ORDER APPROVING INTEREXCHANGE CERTIFICATE OF SERVICE AUTHORITY AND  
ORDER APPROVING TARIFF

Access Network Services, Inc. d/b/a ANSI Services, Inc. (Access Network) applied to the Public Service Commission on October 20, 1995, for a certificate of service authority to provide intrastate interexchange telecommunications services in Missouri under § 392.440 RSMo 1994<sup>1</sup>. Access Network asked the Commission to classify it as a competitive company and waive certain statutes and rules as authorized by §§ 392.361 and 392.420. Applicant is a Texas corporation, with its principal office at 8201 Preston Road, Suite 350, Dallas, Texas 75225.

The Commission issued a Notice and Schedule of Applicants on November 7, 1995, directing parties wishing to intervene in the case to do so by November 22, 1995. Since no one requested a hearing or permission to intervene, the Commission determines that no hearing is necessary.

*State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission*, 776 S.W.2d 494, 496 (Mo.App. 1989).

Access Network filed a proposed tariff at the time of its application, on October 20, 1995, and filed substitute sheets on November 17, 1995. The tariff's effective date is December 4, 1995. Access Network's tariff describes the rates, rules, and regulations it intends to use, identifies Access Network as a competitive company, and lists the waivers requested. Access Network intends to provide interexchange telecommunications services including 1+, 800, private line, and debit card services.

In its Memorandum filed November 27, 1995, the Staff of the Commission stated that Applicant's proposed services are the same or equivalent to those classified as competitive in Case No. TO-88-142, *In re the investigation for the purpose of determining the classification of the services provided by interexchange telecommunications companies within the State of Missouri*, 30 Mo. P.S.C. (N.S.) 16 (September 1989). Staff recommended that the Commission grant Applicant a certificate of service authority, competitive status, and waiver of the statutes and rules listed in the Notice. Staff recommended that the Commission approve the tariff as amended, effective December 4, 1995.

The Commission finds that competition in the intrastate interexchange telecommunications market is in the public interest and Applicant should be granted a certificate of service authority. The Commission finds that the services Applicant proposes to offer are

competitive and Applicant should be classified as a competitive company. The Commission is of the opinion that waiving the statutes and Commission rules set out in Ordered Paragraph 2 is reasonable and not detrimental to the public interest.

The Commission determines, by authority of § 392.470, that Applicant should comply with the following regulatory requirements as reasonable and necessary conditions of certification:

- (1) Applicant must comply with reasonable requests by Staff for financial and operating data to allow Staff to monitor the intraLATA toll market. § 386.320.3.
- (2) Applicant must file tariffs containing rules and regulations applicable to customers, a description of the services provided, and a list of rates associated with those services in accordance with 4 CSR 240-30.010 and § 392.220.
- (3) Applicant may not unjustly discriminate between its customers. §§ 392.200, 392.400.
- (4) Applicant must comply with all applicable rules of the Commission except those specifically waived by this order. §§ 386.570, 392.360.
- (5) Applicant must file a Missouri-specific annual report. §§ 392.210, 392.390.1.
- (6) Applicant must comply with jurisdictional reporting requirements as set out in each local exchange company's access services tariffs. § 392.390.3.

- (7) Applicant must submit to the staff, on a confidential basis, a copy of the jurisdictional report it submits to local exchange companies. The report must be submitted within ten (10) days of the date on which it is submitted to the local exchange company.

The Commission finds that Access Network's proposed tariff details the services, equipment, and pricing it proposes to offer, and is similar to tariffs approved for other Missouri certificated interexchange carriers. The Commission finds that the proposed tariff filed on October 20, 1995, and amended on November 17, 1995, should be approved, effective December 4, 1995.

IT IS THEREFORE ORDERED:

1. That Access Network Services, Inc. d/b/a ANSI Services, Inc. be granted a certificate of service authority to provide intrastate interexchange telecommunications services in the state of Missouri, subject to the conditions of certification set out above.
