Dear Mr. Roberts,

This is a request for records under the Missouri Sunshine Law, Chapter 610, Revised Statutes of Missouri.

1. Complete copy of the RW Beck engineering study from 2007 (also called a Power Needs Report).

I request that all fees for locating and copying these records be waived as the information I obtain through this request is pursuant to the current case (EO-2010-0263) before the Missouri Public Service Commission and will be used for the public good.

I request that this copy be provided as soon as possible because delays in providing the report will create delays in the MoPSC proceedings.

Sincerely,

Donna Hawley
