retired Asbury plant?

17 A. Liberty’s valuation of the ADIT has a value of \$36,480,831. This is based upon
18 Liberty’s recommended level of Asbury retirement costs to securitize of \$157,203,887. Staff’s
19 valuation of the ADIT is based upon its recommended level of Asbury retirement costs to
20 securitize of \$94,462,866. The differences between Liberty and Staff’s retirement costs result
21 from differing levels of demolition costs, the AROs and the AAO liability recommended by
22 each party.

1 Q. What level of ADIT calculated on a net present value (NPV) basis has Liberty
2 included as an offset in the Asbury Energy Transition Cost Balance?

3 A. Liberty included \$4,747,535 as an offset to the Asbury Energy Transition Cost
4 Balance. Liberty calculated the NPV by taking their ADIT balance of \$36,480,831 and dividing
5 this amount by 13 years (Liberty's proposed recovery period) and subtracting this amount from
6 the balance every year. Liberty then multiplied the yearly ending balances of the ADIT by
7 the estimated securitization yield rate of 2.47%. Liberty then calculated the NPV value of
8 these amounts.

9 Q. Did Liberty calculate this amount correctly?

10 A. No. Liberty's calculation effectively and inappropriately discounts the ADIT
11 twice. Liberty's valuation of the NPV of the ADIT amount of \$36,480,831 should have resulted
12 in a calculated NPV offset of \$30,831,327. As described above Liberty discounted the yearly
13 amounts related to the remaining balance of ADIT, and then discounted the sum of the yearly
14 amounts again.

15 Q. What is Staff's calculated offset for ADIT?

16 A. Staff's calculated offset for ADIT is \$22,306,686. Staff's ADIT was calculated
17 based upon Staff's Asbury retirement costs. Staff's ADIT is lower because Staff did not
18 include AROs in it retirement costs , had lower amounts of decommissioning costs and Staff's
19 calculation of the AAO liability for Asbury was higher than Liberty's calculation.

20 Q. Based upon Staff's recommended ADIT level of \$22,306,686 what would be the
21 NPV of ADIT offset?

1 A. Staff recommends that the NPV of ADIT offset should be \$17,134,363.

2 Q. What amount of Excess ADIT did Liberty include in its proposed Asbury Energy
3 Transition Costs as an offset?

4 A. Liberty included \$12,177,195 (Missouri Jurisdictional).

5 Q. What amount of Excess ADIT does Staff propose be used as offset?

6 A. Staff recommends using \$12,313,459. After discussions with Liberty and upon
7 further review of the calculation, Liberty has noted that it inadvertently made an error within
8 its true-up calculation for Excess ADIT.⁹

9 **INTEREST EARNED CAPITAL SUBACCOUNT**

10 Q. How does Liberty propose to treat earned income on any reserve or capital
11 account?

12 A. Liberty Witness Niehaus proposes, “all amounts in the Capital Subaccount
13 should be returned to the shareholders of Liberty.”¹⁰ Also in Liberty’s proposed draft financing
14 order Liberty states, “Upon payment of the principal amount of all securitized utility tariff
15 bonds and the discharge of all obligations that may be paid by use of securitized utility tariff
16 charges, all amounts in the capital subaccount, including any investment earnings, will be
17 released to BondCo for payment to Liberty. Investment earnings in this subaccount may be
18 released earlier in accordance with the indenture.’

19 Q. Does Staff support this proposal?

⁹ Response to OPC Data Request 1301 in Case No. EO-2022-0193.

¹⁰ Direct testimony of Katrina A. Niehaus in Case No. EO-2022-0040, pg. 15, lines 21-23; Direct testimony of Katrina A. Niehaus in Case No. EO-2022-0040; pg. 15, lines 18-20.

Rebuttal Testimony of
Kimberly K. Bolin

1 A. No. Section 393.1700.2(3)(c) of the Securitization Statute Allowing Liberty to
2 also recover all earned interest earned on amounts it contributed would allow Liberty to earn a
3 return in excess of that authorized by the statute. The Commission should order Liberty to
4 include in a general rate proceeding a credit to customers to account for any investment earnings
5 returned to the Liberty from this capital subaccount.

6 Q. Does this conclude your rebuttal testimony?

7 A. Yes.
