Public Comments Report

Port Perry Service Company

SR-2009-0298

Item	First Name	Last Name	City	State	Public Comments	Person	Resolution
P200900938	Sylvester	Biermann	Perryville	MO	\$6.39 each month is a very big increase for a sewer company that hasn't made any improvements for the past several years. Yes, I agree, there are more homes on the system but that by itself provides additional revenue. I would like to see the list of changes/improvements that have been submitted in support of this request. I'm a part time resident at Lake Perry and don't deny any company it's due but this request seems to be completely out of line with other sewer companies that I know of.	JMR	Letter mailed April 23, 2009.
P200900900	Sheila	Caskey	Cape Girardeau	MO	I see no reason to grant a rate increase. Since acquisition, this company has increased its number of users with no changes or improvements to the infrastructure, nor has anyone who they serve been notified of any proposed improvements. This includes the Board of Trustees of Lake Perry.(I am a member of this board.). The same comment applies to case WR-2009-0299. Again, they have added many users, with no discernable increase in services.	JMR	Letter mailed April 23, 2009.
P200900902	Clarence	Espy	Perryville	MO	Not being aware of any capitol inprovements to the sewer system other that additional access paid by the new customer through "tap on fees", I find it difficult to understand a request for a rate increase of 45%. If this amount can be justified I would appreciate being informed as to why.	JMR	Letter mailed April 23, 2009.
P200900936	bette	gray	perryville	MO	I AM SUBMITTING THIS AGAIN BECAUSE I DIDN'T LIST THE UTILITY CO. I BELIEVE THE RATE PROPOSEAL IS FAR TO HIGH. I DO NOT SEE THE NEED TO INCREASE THE ASSETS OF THE COMPANY. I WOULD RATHER KEEP MY ASSETS TO INVEST MYSELF. THERE IS NO SPEICIAL NEED FOR THE INCREASE SO I SAY NO!	JMR	Letter mailed April 23, 2009.
P200901055	Steve	Koeln	perryville	MO	I can not see a 45% raise of rates for the sever system. In 2000, I paid almost \$5000.00 to tap on to the sewer and water system. We grind and pump the sewerage into the sewer lines. At our cost we pump the sewage and expand the system through fees and equipment charges.	JMR	Letter mailed April 23, 2009.

P200901099	Gary	Polk	Leesburg	IN	In speaking with Mackey Smith he said reason for increase in sewer was the hookup cost for new housing that they are absorbing due not charging enough for new hook ups I feel that if your building a new house then you should be paying for the hookup charge and if that needs to be raised then raise that but don`t make the other home owners pay for this the rate of increase is 45% on sewer I see this as a hefty jump all at once. If there is more house being added then there is more revenue already	JMR	Letter mailed April 23, 2009.
Letter	Robert	Hoelscher	Perryville	MO	See attached.	JMR	Letter mailed April 23, 2009.
Letter	Richard L.	McConachie	Perryville	MO	See attached.	JMR	Letter mailed April 23, 2009.

Public Service Commission:

As a homeowner ^{at Lake Perry} I would like to voice my opinion of the proposed increase in rates for water and sewer. The case numbers are ~~SR-2009-0298~~ & WR2009-0299.

Port Perry Services is asking for almost 50% increase in their charge for full-time and part-time monthly ^{sewer} service. This is exorbitant! How can they possibly justify this outrageous amount. Many like myself may use the house very infrequently during the winter months. My monthly bill would increase from \$14 to \$20 even during the months that I never use it.

How Port Perry Services can justify such a request is beyond my comprehension!

Public Comments

This owner operator does nothing to install our masceraters, storage tanks, or run the sewage lines from our homes up to his sewage lines. All he does is the final tap in to his line, & yet he contends that he is loosing money on his tap in fees, so in my estimation he should raise the tap in fee rates, & not the sewage disposal rates ! Why are the sewage rates higher than the water rates anyway ? That does'nt make sense !
