

Rising natural gas costs  
could end up costing  
the average AmerenUE  
customer from \$10 to  
\$30 more each month  
during a normal winter.  
Ameren is doing its best  
to control these costs.  
Customers pay what we  
pay for the natural gas  
supplies purchased  
from producers —

**not a penny more.**

To help you control your natural gas bills this winter:

- *Enroll in Budget Billing to make your payments more predictable.*
- *Weatherize your home.*
- *Turn down your thermostat.*
- *Call the number listed on your bill if you are having trouble—we can help.*
