(Name of Applicant) ) Case No. \_\_\_\_\_ )  
)  
for change of electric supplier. )

APPLICATION FOR CHANGE OF ELECTRIC SERVICE PROVIDER

1. Applicant's address is: 18540 County Rd P, Weston, Mo 64098. The  
property in question is at 18305 Leber Rd., Weston, Mo 64098

2. The name of Applicant's current electric service provider is: Evergy

3. Applicant requests the Missouri Public Service Commission to order a change  
of electric supplier to the address indicated above.

4. Applicant requested the Commission to order a change of electric supplier

from Evergy  
(Current)  
to Platte-Clay Electric Cooperative  
(Requested)

5. Applicant requests the Missouri Public Service Commission to order a change  
of electric provider for the following reasons.\* Location: The property in

question is completely surrounded by Platte-Clay Electric  
Cooperative. The main house is serviced by Evergy  
and the rental house 1/2 mile to the south is serviced  
by Platte-Clay. The two houses are on the 80 acre farm  
which is a Missouri Century Farm that has been in  
the family since 1906.

6. Applicant has taken the following steps in an attempt to work out electric

service problems with the electric service provider: Dissatisfaction with service is not the main issue. The location is the question. All the properties surrounding this location are serviced by Platte-Clay. There are no housing additions involved-- it is strictly farm land. The second house (rental) is serviced by Platte-Clay. It would be so much simpler for me (the owner of both) to have the same service for both.

WHEREFORE, Applicant requests the Missouri Public Service Commission to issue an Order which changes the current electric service provider.

\*If reason for change is poor service, outages, low voltage, etc., applicant should submit a record of service problems covering at least 90 days, including dates and times of problems to the extent possible. Applicant should also attempt to determine reasons for any service problems. For instance, if electric service was out or you are experiencing blinking lights, you should contact the supplier of electric service to determine the problem, and include this information with the application. (If the reasons from the supplier was a storm, car hitting pole, trees in line, conductor fell down, or whatever the supplier states for the problem, this should be noted.)
