Commission held at its office  
in Jefferson City on the 8th  
day of February, 1994.

In the matter of the application of Telecare, Inc. )  
for a certificate of service to operate as an ) CASE NO. TA-94-151

within the State of Missouri. )

ORDER APPROVING INTEREXCHANGE CERTIFICATE OF SERVICE AUTHORITY

On November 8, 1993, Telecare, Inc. (Applicant) applied to the Public Service Commission (Commission) for a certificate of service authority to provide intrastate interexchange telecommunication service within the state of Missouri and for classification as a competitive telecommunications company pursuant to Sections 392.361 and 392.440, RSMo (Cum. Supp. 1992). Applicant also requested waiver of certain statutes and Commission rules as authorized by Section 392.420, RSMo (Cum. Supp. 1992). The Commission issued its Order and Notice on November 19, 1993, ordering parties wishing to intervene in the case to do so by December 20, 1993. There were no motions filed for permission to intervene or for hearing.

On January 31, 1994, the Staff of the Commission (Staff) filed its memorandum recommending approval of Company's application. Staff stated that Applicant's proposed services are the same or equivalent to the services which were classified as competitive in Case No. TO-88-142, *In re the investigation for the purpose of determining the classification of the services provided by interexchange telecommunications companies within the State of Missouri*, 30 Mo. P.S.C. (N.S.) 16 (September 1989). Staff recommended that the Commission grant Applicant competitive status.

The Commission finds that Applicant is an Indiana corporation authorized to do business in the state of Missouri, with its principal office or

place of business located at 444 Lafayette Road, Noblesville, Indiana 46060. The Commission finds that Applicant has filed current financial information and a brief description of the type of service it proposes to provide, and has agreed to comply with all applicable rules and regulations of the Commission, and with any terms and conditions which the Commission may lawfully impose.

The requirements of due process have been satisfied when interested persons have been given notice and an opportunity to be heard. Notice in this case was sent by the Commission on November 19, 1993, and interested parties were directed to intervene on or before December 20, 1993. Since no proper party or governmental entity has filed an application to intervene, and there have been no requests for hearing, the Commission determines that a hearing is not necessary and the Applicant may submit evidence in support of its application by verified statement. *State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission*, 776 S.W.2d 494, 496 (Mo.App. 1989).

After reviewing Applicant's verified statement and Staff's recommendation, the Commission finds that additional competition in the intrastate interexchange market is in the public interest and a certificate of service authority should be granted to Applicant. The Commission also finds that the services Applicant proposes to offer are competitive, and that waiving the statutes and Commission rules set out below is reasonable and not detrimental to the public interest. Therefore, the Commission concludes that Applicant should be classified as a competitive company pursuant to Section 392.361, RSMo (Cum. Supp. 1992).

The Commission determines that, pursuant to Section 392.470, RSMo (Cum. Supp. 1992), certain regulatory requirements should be imposed upon Applicant as a reseller of telecommunications services in Missouri. Applicant should be subject to the following regulatory requirements as reasonable and necessary conditions of certification:

- (1) Applicant is required to comply with reasonable requests by Staff for financial and operating data to allow Staff to monitor the intraLATA toll market pursuant to Section 386.320.3, RSMo (1986).
- (2) Applicant is required to file tariffs containing rules and regulations applicable to customers, a description of the services provided, and a list of rates associated with those services pursuant to Section 392.220, RSMo (Cum. Supp. 1992), and 4 CSR 240-30.010.
- (3) Applicant's tariff filing must contain a preliminary section which states that Company is a competitive carrier and identifies the statutory and rule waivers granted it by the Commission.
- (4) Applicant is precluded from unjustly discriminating between and among its customers pursuant to Sections 392.200 and 392.400, RSMo (Cum. Supp. 1992).
- (5) Applicant is required by Section 386.570, RSMo (1986), and Section 392.360, RSMo (Cum. Supp. 1992), to comply with all applicable rules of the Commission except those which have been specifically waived by this order.
- (6) Applicant is required to file a Missouri-specific annual report pursuant to Sections 392.210 and 392.390.1, RSMo (Cum. Supp. 1992).
- (7) Applicant is required to comply with jurisdictional reporting requirements as set out in each local exchange company's access services tariffs pursuant to Section 392.390.3, RSMo (Cum. Supp. 1992).

- (8) A copy of the jurisdictional report submitted to local exchange companies shall be submitted to the staff on a confidential basis within ten (10) days of the date on which it is submitted to the local exchange company.

The Commission also finds that Applicant should file appropriate tariffs within thirty (30) days of the effective date of this order. The certificate of service authority to be granted by this order will become effective only upon the Commission's approval of these tariffs.

**IT IS THEREFORE ORDERED:**

1. That Telecare, Inc. be granted a certificate of service authority to provide intrastate interexchange telecommunication services in the state of Missouri.
