**BARBARA A. MEISENHEIMER**

Submitted on Behalf of the Office of the Public Counsel

**In the matter of the Petition of the North American Numbering Plan  
Administrator, on behalf of the Missouri Telecommunications Industry,  
for approval of NPA Relief Plan for the 314 and 816 Area Codes**

**Case No.: TO-2000-374**

June 23, 2000

**BEFORE THE PUBLIC SERVICE COMMISSION  
OF THE STATE OF MISSOURI**

In the matter of the petition of the North )  
American Numbering Plan Administrator, on )  
behalf of the Missouri Telecommunications )  
Industry, for approval of NPA Relief Plan for )  
the 314 and 816 Area Codes. )

Case No. TO-2000-374

**AFFIDAVIT OF BARBARA A. MEISENHEIMER**

STATE OF MISSOURI )  
 ) ss  
COUNTY OF COLE )

Barbara A. Meisenheimer, of lawful age and being first duly sworn, deposes and states:

1. My name is Barbara A. Meisenheimer. I am Chief Utility Economist for the Office of the Public Counsel.
2. Attached hereto and made a part hereof for all purposes is my rebuttal testimony consisting of pages 1 through 14 and Schedules BAM-R1 through BAM-R9.
3. I hereby swear and affirm that my statements contained in the attached testimony are true and correct to the best of my knowledge and belief.

  
Barbara A. Meisenheimer

Subscribed and sworn to me this 23rd day of June, 2000.

  
Bonnie S. Howard, Notary Public

My Commission expires May 3, 2001.

**REBUTTAL TESTIMONY**

**OF**

**BARBARA A. MEISENHEIMER**

**Petition of the North American Numbering Plan Administrator  
Case No. TO-2000-374**

**I. INTRODUCTION**

**Q. PLEASE STATE YOUR NAME, TITLE, AND BUSINESS ADDRESS.**

A. Barbara A. Meisenheimer, Chief Utility Economist, Office of the Public Counsel, P. O. Box 7800, Jefferson City, Missouri 65102. I am also employed as an adjunct Economics Instructor for William Woods University.

**Q. HAVE YOU PREVIOUSLY FILED TESTIMONY IN THIS CASE?**

A. Yes, I filed direct testimony on May 10, 2000.

**Q. WHAT IS THE PURPOSE OF YOUR REBUTTAL TESTIMONY?**

A. The primary purpose of my testimony is to respond to portions of the direct testimony of Deborah F. Bell filed on behalf of Southwestern Bell Telephone Company (SWBT), the direct testimony of Hoke R. Knox filed on behalf of Sprint, the direct testimony of John C. Rollins filed on behalf of GTE Midwest Inc., the direct testimony of Daniel Paul filed on

1           behalf of Ameritech Cellular, and the direct testimony of Missouri Public Service  
2           Commission Staff witnesses Sara Buyak and Walt Cecil. In addition, I will update  
3           information on the status of code assignments based on information that has become  
4           available since I filed my direct testimony in this case.

5           **Q.     IN PREPARATION OF YOUR REBUTTAL TESTIMONY, WHAT MATERIALS DID YOU REVIEW?**

6           A.     I reviewed the direct testimony of the other parties, updated code utilization information  
7           obtained from Neustar's web-page, and data request responses provided by Neustar.

8           **II.    UPDATED AVAILABILITY AND ASSIGNMENT OF CENTRAL OFFICE**  
9           **CODES**

10          **Q.     HAS NEUSTAR UPDATED THE STATUS OF AVAILABLE AND UNAVAILABLE CODES SINCE YOU**  
11          **FILED YOUR DIRECT TESTIMONY?**

12          A.     Yes. My rebuttal testimony contains information from three updated versions of Neustar's  
13          Available and Unavailable code files.

14          **Q.     PLEASE DESCRIBE THE UPDATES.**

15          A.     Schedules BAM-R1, BAM-R2 and BAM-R3 are updates to the information provided in  
16          Schedule BAM-1 of my direct testimony. The updated schedules identify the available  
17          codes in the 314, 636 and 816 area codes according to Neustar as of April 26, 2000, May 9,  
18          2000, June 5, 2000 and June 20, 2000. Table 1. (updated) corresponds to Table 1. of my  
19          direct testimony and identifies the total available codes and unavailable codes in the 314,  
20          636 and 816 areas as of 6/20/00. The cumulative net impact on the number of available

codes is -5 for the 314 area code, -17 for the 636 area code and +4 for the 816 area code. Schedule BAM-R4 provides detailed information regarding the specific changes in code assignments.

Table 1. (updated 6/20/00)

| As of 6/20/00    | <u>314</u> | <u>636</u> | <u>816</u> |
|------------------|------------|------------|------------|
| Unavailable      | 620        | 283        | 602        |
| Available        | 180        | 517        | 198        |
| Unusable 000-199 | 200        | 200        | 200        |

Schedules BAM-R5, BAM-R6 and BAM-R7 are updates to information in Schedules BAM-2, BAM-3 and BAM-4 of my direct testimony that illustrate the codes currently unavailable for assignment according to Neustar. In presenting this information I have included italicized text that reflects a portion of the information received from Neustar regarding the use of codes that were previously unidentified in Neustar's database. I have included Neustar's complete response to Public Counsel Data Request No. 18 as Schedule BAM-R8. Table 2. (updated 6/20/00) updates the summary information contained in Table 2. of my direct testimony and provides additional detail on the use of codes Neustar identifies as unavailable.

Table 2. (updated)

|                                      |            |                |            |
|--------------------------------------|------------|----------------|------------|
| As of 6/20/00                        | <u>314</u> | <u>636</u>     | <u>816</u> |
| Codes Assigned To A Specific Carrier | 578        | 251            | 539        |
| + Codes Assigned, Not Yet Activated  | 8          | 16             | 13         |
| +Test                                | 15         | 2 <sup>1</sup> | 23         |
| +Odd Balls                           | 16         | 13             | 13         |
| + Special Use                        | 1          | 0              | 3          |
| +Reserved, Hold                      | 1          | 0              | 3          |
| +Under Investigation                 | 0          | 1              | 8          |
| +Unidentified Use                    | 1          | 0              | 0          |
| = Total Unavailable                  | 620        | 283            | 602        |

Finally, Schedule BAM-R9 updates Neustar's projected exhaust dates for the 314 and 816 area codes that were included in my direct testimony as Schedule BAM-6.

<sup>1</sup> These codes were identified as test codes in response to Public Counsel's DR #18 and as recently assigned in BAM-R6, treated as test codes.

**III. PUBLIC COUNSEL'S RESPONSE TO DIRECT TESTIMONY**

**a. Response to SWBT**

**Q. ON PAGE 5, LINE 16, THROUGH PAGE 6, LINE 9, OF HER DIRECT TESTIMONY, DEBORAH BELL, IDENTIFIES THE REASONS UNDERLYING SWBT'S SUPPORT FOR A RETROACTIVE OVERLAY OF THE 314/636 AREA. IN THE DISCUSSION SHE SUGGESTS THAT A RETROACTIVE OVERLAY WOULD IMPROVED UTILIZATION. SIMILAR SENTIMENTS ARE ECHOED BY GTE WITNESS JOHN ROLLINS<sup>2</sup> AND AMERITECH CELLULAR WITNESS DANIEL PAUL<sup>3</sup>. WHAT IS YOUR RESPONSE TO THEIR STATEMENTS THAT A RETROACTIVE OVERLAY WOULD IMPROVE UTILIZATION?**

**A.** While I recognize that a retroactive overlay would allow more flexible use of the numbering resources in the 636/314 area and, therefore, would postpone for a short time the need to obtain an additional area code, I do not believe that it justifies the inconvenience and frustration it would cause to customers in the 636 area.

Neustar initially estimated a life of 4.4 years for a retroactive overlay of the 636/314 area<sup>4</sup>. However, according to the Industry consensus implementation schedule (page 4 of Exhibit A), a retroactive overlay would accelerate utilization of the 636 codes to the point of potentially exhausting not only 314 but also 636 two years after implementation.<sup>5</sup> In exchange for this brief postponement of a request for a new area code, customers in 636 would be forced to sacrifice their present 7-digit local dialing capabilities previously

---

<sup>2</sup> Direct testimony on page 6.

<sup>3</sup> Direct testimony on page 3.

<sup>4</sup> Pages 3 and 7, *Initial Planning Document for Relief of the Missouri 314 NPA* included as Attachment No. 2 to Exhibit A of the direct testimony of Sandra L. Tokarek filed on behalf of Neustar

<sup>5</sup> Exhibit A, p. 4 of the direct testimony of Neustar witness Sandra L. Tokarek.

1 retained in exchange for changing their area code from 314 to 636. Also, since it is possible  
2 in the retroactive overlay for 314 codes to operate in the 636 area, some customers in 636  
3 would likely be upset that they forfeited their 314 area code needlessly or might request that  
4 they be reassigned numbers from the 314 area code. There is no compelling reason to  
5 inconvenience or upset consumers in 636. The Commission's previous decision to split 636  
6 away from 314 created an environment of stability for consumers in 636. The Commission  
7 should not be persuaded or feel compelled to dismantle it in order to temporarily postpone a  
8 request for another area code for the 314 area. While I certainly believe we should strive to  
9 reduce the frequency of receiving new area codes, I believe that the appropriate method for  
10 extending the life of Missouri's area codes is through improved number conservation efforts.

11 **Q. WHAT IS YOUR REPOSENSE TO MS. BELL'S STATEMENT THAT A RETROACTIVE OVERLAY**  
12 **WOULD CREATE A CONSISTENT LOCAL DIALING PATTERN WITHIN THE ST. LOUIS AREA?**

13 **A.** I do not view this aspect of a retroactive overlay as beneficial because it does not offer an  
14 alternative that consumers don't already have. In fact, it eliminates choices currently  
15 employed by consumers. Consumers who find a mixed dialing pattern confusing now can  
16 choose to dial 10 digits on every call. Those who prefer to retain 7 digit dialing have the  
17 opportunity to do so. Under a retroactive overlay, consumers in the 636 area would  
18 needlessly lose the option of dialing seven digits for local calls within their home area code.  
19 Under an overlay of only the 314 area, 636 customers would not forfeit 7-digit local dialing  
20 capabilities.

1 Q. WHAT IS YOUR RESPONSE TO MS. BELL'S ARGUMENTS THAT A RETROACTIVE OVERLAY  
2 WOULD REDUCED THE EXPENSE TO CUSTOMERS SINCE THEY DO NOT HAVE TO CHANGE  
3 THEIR 10 DIGIT TELEPHONE NUMBERS, LEARN A NEW SET OF GEOGRAPHIC BOUNDARIES  
4 AGAIN, OR SUFFER ANOTHER SPLIT THE 314?

5 A. These outcomes are not unique to adoption of the proposed retroactive overlay. These same  
6 outcomes would result from an overlay of only the 314 area code.

7 Q. ON PAGE 7 (LINES 11 THROUGH 21), MS. BELL STATES THAT THE COMMISSION MUST  
8 ADHERE TO THE NPA CODE RELIEF PLANNING AND NOTIFICATION GUIDELINES DO YOU  
9 AGREE?

10 A. No. I do not believe the Commission is bound by the industry guidelines. They are  
11 guidelines, not a binding regulation or law especially when an alternative that falls outside  
12 the guidelines better serves the public interest. In fact, by acting outside the recommended  
13 guidelines in the previous 314 area code relief effort, the Commission has effectively  
14 isolated the geographic area where number demand is precipitating the need for frequent  
15 area code relief allowing it to target a remedy to that area without unnecessary  
16 inconvenience and expense to consumers outside that area.

17 Q. DOES SWBT AGREE THAT FORMS OF RELIEF OTHER THAN A RETROACTIVE OVERLAY  
18 WOULD NOT JEOPARDIZE 911 SERVICES?

19 A. Yes. On page 8 (lines 8 through 11), Ms. Bell acknowledges that either a split or an overlay  
20 of 314 could be implemented without first completing 911 equipment upgrades.

1 **Q. DOES IT APPEAR THAT SWBT WOULD OPPOSE MOVING FORWARD WITH PLANS TO**  
2 **IMPLEMENT AN OVERLAY OF ONLY THE 314 AREA CODE?**

3 **A.** No, Ms. Bell indicates that SWBT supports an all service overlay of 314 as a second choice.

4 **Q. ON PAGES 13 AND 14 OF HER DIRECT TESTIMONY, MS. BELL SUGGESTS THAT THE**  
5 **COMMISSION SHOULD CONSIDER AND IMPLEMENT THOUSANDS BLOCK SEQUENTIAL**  
6 **NUMBERING. DO YOU AGREE?**

7 **A.** Yes. Although I believe that carriers would be required to assign numbers sequentially  
8 absent a specific state requirement, I would support Commission action mirroring the FCC  
9 requirement and establishing a procedure to review and enforce the requirement.<sup>6</sup>

10 **Q. ON PAGE 15 (LINES 7 THROUGH 21) OF HER DIRECT TESTIMONY, MS. BELL INDICATES**  
11 **THAT SWBT HAS INITIATED AN INVESTIGATION OF A REDUCTION IN THE NUMBER OF RATE**  
12 **CENTERS IN THE KANSAS CITY METROPOLITAN EXCHANGE FROM 13 TO 5 AND MIGHT**  
13 **CONSIDER ADDITIONAL CONSOLIDATION OF THE 314 RATE CENTERS. DOES PUBLIC**  
14 **COUNSEL GENERALLY SUPPORT SUCH EFFORTS?**

15 **A.** Yes. Public Counsel viewed the initial rate center consolidation in 314 as a first step. It is  
16 encouraged by SWBT's willingness to pursue further voluntary rate center consolidation.  
17 Public Counsel is committed to working with SWBT and other carriers in this area.

---

<sup>6</sup>. In paragraphs 244 through 246 of its Numbering Order, the FCC imposes mandatory sequential numbering requirements on all service providers independent of the any state action. In addition, the FCC establishes a procedure by which state commissions may review and enforce carrier compliance with the requirements

1 Q. ON PAGES 16 AND 17 OF HER DIRECT TESTIMONY, MS. BELL INDICATES THAT SWBT  
2 SUPPORTS CODE RECLAMATION CONSISTENT WITH THE FCC'S NUMBERING ORDER AND IS  
3 CURRENTLY INVESTIGATING WHETHER IT HOLDS ANY UNNEEDED CODES THAT COULD BE  
4 RETURNED TO NEUSTAR. DOES PUBLIC COUNSEL SUPPORT SWBT'S EFFORTS ON THIS  
5 ISSUE?

6 A. Yes. Public Counsel encourages all code holders to conduct similar investigations. Based on  
7 Public Counsel's review of the current status of code assignments, it appears that  
8 TCG/AT&T Local, Mid Missouri Cellular, Sprint Communications LLP, Aerial  
9 Communications, Intermedia Communications and Teligent Inc. have recently returned  
10 unneeded codes.

11 Q. DO YOU BELIEVE THAT A VOLUNTARY RETURN OF CODES BY SOME CARRIERS ELIMINATES  
12 THE NEED FOR A COMPREHENSIVE REVIEW OF CURRENT CODE ASSIGNMENTS?

13 A. No. Based on the information received from Neustar, it appears that there is substantial  
14 uncertainty regarding the current status of a number of central office codes. Reviewing code  
15 assignments is critical in reclaiming unneeded codes in order to postpone the need for area  
16 code relief. As an additional benefit of conducting a thorough investigation, the Commission  
17 can have confidence when it orders area code relief that the relief is actually necessary  
18 before consumers are subjected to unnecessary inconvenience and expense.

**b. Response to GTE**

**Q. ON PAGE 11 (LINES 6 THROUGH 14) GTE WITNESS ROLLINS RECOMMENDS THAT IF POOLING TRIALS ARE ADOPTED IN MISSOURI, THE COST OF THE TRIALS SHOULD BE RECOVERED THROUGH AN END-USER SURCHARGE LEVIED ON A STATEWIDE BASIS. DO YOU AGREE?**

**A.** No. Public Counsel believes that these costs should not be recovered through yet another mandatory surcharge on the consumers' bill. Instead, these costs should be treated as are other costs of doing business and recovered according to the statutory requirements governing pricing for the particular carrier. A mandatory surcharge on consumer's bills would unfairly place on consumers the full responsibility for the past inefficient number utilization system that has led us to the need for pooling as a number conservation method.

**Q. IF THE COMMISSION ORDERS POOLING TRIALS, WOULD PUBLIC COUNSEL SUPPORT A TIME FRAME CONSISTENT WITH JOHN ROLLINS' RECOMMENDATIONS?**

**A.** Yes, Public Counsel could support that time frame.

**Q. ON PAGE 15 (LINES 1 THROUGH 9) MR. ROLLINS POINTS OUT THAT IN ITS ORDER THE FCC DECLINED TO MANDATE UNASSIGNED NUMBER PORTING OR INDIVIDUAL TELEPHONE NUMBER POOLING. SHOULD THE MISSOURI COMMISSION ADOPT THESE TECHNIQUES?**

**A.** At present, the Commission should monitor new developments on these techniques but I would not recommend that it mandate or seriously pursue these options now.

**c. Response to Sprint**

**Q. DOES SPRINT SUPPORT AN OVERLAY OF ONLY THE 314 AREA?**

**A.** Yes. Although Sprint appears to have no preference between the overlay alternatives, Mr. Knox indicates at page 2 that Sprint can support an all services overlay for the 314 area code.

**Q. ON PAGE 6 (LINES 9 THROUGH 20) SPRINT WITNESS KNOX SUGGESTS THAT THE COMMISSION NOT ADDRESS THE IMPLEMENTATION OF CODE SHARING. DO YOU AGREE?**

**A.** I do not want to discourage code sharing between carriers on a voluntary basis, but I agree that the Commission should not mandate code sharing now.

**d. Response to the Staff**

**Q. DOES STAFF SUPPORT AN OVERLAY OF ONLY THE 314 AREA?**

**A.** Yes. Staff witness Sara Buyak recommends an all service overlay for the present 314 area. Her recommendation notes many of the same negative impacts of a retroactive overlay that I identified in my direct testimony.

1 Q. ON PAGE 11 (LINES 12 THROUGH 17), STAFF WITNESS BUYAK RECOMMENDS THAT THE  
2 COMMISSION ADOPT AN OVERLAY OF 314 IN THIS CASE, BUT RECOMMENDS THAT THE PSC  
3 TAKE NO FURTHER ACTION FOR ADDITIONAL FUTURE RELIEF. DO YOU AGREE THAT IF THE  
4 COMMISSION ADOPTS AN OVERLAY OF ONLY 314 IT IS NOT NECESSARY TO DECIDE ON  
5 ADDITIONAL FUTURE RELIEF NOW?

6 A. Yes. Ms. Buyak at page 6 of her direct testimony states that an overlay of only 314 would  
7 provide 6.3 years relief, according to Neustar's projections. I see no need for the  
8 commission today to predetermine an issue that is anticipated to occur more than six years  
9 into the future. Six years is a very long time in the telecommunications area.

10 Q. ON PAGES 12 -13, STAFF WITNESS WALT CECIL APPEARS TO DISCOURAGE THE A  
11 POOLING TRIAL IN 816, BECAUSE THE LIFE OF 816 MAY BE TOO SHORT AND THE TIME  
12 NEEDED TOO LONG TO JUSTIFY ACTING BEFORE A NATIONAL ROLL-OUT. DOES PUBLIC  
13 COUNSEL AGREE WITH THAT ASSESSMENT?

14 A. No. Unlike Mr. Cecil, I believe that Missouri may be able to initiate state trials well in  
15 advance of the national rollout. Looking at page 10 of his direct testimony, it appears that I  
16 assumed a lower rate of code demand and believe that code reclamation efforts offer more  
17 potential in postponing the need for relief in 816.

18 Q. PLEASE IDENTIFY THE POINTS OF DISAGREEMENT.

19 A. First, I do not agree that this proceeding must be concluded prior to the Commission  
20 ordering a pooling trial in 816. I believe that immediately upon receipt of a delegation of  
21 authority from the FCC, the Commission has the authority to order a pooling trial in 816.  
22 While the FCC indicates that state pooling should not be used as a substitute for area code

1 relief planning, paragraph 171 of the FCC's order seems to clearly indicate that state pooling  
2 trials and relief planning can occur concurrently.

3 Second, Mr. Cecil envisions a lengthy timeframe for initiating pooling trials. I am more  
4 optimistic and hope that Missouri can match the 6 to 7 month timeframe that other states  
5 have adopted for implementing pooling trials once the states received a delegation of  
6 authority from the FCC.

7 Third, while Mr. Cecil appears to rely on the national roll-out schedule, my previous  
8 experience with universal service and numbering issues has eroded my confidence the initial  
9 federal timelines.

10 Fourth, Mr. Cecil gives weight to the June 21, 2001 initial roll-out date. I am concerned  
11 that even if the national rollout occurs on schedule, 816 may not be included in the initial  
12 rollout and, therefore, Missouri may have to wait past June 1<sup>st</sup> of 2001 for pooling in 816  
13 under the national framework.

14 Fifth, Mr. Cecil's evaluation appears to hinge on Neustar's projected code demand. My  
15 demand projections are somewhat lower than Neustar's. With this difference, Mr. Cecil  
16 seems to be working with an assumption that 816 will exhaust in a little over 1.5 years  
17 (absent reclamation) while I am working under an assumption of exhaust in 2.4 years  
18 (absent reclamation).

19 Sixth, he discounts the potential benefit of code reclamation while I view it as an immediate  
20 and potentially significant method of prolonging the life of 816. As of June 20, 2000, 198  
21 codes available in 816, this is a net increase of 4 relative to the 4/26/00 information in my  
22 direct testimony. Reclassifying codes as available has mitigated the use rate of 816 codes.  
23 There may be additional codes that can be reclassified or reclaimed on a voluntary or

1 mandatory basis. Based on these considerations, my estimated life of the 816 code may be  
2 closer to 3 years absent pooling

3 **Q. DOES THIS CONCLUDE YOUR TESTIMONY?**

4 **A. Yes.**

| Update of Available 314 Codes |         |         |         |
|-------------------------------|---------|---------|---------|
| 4/26/00                       | 5/9/00  | 6/5/00  | 6/20/00 |
| 314-200                       | 314-200 | 314-200 | 314-200 |
| 314-207                       | 314-207 | 314-207 | 314-207 |

Response of NeuStar to Public Counsel's Data Requests 16-18

June 12, 2000

Page 4 of 4

No. 18

**RESPONSE OF NEUSTAR, INC  
TO PUBLIC COUNSEL DATA REQUEST**

**INFORMATION REQUESTED:** The data requests for number 3 and its subparts refers to the list of central office codes set forth in the attached chart.

- (a) For each of the following central office codes, please explain why the code was identified on Neustar's webpage as unavailable as of 05/09/2000.
- (b) For each code identified as an "aging" code, please identify the date it will become available for reassignment.
- (c) For each code identified as a "reserved" code, please identify the date it was reserved.
- (d) For each code under investigation, please explain the status of your investigation.

**RESPONSE:**

See Attachment A.

**Response provided by:**

Cheryl Dixon, Senior Code Administrator  
CO Code Administration  
NeuStar, Inc.  
1800 Sutter Street, Suite 570  
Concord, CA 94520

**ATTACHMENT A**

**RESPONSE OF NEUSTAR, INC  
TO OFFICE OF PUBLIC COUNSEL DATA  
REQUEST NO. 18**

**ATTACHMENT A  
RESPONSE TO DATA REQUEST 18**

(a) The reasons for the unavailability of the CO codes in question are listed in the table below. Due to confidentiality restrictions, recently assigned codes that are not yet public are listed on the NANPA web site as Unavailable / Assigned without the carrier specific information. When this list was created, the codes identified below as "Recent Assignment" were not yet available for public disclosure.

(b) NeuStar is uncertain as to the meaning of "aging" as used in this data request.

(c) The date of reservation of each code identified as "reserved" is set forth in the table below.

(d) NeuStar is working with the former Code Administrator for Missouri, Southwestern Bell Telephone Company ("SWBT") on a monthly basis to determine the status of certain codes identified as "under investigation." NeuStar's most recent contact with SWBT regarding this issue was in May 2000.

| NPA-NXX | Disposition                         |

R = Relief date based upon rationing amount

NA = Not Applicable

\*\* = Code data used for study as of 4/1/00

Capped = Overlaid NPA where the supply of NXX codes is exhausted. Codes are assigned if they become available.

NPA exhaust projections contained herein may change based on demand for numbering resources and will be modified or revised by the NANPA as new data becomes available and are analyzed.

R = Relief date based upon rationing amount

NA = Not Applicable

\*\* = Code data used for study as of 4/1/00

Capped = Overlaid NPA where the supply of NXX codes is exhausted. Codes are assigned if they become available
