**ORDER APPROVING INTEREXCHANGE AND LOCAL EXCHANGE CERTIFICATES OF
SERVICE AUTHORITY AND ORDER APPROVING TARIFF**

Webster Technologies, L.L.C. (Webster or Applicant) applied to the Public Service Commission on April 11, 1997, for a certificate of service authority to provide intrastate interexchange and local exchange telecommunications services in Missouri under §§ 392.410 - .450, RSMo 1994¹. Webster asked the Commission to classify it as a competitive company and waive certain statutes and rules as authorized by §§ 392.361 and 392.420. Applicant is a Missouri limited liability company, with its principal office located at 1034 Spur Road, Marshfield, Missouri 65706.

The Commission issued a Notice of Applications and Opportunity to Intervene on April 15 directing parties wishing to intervene in the case to file their requests by April 29. Since no one requested a hearing or permission to intervene, the Commission determines that no hearing is necessary. ***State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission***, 776 S.W.2d 494, 496 (Mo. App. 1989).

¹All statutory references are to the Revised Statutes of Missouri, 1994, or to the 1996 Supplement.

Webster filed a proposed tariff along with its application with an effective date of May 26 and filed substitute sheets on May 9. Webster's tariff describes the rates, rules, and regulations it intends to use, identifies Webster as a competitive company, and lists the waivers requested. Webster intends to provide interexchange and local exchange telecommunications services including private line services.

In its Memorandum filed on May 12, the Staff of the Commission stated that Applicant's proposed rate structures or services are similar to existing IXC offerings. Staff recommended that the Commission grant Applicant a certificate of interexchange service authority, and a certificate of service authority for local exchange telecommunication services on condition that this authority be restricted to providing dedicated, non-switched local exchange private line services. Staff recommended that the Commission grant Applicant competitive status, and waiver of the statutes and rules listed in the Notice. Applicant filed its amended application on May 1 which provides that Applicant does not seek non-standard waivers. Staff recommended that the Commission approve the tariff as amended to become effective on May 26.

The Commission finds that competition in the intrastate interexchange and local exchange telecommunications markets is in the public interest and Applicant should be granted a certificate of service authority. The Commission finds that the services Applicant proposes to offer are competitive and Applicant should be classified as a competitive company. The Commission is of the opinion that waiving the statutes and Commission rules set out in Ordered Paragraph 2 is reasonable and not detrimental to the public interest.

The Commission determines, by authority of § 392.470, that Applicant should comply with the following regulatory requirements as reasonable and necessary conditions of certification:

- (1) Applicant must comply with reasonable requests by Staff for financial and operating data to allow Staff to monitor the intraLATA toll market. § 386.320.3.
- (2) Applicant must file tariffs containing rules and regulations applicable to customers, a description of the services provided, and a list of rates associated with those services in accordance with 4 CSR 240-30.010 and § 392.220.
- (3) Applicant may not unjustly discriminate between its customers. §§ 392.200, 392.400.
- (4) Applicant must comply with all applicable rules of the Commission except those specifically waived by this order. §§ 386.570, 392.360.
- (5) Applicant must file a Missouri-specific annual report. §§ 392.210, 392.390.1.
- (6) Applicant must comply with jurisdictional reporting requirements as set out in each local exchange company's access services tariff. § 392.390.3.
- (7) Applicant must submit to the Staff, on a confidential basis, a copy of the jurisdictional report it submits to local exchange companies. The report must be submitted within ten (10) days of the date on which it is submitted to the local exchange company.

The Commission finds that Webster's proposed tariff details the services, equipment, and pricing it proposes to offer, and is similar to

tariffs approved for other Missouri certificated interexchange and local exchange carriers. The Commission finds that the proposed tariff filed on April 11 and amended on May 9 should be approved as amended to become effective on May 26, 1997.

IT IS THEREFORE ORDERED:

1. That Webster Technologies, L.L.C. is granted a certificate of service authority to provide intrastate interexchange telecommunications services in the state of Missouri, subject to the conditions of certification set out above.

2. That Webster Technologies, L.L.C. is granted a certificate of service authority to provide local exchange telecommunications services in the state of Missouri limited to providing dedicated, non-switched local exchange private line services, subject to the conditions of certification set out above.
