ORDER

On March 2, 1989, the Staff filed a motion for an order authorizing the release of information. In the motion, the Staff stated that representatives of the National Transportation and Safety Board (NTSB), whose duties include the investigation of pipeline accidents in which there is a fatality or substantial property damage, have requested Staff to supply them with inspection summaries and subsequent correspondence concerning said summaries between Staff and KPL Gas Service for the past five years.

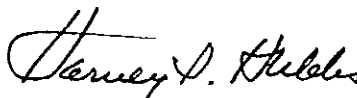

The Commission finds that an order should be issued authorizing the release of the above-referenced information and records to the NTSB representatives.

It is, therefore,

ORDERED: 1. That inspection summaries and subsequent correspondence concerning said summaries between Staff and KPL Gas Service for the past five (5) years be released to representatives of the National Transportation and Safety Board.

ORDERED: 2. That this order shall become effective on the date hereof.
