Subject: Public Counsel proposed additions to 22.070

During the last IRP workshop, I discussed the concepts for some additional rule provisions that OPC would be proposing to help assure that the utility IRP filings in the PSC's IRP process are consistent with the utility's internal resource planning process. The attached proposed additions to .070 are intended to help decrease the discrepancies that can occur between internal plans and filed plans and ensure that all significant risks associated with the utility's preferred resource plan are properly analyzed within the IRP filings made pursuant

to the IRP rule.

We look forward to discussing these proposals with other stakeholders during the IRP rulemaking workshop later this week.
