**Subject:** Sewer rate increase Case number SO-2008-0289

I received notification of another sewere rate increase from R. D. Sewer Co. L.L.C. proposing service increase from \$23.26 per Month to \$31.10 per month. Our rate had already doubled this year from \$13.16 to \$23.26 and now they want another increase. I have lived here for 21 years and there has not been any up dates or any type of modification to the sewage system at all. There is not a full time person taking care of the system. Only 1 person once or twice a week.

In the summer when it is hot and the wind blows a little, the smell from that facality is awful.

If you are so intent on giving them permission to increase the service rate again, I suggest you send someone down here and get a true evauation of the whole situation, or at least have a public hearing and get the home owners in this area their view points on this ridiculous proposal.

Ref: Case number SO-2008-2089

Rate increase in sewer rates.

Is it possible for you to provide me with documentations submitted by R. D. Sewer Co. L.L.C. to your office showing how the 2 increases in rates are justified?

The two following pages are people living in the area that oppose these increases and are affected by them. More signatures are available if required.

A Mr. Steve Loethn has contacted me and is supposed to come here and look at the situation. According to him these sewer system has approx 176 customers on it and is at max capacity or just a little over.

Thank you for your time  
Samuel G. Dicks
