ORDER DIRECTING FILING

On September 15, 2000, Union Electric Company, doing business as AmerenUE (UE), filed its Fourth and Final Status Report as directed by the Commission. Therein, UE stated that it had completed all of the improvements planned for the area served by its Brumley Substation and moved that this case be closed. On October 2, 2000, the Staff of the Missouri Public Service Commission (Staff) filed its Response to UE's Status Report, stating that, while it is satisfied with the progress made by UE with respect to the Brumley Substation improvements, the case should remain open until UE has completed replacement of certain power line poles in the Brumley area.

The Commission adopted Staff's suggestion and, on October 11, 2000, directed UE to either file a pleading advising completion of this work or, if the work was not completed by the 90th day thereafter, a status report showing the progress of this work. Although the 90th day after October 11 was January 9, 2001, UE has filed nothing.

IT IS THEREFORE ORDERED:

1. That Union Electric Company, doing business as AmerenUE, shall, on or before February 15, 2001, file a pleading in this case advising the Commission that it has completed replacement of the power line poles referred to in Staff's response of October 2, 2000, or, if this work is not yet completed, UE shall file herein a status report showing the progress of this work.

2. That this order shall become effective on February 12, 2001.
