

STATE OF MISSOURI  
PUBLIC SERVICE COMMISSION

At a Session of the Public Service  
Commission held at its office  
in Jefferson City on the 30th  
day of July, 1991.

In the matter of The Kansas Power & Light Company's )  
tariffs to permit Company to enter into a gas ) Case No. GO-91-389  
transportation contract with the City of Wheaton, )  
Missouri. )

ORDER APPROVING TARIFF

On June 13, 1991, Kansas Power and Light Company (KPL or Company) submitted a tariff for expedited approval creating a new service classification, the purpose of which is to establish an intrastate transportation service rate to Missouri municipalities and regulated natural gas utilities. Company originally requested that said tariff be made effective on July 13, 1991. Following Staff's request for additional time, Company now proposes an effective date of August 1, 1991.

By its recommendation dated July 25, 1991, the Commission Staff states this tariff should be approved and that said approval will qualify Company's transportation of natural gas for end use in Missouri under the "Hinshaw" exemption in Section 717(C) of the Natural Gas Act.

The Commission has considered the proposed tariff and Staff's recommendation and has determined the tariff is reasonable and should be approved. The Commission also determines that a proposed contract between KPL and the City of Wheaton, Missouri, whereby KPL is to transport natural gas pursuant to this tariff, is authorized by said tariff filing, is in the public interest, and is exempt from regulation by the Federal Energy Regulatory Commission.

IT IS THEREFORE ORDERED:

1. That the following tariff sheets submitted by The Kansas Power and Light Company for the purpose of implementing a new intrastate transportation service in the Company's Missouri service area be, and are hereby authorized to become effective on and after August 1, 1991.
