RE: HT-2015-0262

Mr. Woodruff:

Filed through EFIS is the following steam tariff sheet for filing on behalf of KCP&L Greater Missouri Operations Company – For St. Joseph, Missouri and Environs, providing the current Quarterly Cost Adjustment per the Stipulation and Agreement in Case No. HR-2009-0092.

The tariff sheet, listed below, has an effective date of December 1, 2015.

In October 2014, the Company filed a QCA for its steam business reflecting an adjustment to the Coal Performance Standard as a result of the unavailability of Boiler 5 to operate at full capacity. A planned outage occurred May 17th, 2015 and was expected to run through July 18th, 2015 to repair Boiler 5 and restore its capability to operate at 250,000 PPH. The outage extended longer than anticipated resulting in Boiler 5 operating at full capacity as of the end of August 2015. The Staff was notified August 3, 2015. Therefore, the Coal Performance Standard has been further adjusted.

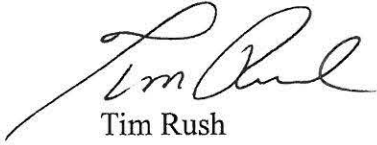

The aforementioned adjustment to the Coal Performance Standard is reflected in the current steam tariff sheet and supporting calculation worksheets. For further description and quantification of the Coal Performance Standard adjustment, attached is the Lake Road Generating Station – Boiler 5 Outage document which has been updated with the most current outage information. We will continue to communicate any further changes, if necessary.

Also filed are the supporting calculation worksheets.

Mr. Morris Woodruff, Secretary
