CASE NO. TA-97-508

**ORDER APPROVING INTEREXCHANGE AND LOCAL EXCHANGE CERTIFICATES OF
SERVICE AUTHORITY AND ORDER APPROVING TARIFF**

Se-Ma-No Technologies, L.L.C. (Applicant) applied to the Public Service Commission on May 23, 1997, for certificates of service authority to provide intrastate interexchange and local exchange telecommunications services in Missouri under Section 392.410 - .450 RSMo 1994¹. Applicant asked the Commission to classify it as a competitive company and waive certain statutes and rules as authorized by Sections 392.361 and 392.420. Applicant is a Missouri limited liability company, with its principal office located at 601 North Bus. 60 Hwy, P.O. Box 318, Mansfield, Missouri 65704-0318.

The Commission issued a Notice of Applications and Opportunity to Intervene on June 10, directing parties wishing to intervene in the case to file their requests by June 25. The requirement for a hearing is met when the opportunity for hearing has been provided and no proper party has requested the opportunity to present evidence. State ex rel. Rex Deffenderfer Enterprises, Inc. v. Public Service Commission, 776 S.W.2d 494, 496 (Mo. App. 1989). Since no one has asked permission to intervene

or requested a hearing in this case, the Commission may grant the relief requested based on the verified application.

Applicant filed a proposed tariff in conjunction with its application and filed substitute sheets on June 20. The tariff's effective date was extended from July 7 to July 21. Applicant's tariff describes the rates, rules, and regulations it intends to use, identifies Applicant as a competitive company, and lists the waivers requested. Applicant intends to provide interexchange and local exchange telecommunications services including private line services.

In its Memorandum filed on June 27, the Staff of the Commission stated that Applicant's proposed services are similar to existing IXC offerings. Staff recommended that the Commission grant Applicant a certificate of interexchange service authority, and a certificate of service authority for local exchange telecommunication services on condition that this authority be restricted to providing dedicated, non-switched local exchange private line services. Staff recommended that the Commission grant Applicant competitive status, and waiver of the statutes and rules listed in the Notice. Staff recommended that the Commission approve the proposed tariff to become effective on July 21.

The Commission finds that competition in the intrastate interexchange and local exchange telecommunications markets is in the public interest and Applicant should be granted certificates of service authority. The Commission finds that the services Applicant proposes to offer are competitive and Applicant should be classified as a competitive company. The Commission is of the opinion that waiving the statutes and Commission rules set out in Ordered Paragraph 3 is reasonable and not detrimental to the public interest.

The Commission determines, by authority of Section 392.470, that Applicant should comply with the following regulatory requirements as reasonable and necessary conditions of certification:

- (1) Applicant must comply with reasonable requests by Staff for financial and operating data to allow Staff to monitor the intraLATA toll market. § 386.320.3.
- (2) Applicant must file tariffs containing rules and regulations applicable to customers, a description of the services provided, and a list of rates associated with those services in accordance with 4 CSR 240-30.010 and § 392.220.
- (3) Applicant may not unjustly discriminate between its customers. §§ 392.200, 392.400.
- (4) Applicant must comply with all applicable rules of the Commission except those specifically waived by this order. §§ 386.570, 392.360.
- (5) Applicant must file a Missouri-specific annual report. §§ 392.210, 392.390.1.
- (6) Applicant must comply with jurisdictional reporting requirements as set out in each local exchange company's access services tariffs. § 392.390.3.
- (7) Applicant must submit to the Staff, on a confidential basis, a copy of the jurisdictional report it submits to local exchange companies. The report must be submitted within ten (10) days of the date on which it is submitted to the local exchange company.

The Commission finds that Applicant's proposed tariff details the services, equipment, and pricing it proposes to offer, and is similar

to tariffs approved for other Missouri certificated interexchange and local exchange carriers. The Commission finds that the proposed tariff filed on May 23, and amended on June 20, should be approved to become effective on July 21.

IT IS THEREFORE ORDERED:

1. That Se-Ma-No Technologies, L.L.C. is granted a certificate of service authority to provide intrastate interexchange telecommunications services in the state of Missouri, subject to the conditions of certification set out above.

2.
