On Tuesday, June 23, 2003, we received the attached letter from Edward & Patricia Redel regarding AmerenUE. The Commission is currently considering the issues discussed in this document in Case No. **EO-2002-351**. **EO-2002-351** is a contested case. The Commission is bound by the same *ex parte* rule as a court of law.

Although communications from members of the public and members of the legislature are always welcome, those communications must be made known to all parties to a contested case so that those parties have the opportunity to respond. According to the Commission's rules (4 CSR 240-4), when a communication (either oral or written) occurs outside the hearing process, any member of the Commission or Regulatory Law Judge who received the communication shall prepare a written report concerning the communication and submit it each member of the Commission and the parties to the case. The report shall identify the person(s) who participated in the *ex parte* communication, the circumstances which resulted in the communication, the substance of the communication, and the relationship of the communication to a particular matter at issue before the Commission.

Therefore, we submit this report pursuant to the rules cited above. This will ensure that any party to this case will have notice of the attached information and a full and fair opportunity to respond to the comments contained therein.

Dear Kelvin Simmons,

I am writing in regard to Case #2002-351. Please do NOT grant a permit to AmeranUE to build the 345,000 huge high voltage transmission line running through Osage, Maric, and Pulaski counties.

The proposed line will come very close and/or cross my home, farm buildings, livestock, and waters (ponds and water ways)

We are members of CCFF+H. We are concerned citizens of family farms and homes.

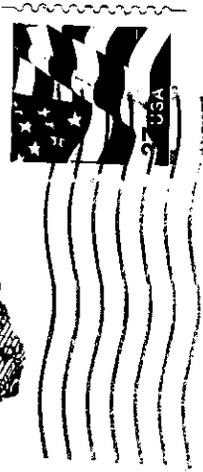

I testified at the public hearing in Linn last year. I hope you will not grant AmeranUE the control they want.

Sincerely,

Edward Redel
