Missouri Public Service Commission
200 Madison Street
Jefferson City, Mo. 65102
RE: Commission Case No. MX-2016-0317

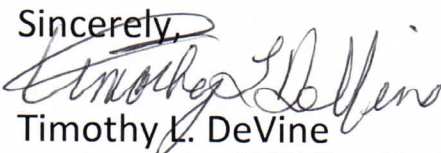

To Whom It May Concern:

I am writing in response to the Public Service Commission's proposed rule changes concerning manufactured housing. I feel these proposed changes will have a negative impact on small business in the State of Missouri providing affordable housing. The manufactured housing industry has just started rising. These proposed monetary fines and higher cost for re-inspections will have a negative effect on dealers, installers and manufacturers, many of whom are small, family owned businesses.

Please take time to look at the actual results of what these proposed rule changes will do to business in the State of Missouri. We, small business owners are just now starting to see an upturn in our industry and what we do not need at this point in time is further costs added to our bottom line. We would much rather look at providing more jobs for individuals in our state.

I ask only that you take more time to examine the true effects of these proposed changes.

Sincerely,

Timothy L. DeVine
