Case No. TA-2000-24

APPLICATION

Fiber Four Corporation d/b/a Holway Long Distance ("Applicant"), a Missouri corporation, files this verified application respectfully requesting that the Missouri Public Service Commission ("Commission") issue an order that:

- (a) grants Applicant a Certificate of Service Authority to provide interexchange and local exchange telecommunications services pursuant to Chapter 392 of the Missouri Revised Statutes;
- (b) grants competitive status to Applicant; and
- (c) waives certain Commission rules and statutory provisions pursuant to Section 392.420, RSMO Supp. 1998.

In support of its request, Applicant states:

1. Applicant is a Missouri corporation with its principal office and place of business at 107 Opp, Rock Port, Missouri 64482. Applicant was previously granted a certificate of authority to provide interexchange telecommunications service in Missouri as Fiber Four Corporation in Case No. TA-96-376. A copy of Applicant's Articles of Incorporation and Certificate of Authority from the Missouri Secretary of State to transact business in Missouri is marked as Appendix A and attached to an Application filed on this date requesting authority for the d/b/a Rock Port Long Distance and is incorporated herein by reference. Attached to this

Application as Appendix B are copies of a Certificate and Registration of Fictitious Name for Applicant. (The original of this Certificate of Corporate Records was attached to Applicant's Motion to Reinstate and Approve Tariff Filing for an Interim Period of Time filed with the Commission on July 2, 1999.) A list of Applicant's current officers and directors is attached as Appendix C and is incorporated by reference herein.

2. All communications, notices, orders and decisions respecting this Application and proceeding should be addressed to:

Evan Copsey
Fiber Four Corporation d/b/a Holway Long Distance

312 East Capitol Street
P.O. Box 456
Jefferson City, Missouri 65102

3. Applicant proposes to resell one plus (1+) interexchange telecommunications services and associated operator and directory assistance services to business and residential customers located throughout the State of Missouri. Initially, Applicant will only provide service to local exchange customers of Holway Telephone Company in the exchanges of Maitland and Skidmore. Applicant will utilize its own facilities, or purchase for resale, the services or facilities of other carriers in order to provide the services sought to be provided.

4. Applicant proposes to charge for its services based upon rates, rules and regulations as proposed in the tariff attached hereto and incorporated by reference as Appendix D.

5. Applicant requests classification as a competitive telecommunications company

within the State of Missouri. Applicant believes that its proposed services will be subject to sufficient competition to justify a lesser degree of regulation. Granting of this application will allow greater price and service options for telephone users.

6. Applicant also requests, pursuant to Section 392.420, RSMO 1994, that the Commission waive the application of the following rules and statutory provisions as they relate to the regulation of Applicant:

§392.240(1)	Rates-reasonable average return on investment.
§392.270	Property valuation.
§392.280	Depreciation rates.
§392.290	Issuance of stocks and bonds.
§392.310	Issuance of stocks and bonds.
§392.320	Issuance of stocks and bonds.
§392.330	Issuance of stocks and bonds.
§392.340	Reorganization.
4 CSR 240-10.020	Income on depreciation fund investments.
4 CSR 240-30.010(2)(C)	Posting exchange rates at central offices.
4 CSR 240-30.040	Uniform System of Accounts.
4 CSR 240-32.030(1)(B)	Exchange boundary maps.
4 CSR 240-32.030(1)(C)	Record of access lines.
4 CSR 240-32.030(2)	In-state record keeping.
4 CSR 240-32.050(3-6)	Telephone directories.
4 CSR 240-32.070(4)	Coin telephones.
4 CSR 240-33.030	Inform customers of lowest priced service.
4 CSR 240-33.040(5)	Finance fee.

It is Applicant's understanding that the above-referenced rules and statutory provisions have typically been waived for other interexchange carriers in prior cases.

7. The interexchange services provided by Applicant will be performed by the Applicant or by independent contractors, agents or employees of Holway Telephone Company. For example, billing & collection and billing inquiry services will be performed by the Applicant,

or they will be provided under contractual agreements between Applicant and independent contractors, including local exchange carriers. Applicant will compensate its independent contractors, or local exchange carriers fully for all services provided on Applicant's behalf.

8. Holway Telephone Company has extensive experience in providing reliable and affordable telecommunications services to the public in the State of Missouri. As a result, Applicant will have available to it the technical expertise to provide interexchange telecommunications services that meet or exceed all service standards established by the Commission. A brief description of the qualifications and experience of the officers and managers is attached as Appendix E.

9. Applicant is financially capable of providing the proposed service. For purposes of illustration, Comparative Balance Sheets of the Applicant are attached as Appendix F.

10. The Commission has found that the interexchange market which Applicant seeks to enter is sufficiently competitive so as to justify a lesser degree of regulation. In Re Classification of Service Provided by Interexchange Telecommunications Carrier within the State of Missouri, Case No. TO-88-142, Report and Order (effective October 16, 1989) at pp. 19-20. Expedient grant of the instant Application will increase the competition in the provision of interexchange services, consistent with the Commission's policies and increase the variety and number of interexchange telecommunications providers and services available to users. Accordingly, Applicant's proposed operations are in the public interest.

WHEREFORE, Applicant respectfully requests that the Commission grant it a certificate of service authority to provide intrastate interexchange and local exchange telecommunications services to the public in the State of Missouri. If granted local exchange authority, such authority

will be limited to the provisioning of dedicated, non-switched local exchange private line services. Applicant also requests classification as a competitive telecommunications company. In addition, Applicant requests a waiver of the above-referenced rules and statutory provisions.

Respectfully submitted,

3.11 Calculations of Distance for IntraLATA Calls

- 3.11.1. Unless otherwise specifically stated in this tariff, all calls, regardless of time period, lasting one (1) minute or a fraction thereof, are subject to a minimum billing increment of one (1) minute. - 3.11.3. In determining usage charges, Peak/Off-Peak/Holiday rate periods, as defined in Section 5.1 of this tariff, apply, unless otherwise indicated, and are based on the time where the call originates. In cases where a call begins in one rate period and continues into another rate period, the rate in effect in each period will apply to the portion of the call occurring within the applicable rate period.
- 3.11.4. All per-call charges of fractional cents shall be rounded to the next full cent unless otherwise stated.
- 3.11.5. Usage charges for all mileage sensitive rates are based on the airline distance between rate centers associated with the originating and terminating points of the call for use with Option 3 and Option 4, Section 5.2.
- 3.11.6. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications research in the NPA-NXX V & H Coordinates Tape from NECA's (National Exchange Carrier Associations) Tariff No. 4.
